The Ordination of a Tree Susan M. Darlington, 2012-11-15 Thai Buddhist monks wrap orange clerical robes around trees to protect forests Ordaining a tree is a provocative ritual that has become the symbol of a small but influential monastic movement aimed at reversing environmental degradation and the unsustainable economic development and consumerism that fuel it This book examines the evolution of this movement from the late 1980s to the present exploring the tree ordination and other rituals used to resist destructive national projects Susan M Darlington explores monks motivations showing how they interpret their lived religion as the basis of their actions and provides an in depth portrait of activist monk Phrakhrū Pitak Nanthakhun The obstacles monks face including damage to their reputations arrest and even assassination reveal the difficulty of enacting social justice Even the tree ordination itself must now withstand its appropriation for state projects Despite this monks have gone from individual action to a loosely allied movement that now works with nongovernmental organizations This is a fascinating firsthand account of engaged Buddhism **Everyday Life in**

Adams, Kathleen Gillogly, 2011-07-18 This lively survey of the peoples cultures and societies of Southeast Asia introduces a region of tremendous geographic linguistic historical and religious diversity Encompassing both mainland and island countries these engaging essays describe personhood and identity family and household organization nation states religion popular culture and the arts the legacies of war and recovery globalization and the environment Throughout the focus is on the daily lives and experiences of ordinary people Most of the essays are original to this volume while a few are widely taught classics All were chosen for their timeliness and interest and are ideally suited for the classroom Roaming Free Like a Deer Daniel Capper, 2022-03-15 By exploring lived ecological experiences across seven

Buddhist worlds from ancient India to the contemporary West Roaming Free Like a Deer provides a comprehensive critical and innovative examination of the theories practices and real world results of Buddhist environmental ethics Daniel Capper clarifies crucial contours of Buddhist vegetarianism or meat eating nature mysticism and cultural speculations about spirituality in nonhuman animals Buddhist environmental ethics often are touted as useful weapons in the fight against climate change However two formidable but often overlooked problems with this perspective exist First much of the literature on Buddhist environmental ethics uncritically embraces Buddhist ideals without examining the real world impacts of those ideals thereby sometimes ignoring difficulties in terms of practical applications Moreover for some understandable but still troublesome reasons Buddhists from different schools follow their own environmental ideals without conversing with other Buddhists thereby minimizing the abilities of Buddhists to act in concert on issues such as climate change that demand coordinated large scale human responses With its accessible style and personhood ethics orientation Roaming Free Like a Deer should appeal to anyone who is concerned with how human beings interact with the nonhuman environment Soil Survey, 2004 *Soil Survey of Toole County, Montana*, 2002 *Soil Survey of Lewis and Clark County Area, Montana*
