Ore giapponesi Fosco Maraini,2019-05-09T00:00:00+02:00 Per molti aspetti il Giappone di oggi somiglia alla Svizzera due paesi nei quali tutto dai treni alle poste dagli alberghi ai negozi dalle fabbriche alle banche alle universit funziona come un orologeria mirabilmente oliata che non conosce inceppi Resta solo una grossa differenza che la Svizzera non offre misteri mentre il Giappone misteriosissimo In un certo senso il Giappone guerresco e aggressivo degli anni Trenta e Quaranta era abbastanza trasparente e comprensibile ma i giapponesi dei giorni nostri i quali dopo essere rimasti stesi a terra nel 45 finiscono in meno di mezzo secolo per costruire una delle maggiori potenze industriali commerciali e finanziarie del globo pur non vantando il possesso di vasti territori n avendo a disposizione materie prime ecco qualcosa che sfiora l enigma cha ha sapore di magia e d occulto Soprattutto quando vediamo che gli artefici della straordinaria cavalcata ci si presentano in genere come individui anonimi confusi nella folla con un fare spesso impacciato Cosa li anima Quali sono i loro segreti Come conoscerli davvero Come capirli L asse portante del libro costituito dal racconto di una lunga e lenta peregrinazione attraverso il Giappone effettuata in macchina a met degli anni Cinquanta in compagnia di giapponesi e di stranieri

Searching for Japan Michele Monserrati,2020 This book pursues the specific case of Italian travel narratives in the Far East through a focus on the experience of Japan in works by writers who visited the Land of the Rising Sun beginning in the Meiji period 1868 1912 and during the concomitant opening of Japan s relations with the West Drawing from the fields of Postcolonial and Transnational Studies analysis of these texts explores one central question what does it mean to imagine Japanese culture as contributing to Italian culture Each author shares in common an attempt to disrupt ideas about dichotomies and unbalanced power relationships between East and West Proposing the notion of relational Orientalism this book suggests that Italian travelogues to Japan in many cases pursued the goal of building imaginary transnational communities predicated on commonalities and integration by claiming what they perceived as Oriental as their own In contrast with a long history of Western representations of Japan as inferior and irrational Searching for Japan identifies a positive overarching attitude toward the Far East country in modern Italian culture Expanding the horizon of Italian transnational networks normally situated within the Southern European region this book reinstates the existence of an alternative Euro Asian axis operating across Italian history Ore Giapponesi.
