Nick Taylor,2008-02-26 If you've traveled the nation's highways flown into New York's LaGuardia Airport strolled San Antonio's River Walk or seen the Pacific Ocean from the Beach Chalet in San Francisco you have experienced some part of the legacy of the Works Progress Administration WPA one of the enduring cornerstones of Franklin D Roosevelt's New Deal When President Roosevelt took the oath of office in March 1933 he was facing a devastated nation Four years into the Great Depression a staggering 13 million American workers were jobless and many millions more of their family members were equally in need Desperation ruled the land What people wanted were jobs not handouts the pride of earning a paycheck and in 1935 after a variety of temporary relief measures a permanent nationwide jobs program was created This was the Works Progress Administration and it would forever change the physical landscape and the social policies of the United States The WPA lasted for eight years spent 11 billion employed 8 million men and women and gave the country not only a renewed spirit but a fresh face Under its colorful head Harry Hopkins the agency's remarkable accomplishment was to combine the urgency of putting people back to work with its vision of physically rebuilding America Its workers laid roads erected dams bridges tunnels and airports They stocked rivers made toys sewed clothes served millions of hot school lunches When disasters struck they were there by the thousands to rescue the stranded And all across the country the WPA's arts programs performed concerts staged plays painted murals delighted children with circuses created invaluable guidebooks Even today more than sixty years after the WPA ceased to exist there is almost no area in America that does not bear some visible mark of its presence Politically controversial the WPA was staffed by passionate believers and hated by conservatives its critics called its projects make work and wags said it stood for We Piddle Around The contrary was true We have only to look about us today to discover its lasting presence *American Blue-book of Biography* Thomas William Herringshaw,1914

Leveraging an Empire Jacki Hedlund Tyler,2021-08 Through an evaluation of Oregon's exclusionary laws Leveraging an Empire examines the process of settler colonialism in the evolving region of the Pacific Northwest between the years 1841 and 1859 Oregon laws through nuanced emphases and new articulations related to national issues of slavery immigration land ownership education suffrage and naturalization Leveraging an Empire demonstrates how the construction of laws governing matters of race gender and citizenship from Oregon's pre territorial days through its early statehood reified and institutionalized American legal definitions and national perceptions of these issues leading up to the Civil War Oregon's exclusionary laws either supported racial and gender restrictions to specific rights or established a legal precedent for such restrictions through the development of legislation governing the remainder of the century These laws some developed even before Oregon became part of the Union in 1846 also influenced federal treatment toward territorial and state policies that restricted American citizens from political rights and reveal the impact of settler colonialism in the American West on the nation
