Mafia Organizations Maurizio Catino,2019-02-07 How do mafias work How do they recruit people control members conduct legal and illegal business and use violence Why do they establish such a complex mix of rituals rules and codes of conduct And how do they differ Why do some mafias commit many more murders than others This book makes sense of mafias as organizations via a collative analysis of historical accounts official data investigative sources and interviews Catino presents a comparative study of seven mafias around the world from three Italian mafias to the American Cosa Nostra Japanese Yakuza Chinese Triads and Russian mafia He identifies the organizational architecture that characterizes these criminal groups and relates different organizational models to the use of violence Furthermore he advances a theory on the specific functionality of mafia rules and discusses the major organizational dilemmas that mafias face This book shows that understanding the organizational logic of mafias is an indispensable step in confronting them

The Criminology of Carlo Morselli - Part I Rémi Boivin,David Décary-Héту,2023-09-12 The first of two volumes this book about the criminology of Carlo Morselli includes diverse contributions that study the social inter dependence of criminal phenomena It presents various studies on the importance and impact of social ties on offenders victims and the social response to crime The idea that social

relationships are central to the understanding of human phenomena draws its roots from Jacob Moreno's work in 1934 whose contribution among others made at about the same time paved the way for social network analysis SNA a set of methods and approaches that study dyadic relationships and their connections to other dyads in the same network Surprisingly SNA was not widely adopted in criminology until the end of the 20th century It took researchers like Carlo Morselli to apply the principles of SNA and graph theory to criminological objects As a researcher Morselli embodied SNA he was a so called broker in his network of social scientists linking dozens of excellent researchers that he collaborated with directly or not Granovetter showed that weak ties or acquaintances were important in the diffusion of new ideas and Morselli put that insight to practice in criminology This collection of works from experts in the field takes on questions that Morselli worked on throughout his career drawing on his theoretical insights his methods and even his general conceptualisation of what organised crime is and isn't to deliver rich and fertile scholarship on the study of social networks in criminology The Criminology of Carlo Morselli Part I will be a key resource for academics researchers and advanced students of Criminology and Criminal Justice Sociology and Social Sciences The chapters included in this book were originally published as a special issue of Global Crime

Using Open Data to Detect Organized Crime Threats Henrik Legind Larsen, José María Blanco, Raquel Pastor Pastor, Ronald R. Yager, 2017-04-07 This work provides an innovative look at the use of open data for extracting information to detect and prevent crime and also explores the link between terrorism and organized crime In counter terrorism and other forms of crime prevention foresight about potential threats is vitally important and this information is increasingly available via electronic data sources such as social media communications However the amount and quality of these sources is varied and researchers and law enforcement need guidance about when and how to extract useful information from them The emergence of these crime threats such as communication between organized crime networks and radicalization towards terrorism is driven by a combination of political economic social technological legal and environmental factors The contributions to this volume represent a major step by researchers to systematically collect filter interpret and use the information available For the purposes of this book the only data sources used are publicly available sources which can be accessed legally and ethically This work will be of interest to researchers in criminology and criminal justice particularly in police science organized crime counter terrorism and crime science It will also be of interest to those in related fields such as applications of computer science and data mining public policy and business intelligence

Organised Crime Groups involved in Fraud Tiggey May, Bina Bhardwa, 2017-12-12 Through analysis of data held by the National Crime Agency on organised crime groups and in depth analysis of qualitative interviews with convicted fraudsters and enforcement professionals this detailed study fills a significant gap in the contemporary literature on organised crime groups involved in fraud Throughout the chapters the perspective of convicted offenders and those involved in its policing are juxtaposed to show the ease of committing fraud from the perspective of offenders on the one hand and the investigative challenges

experienced by law enforcement officers on the other May and Bhardwa s insights shed light on offender motivations routes into fraud and organised crime and the nature and shape of organised crime groups and their operations Alongside the offender perspective the law enforcement interviews provide a unique interpretation of the procedural and legislative weaknesses that appear to allow this type of offender to make considerable financial gain The key recommendations based on empirical findings will greatly benefit those interested in understanding the links between fraud and organised crime in the UK and those seeking to improve enforcement efforts
