SV and OHV Motorcycles This is a faithful reproduction of the Floyd Clymer W C Haycraft Book Of The BSA originally
published in the US in 1947 Much more detailed than the owner s handbook this manual includes complete technical data
service and maintenance information and detailed instructions for the repair and overhaul of the major mechanical and
electrical components for the majority of the pre war BSA single and twin cylinder motorcycles However as this manual was
written specifically for the motorcycles constructed between 1936 through 1939 the information may not be quite as
comprehensive for the earlier versions of these models There is adequate detailed text and diagrams to assist in major
refurbishing such as an engine rebuild or even a complete mechanical renovation making it an invaluable resource for
collectors and restorers of these classic BSA motorcycles OHV and SV Models covered by this publication are 150c c X0 250c
