Jenkins, 2023-07-10 As Southern California recovered from the collapse of the cattle industry in the 1860s the arrival of railroads attacked by newspapers as the greedy octopus and the expansion of citrus agriculture transformed the struggling region into a vast idealized and prosperous garden New groves of the latest citrus varieties and new towns like Riverside quickly grew directly along the tracks of transcontinental railroads The influx of capital industrial technology and workers especially people of color energized Southern California and tied it more closely to the economy and culture of the United States than ever before Benjamin Jenkins s *Octopus s Garden* argues that citrus agriculture and railroads together shaped the economy landscape labor systems and popular image of Southern California Orange and lemon growing boomed in the 1870s and 1880s while railroads linked the region to markets across North America and ended centuries of geographic isolation for the West Coast Railroads competed over the shipment of citrus fruits from multiple counties engulfed by the orange empire resulting in an extensive rail network that generated lucrative returns for grove owners and railroad businessmen in Southern California from the 1890s to the 1950s While investment from white Americans particularly wealthy New Englanders formed the financial backbone of the *Octopus s Garden* citrus and railroads would not have thrived in Southern California without the labor of people of color Many workers of color took advantage of the commercial developments offered by railroads and

citrus to economically advance their families and communities however these people also suffered greatly under the constant realities of bodily harm low wages and political and social exclusion Promoters of the railroads and citrus cooperatives touted California as paradise for white Americans and minimized the roles of non white laborers by stereotyping them in advertisements and publications These practices fostered conceptions of California s racial hierarchy by praising privileged whites and maligning the workers who made them prosper The Octopus s Garden continues to shape Southern Californians understanding of their past In bringing together multiple storylines Jenkins provides a complex and fresh perspective on the impact of citrus agriculturalists and railroad companies in Southern Californian history The Long Shadow Ellen Walker Rienstra,Jo Ann Stiles,2016-09-20 Using a wealth of primary materials this lively biography traces the lives of three generations of the Lutch Stark family of Orange Texas who are renowned for their business achievements and generous philanthropy **Orange County (CA) History Series** ,1968 *History of Military Cartography* Elri Liebenberg,Imre Josef Demhardt,Soetkin Vervust,2016-01-28 This volume gathers 19 papers first presented at the 5th International Symposium of the ICA Commission on the History of Cartography which took place at the University of Ghent Belgium on 2 5 December 2014 The overall conference theme was Cartography in Times of War and Peace but preference was given to papers dealing with the military cartography of the First World War 1914 1918 The papers are classified by period and regional sub theme i e Military Cartography from the 18th to the 20th century WW I Cartography in Belgium Central Europe etc *America, History and Life* ,1996 Article abstracts and citations of reviews and dissertations covering the United States and Canada Vermont History ,1990 California History ,1998 **American Book Publishing Record** ,2002 *Orange County History Series* Orange County Historical Society (Calif.),1931
