policy are becoming less relevant in the contemporary and emerging UK environment and makes sense of the most significant aspects of the moment political and electoral alignment referenda Brexit and the EU relationship between UK and devolved governments and key impact related developments internationally As such it is an essential read for students and observers of British political life who need pointed expert coverage to help make sense of these exceptional political times With a tripartite structure the book first examines trends in political representation with changes in political engagement party loyalties and electoral alignment then places this within the turbulence and changing landscape of the policy political environment and finally contextualises the developments in British politics vis vis international resonances and parallels Case studies of the Scottish independence referendum referendum to remain in or leave the EU and the EU withdrawal process are used to illustrate the key concepts and arguments advanced and to provide a sense of the current dynamic of British politics Themes and Flux in British Politics represents a timely response to contemporary debates about the major shifts perhaps crises of political parties and representation and the turbulent landscape of public policy and will be essential reading for British politics and government Brexit public policy and EU politics *The New Politics of Class* Geoffrey Evans, James Tilley, 2017 This book explores the new politics of class in 21st century Britain It shows how the changing shape of the class structure since 1945 has led political parties to change which has both reduced class voting and increased class non voting This argument is developed in three stages The first is to show that there has been enormous social continuity in class divisions The authors demonstrate this using extensive evidence on class and educational inequality perceptions of inequality identity and awareness and political attitudes over more than fifty years The second stage is to show that there has been enormous political change in response to changing class sizes Party policies politicians rhetoric and the social composition of political elites have radically altered Parties offer similar policies appeal less to specific classes and are populated by people from more similar backgrounds Simultaneously the mass media have stopped talking about the politics of class The third stage is to show that these political changes have had three major consequences First as Labour and the Conservatives became more similar class differences in party preferences disappeared Second new parties most notably UKIP have taken working class voters from the mainstream parties Third and most importantly the lack of choice offered by the mainstream parties has led to a huge increase in class based abstention from voting Working class people have become much less likely to vote In that sense Britain appears to have followed the US down a path of working class political exclusion ultimately undermining the representativeness of our democracy They conclude with a discussion of the Brexit referendum and the role that working class alienation played in its historic outcome
