The Learning Potential of the Workplace, 2008-01-01. In our research programme *The Learning Potential of the Workplace* we set the task to analyse, describe and explain the conditions of the workplace as a tool for learning. Learning potential is, for some experts, an individual asset; others see the learning potential in the external conditions in work and work processes; again others see it in the reflection on action by peers, colleagues and experts. The selection of chapters in this volume represents different opinions, visions and methodology to study workplace learning and the effects. The focus is on vocational education and human resource development so workplace learning as a means to socialize youngsters in work organisations on their way to professionals and workplace learning as means to work to innovate, to do maintenance work and to create knowledge.
