Theda Skocpol,Ariane Liazos,Marshall Ganz,2018-06-26 From the nineteenth through the mid twentieth centuries millions of American men and women participated in fraternal associations self selecting brotherhoods and sisterhoods that provided aid to members enacted group rituals and engaged in community service Even more than whites did African Americans embraced this type of association indeed fraternal lodges rivaled churches as centers of black community life in cities towns and rural areas alike Using an unprecedented variety of secondary and primary sources including old documents pictures and ribbon badges found in eBay auctions this book tells the story of the most visible African American fraternal associations The authors demonstrate how African American fraternal groups played key roles in the struggle for civil rights and racial integration Between the 1890s and the 1930s white legislatures passed laws to outlaw the use of important fraternal names and symbols by blacks But blacks successfully fought back Employing lawyers who in some cases went on to work for the NAACP black fraternalists took their cases all the way to the Supreme Court which eventually ruled in their favor At the height of the modern Civil Rights movement in the 1950s and 1960s they marched on Washington and supported the lawsuits through lobbying and demonstrations that finally led to legal equality This unique book reveals a little known chapter in the story of civic democracy and racial equality in America

comprehensive history of African Americans including culture slavery and civil rights      [Booker T. Washington, W.E.B. Du Bois, and the Struggle for Racial Uplift](#) Jacqueline M. Moore,2003 The beginning of the twentieth century was a critical time in African American history Segregation and discrimination were on the rise Two seminal African American figures began to debate on ways to combat racial problems Booker T Washington and W E B Du Bois developed different strategies for racial uplift as they actively competed for the support of the black community In the process Washington and Du Bois made a permanent mark on the debate over how blacks should achieve equality in America Although other books address the Washington Du Bois conflict this text provides a detailed overview of the issues in a brief yet thorough narrative giving students a clear understanding of these two influential leaders Jacqueline Moore incorporates the latest scholarship as she examines the motivations of Washington and Du Bois and the political issues surrounding their positions Accompanying documents allow students to see actual evidence on the issues Moore contextualizes the debate in the broader terms of radical versus accommodationist strategies of racial uplift Washington an accommodationist believed economic independence was most important to racial equality W E B Du Bois adopted more radical strategies arguing that social and political equality not just economic opportunity were essential to racial uplift This book traces the argument between these two men which became public in 1903 when Du Bois published The Souls of Black Folk which included an attack on Washington his association with Tuskegee Institute s industrial education program and accommodationism The clash between Du Bois and Washington escalated over the next 12 years Du Bois was a founding member of the National Association for the Advancement of Colored People NAACP an organization that often opposed Washington s gradualist approach Although the NAACP became the major civil rights organization after Washington s death in 1915 the same issues Washington and DuBois debated surfaced in the 1960s Civil Rights Movement and the debate raged once again between accommodationists and radicals In time both men s ideals faded until the same issues surfaced again in the 1960s and the debate raged once again between accommodationists and radicals within the Civil Rights Movement Booker T Washington W E B Du Bois and the Struggle for Racial Uplift is an excellent resource for courses in African American history race relations and minority and ethnic politics      **[Black Greek-letter Organizations in the Twenty-First Century](#)** Gregory S.

Parks,2008-06-13 During the twentieth century black Greek Letter organizations BGLOs united college students dedicated to excellence fostered kinship and uplifted African Americans Members of these organizations include remarkable and influential individuals such as Martin Luther King Jr Congresswoman Barbara Jordan novelist Toni Morrison and Wall Street pioneer Reginald F Lewis Despite the profound influence of these groups many now question the continuing relevance of BGLOs arguing that their golden age has passed Partly because of their perceived link to hip hop culture black fraternities and sororities have been unfairly reduced to a media stereotype a world of hazing without any real substance The general public knows very little about BGLOs and surprisingly the members themselves often do not have a thorough understanding

of their history and culture or of the issues currently facing their organizations To foster a greater engagement with the history and contributions of BGLOs Black Greek Letter Organizations in the Twenty first Century Our Fight Has Just Begun brings together an impressive group of authors to explore the contributions and continuing possibilities of BGLOs and their members Editor Gregory S Parks and the contributing authors provide historical context for the development of BGLOs exploring their service activities as well as their relationships with other prominent African American institutions The book examines BGLOs responses to a number of contemporary issues including non black membership homosexuality within BGLOs and the perception of BGLOs as educated gangs As illustrated by the organized response of BGLO members to the racial injustice they observed in Jena Louisiana these organizations still have a vital mission Both internally and externally BGLOs struggle to forge a relevant identity for the new century Internally these groups wrestle with many issues including hazing homophobia petty intergroup competition and the difficulty of bridging the divide between college and alumni members Externally BGLOs face the challenge of rededicating themselves to their communities and leading an aggressive campaign against modern forms of racism sexism and other types of fear driven behavior By embracing the history of these organizations and exploring their continuing viability and relevance Black Greek Letter Organizations in the Twenty first Century demonstrates that BGLOs can create a positive and enduring future and that their most important work lies ahead
