John Hinnells

Orientalism And Religion Orientalism And Religion:

Orientalism and Religion Richard King, 1999 In this text Richard King examines the way in which notions such as mysticism religion Hinduism and Buddhism are taken for granted Orientalism and Religion Richard King, 1999

Religion and Orientalism in Asian Studies Kiri Paramore, 2016-10-06 Religion and Orientalism in Asian Studies analyses the role of religion in past and present understandings of Asia Religion and the history of its study in the modern academy has exercised massive influence over Asian Studies fields in the past century Asian Studies has in turn affected and is increasingly shaping the study of religion Religion and Orientalism in Asian Studies looks into this symbiotic relationship both in current practice and in the modern histories of both Orientalism and Area Studies Each chapter of the book deals with one regional sub discipline in Asian Studies covering Chinese Studies Japanese Studies Korean Studies South Asian Studies Southeast Asian Studies and Central Eurasian Studies The chapters are integrated by shared themes that run through the past and present practice of Asian Studies covering the role of state actors in originating Area Studies the role of local scholarship in defining and developing it the interaction between humanities and social science approaches debates over the dominance of Western and or modern categories and frameworks the interaction of past and present and the role of religious actors and religious sensibilities in shaping Asian Studies New Approaches to the Study of Religion: Regional, critical, and historical approaches Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications Classical Approaches to the Study of Religion edited by Jacques Waardenburg 1973 and Contemporary Approaches to the Study of Religion edited by Frank Whaling 1984 85 New Approaches to the Study of Religion completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also pathbreaking and point the way to future approaches Virtual Orientalism Jane Iwamura, 2011-01-14 Saffron robed monks and long haired gurus have become familiar characters on the American popular culture scene Jane Iwamura examines the contemporary fascination with Eastern spirituality and provides a cultural history of the representation of Asian religions in American mass media Encounters with monks gurus bhikkhus sages sifus healers and masters from a wide variety of ethnic backgrounds and religious traditions provided initial engagements with Asian spiritual traditions Virtual Orientalism shows the evolution of these interactions from direct engagements with specific individuals to mediated relations with a conventionalized icon the Oriental Monk Visually and psychically compelling the Oriental Monk becomes for Americans a figure of translation a convenient symbol for alternative spiritualities and modes of being Through the figure of the solitary Monk who generously and purposefully shares his wisdom with the West Asian religiosity is made manageable psychologically socially and politically for popular culture consumption Iwamura s insightful study shows that though popular engagement with Asian

religions in the United States has increased the fact that much of this has taken virtual form makes stereotypical constructions of the spiritual East obdurate and especially difficult to challenge

The Bloomsbury Reader in the Study of Religion and Popular Culture Lisle W. Dalton, Eric Michael Mazur, Richard J. Callahan, Jr., 2021-12-16 This is the first anthology to trace broader themes of religion and popular culture across time and theoretical methods It provides key readings encouraging a broader methodological and historical understanding With a combined experience of over 30 years dedicated to teaching undergraduates Lisle W Dalton Eric Michael Mazur and Richard J Callahan Jr have ensured that the pedagogical features and structure of the volume are valuable to both students and their professors Features include A number of units based on common semester syllabi A blend of materials focused on method with materials focused on subject An introduction to the texts for each unit Questions designed to encourage and enhance post reading reflection and classroom discussion A glossary of terms from the unit s readings as well as suggestions for further reading and investigation The Reader is suitable as the foundational textbook for any undergraduate course on religion and popular culture as well as theory in the study of religion

Pluralism: The Future of Religion Kenneth Rose, 2013-03-28 Theology of religions has defaulted in the last two decades to an epicyclic inclusivism which seeks to undermine pluralism with claims that it is covertly triumphalistic and that it mirrors the logic of exclusivism With the exception of pioneers in the field such as John Hick and Paul Knitter most major figures in this theological field have retreated from pluralism and promote versions of particularism and inclusivism Pluralism The Future of Religion argues for an apophatic pluralism that is motivated by the insight that it is impossible to secure universal assent for changeable bodies of religious teachings This insight implies the non finality and consequent departicularization of all religious teachings and their inclusivistic defenses These conclusions point us inevitably toward pluralism and lead us out of the inclusivistic impasse of contemporary theology in religions

Orientalism, Islam, and Islamists Asaf Hussain, Robert W. Olson, Jamil A. Qureshi, 1984 [The Birth of Orientalism](#) Urs App, 2011-06-06 Modern Orientalism is not a brainchild of nineteenth century European imperialists and colonialists but as Urs App demonstrates was born in the eighteenth century after a very long gestation period defined less by economic or political motives than by religious ideology Based on sources from a dozen languages many unavailable in English The Birth of Orientalism presents a completely new picture of this protracted genesis its underlying dynamics and the Western discovery of Asian religions from the sixteenth to the nineteenth century App documents the immense influence of Japan and China and describes how the Near Eastern cradle of civilization moved toward mother India Moreover he shows that some of India s purportedly oldest texts were products of eighteenth century European authors Though Western engagement with non Abrahamic Asian religions reaches back to antiquity and can without exaggeration be called the largest scale religiocultural encounter in history it has so far received surprisingly little attention which is why some of its major features and their role in the birth of modern Orientalism are described here for the first time The study of Asian documents had a

profound impact on Europe's intellectual makeup Suddenly the Bible had much older competitors from China and India Sanskrit threatened to replace Hebrew as the world's oldest language and Judeo Christianity appeared as a local phenomenon on a dramatically expanded worldwide canvas of religions and mythologies Orientalists were called upon as arbiters in a clash that involved neither gold and spices nor colonialism and imperialism but rather such fundamental questions as where we come from and who we are questions of identity that demanded new answers as biblical authority dramatically waned American Transcendentalism and Asian Religions Arthur Versluis, 1993-09-16 The first major study since the 1930s of the relationship between American Transcendentalism and Asian religions and the first comprehensive work to include post Civil War Transcendentalists like Samuel Johnson this book is encyclopedic in scope Beginning with the inception of Transcendentalist Orientalism in Europe Versluis covers the entire history of American Transcendentalism into the twentieth century and the profound influence of Orientalism on the movement including its analogues and influences in world religious dialogue He examines what he calls positive Orientalism which recognizes the value and perennial truths in Asian religions and cultures not only in the writings of major figures like Thoreau and Emerson but also in contemporary popular magazines Versluis's exploration of the impact of Transcendentalism on the twentieth century study of comparative religions has ramifications for the study of religious history comparative religion literature politics history and art history

Orientalism & the Myth of Modern Hinduism Richard King, 2008 **The Routledge Companion to the Study of Religion** John Hinnells, 2009-09-10 The Routledge Companion to the Study of Religion is a major resource for courses in Religious Studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues such as gender science fundamentalism ritual and new religious movements Written by renowned international specialists this new edition includes eight new chapters including post structuralism religion and economics religion and the environment religion and popular culture and sacred space surveys the history of religious studies and the key disciplinary approaches explains why the study of religion is relevant in today's world highlights contemporary issues such as globalization diaspora and politics includes annotated reading lists a glossary and summaries of key points to assist student learning **The Oxford Handbook of Religion and Race in American History** Kathryn Gin Lum, Paul Harvey, 2018-03-01 The Oxford Handbook of Religion and Race in American History brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview for those interested in the role of religion and race in American history Thirty four scholars from the fields of History Religious Studies Sociology Anthropology and more investigate the complex interdependencies of religion and race from pre Columbian origins to the present The volume addresses the religious experience social realities theologies and sociologies of racialized groups in American religious history as well as the ways that religious myths institutions and practices contributed to their racialization Part One begins with a broad introductory

survey outlining some of the major terms and explaining the intersections of race and religions in various traditions and cultures across time Part Two provides chronologically arranged accounts of specific historical periods that follow a narrative of religion and race through four plus centuries Taken together The Oxford Handbook of Religion and Race in American History provides a reliable scholarly text and resource to summarize and guide work in this subject and to help make sense of contemporary issues and dilemmas

Religion, Orientalism and Modernity Geoffrey Nash, 2022 Geoffrey Nash explores the emergence of the revolutionary Babis and reformist Baha is and their conflict with mainstream Shi a Muslims in Iran and of the parallel Ahmadi movement in North India Comparing these movements shows that together they define important aspects of Islamic modernity

The Wiley Blackwell Companion to Religion and Materiality Vasudha Narayanan, 2020-04-27 The Wiley Blackwell Companion to Religion and Materiality provides a thoughtfully organized inclusive and vibrant project of the multiple ways in which religion and materiality intersect The contributions explore the way that religion is shaped by and has shaped the material world embedding beliefs doctrines and texts into social and cultural contexts of production circulation and consumption The Companion not only contains scholarly essays but has an accompanying website to demonstrate the work of performers architects and expressive artists ranging from musicians and dancers to religious practitioners These examples offer specific illustrations of the interplay of religion and materiality in everyday life The project is organized from a comparative perspective highlighting examples and case studies from traditions originating in both East and West To summarize the volume Brings together the leading figures theories and ideas in the field in a systematic and comprehensive way Offers an interdisciplinary approach drawing together religious studies anthropology archaeology history sociology geography the cognitive sciences ecology and media studies Takes a comparative perspective covering all the major faith traditions

Turning East Harvey Cox, 1977

Religion and Change Hans-Peter Grosshans, 2023-06-19 Are religions like everything else in the world subject of permanent change in their practices and their doctrines or are they the perhaps only stable element for people in a world of permanent change Within the wide field of this discourse alternative the five authors Rowan Williams Judith Wolfe Guy G Stroumsa Vassilis Saroglou and Azza Karam of the book are discussing various constellations in which the relation of religion and change with its diverse aspects is illuminated

The Routledge Companion to the Study of Religion John R. Hinnells, 2005 The Routledge Companion to the Study of Religion contains everything a student needs for a full understanding of theory and methods in religious studies It begins by explaining the most important methodological approaches to religion including psychology philosophy anthropology and comparative study before moving on to explore a wide variety of critical issues Written entirely by renowned international specialists and using clear and accessible language throughout it is the perfect guide to the problems and questions found in courses and exams

Seeing Through Religion Nathan McGovern, 2025-09-19 Seeing Through Religion is a cutting edge textbook designed to help students in their study and research of the world s religious traditions Providing the tools to learn

this valuable subject theoretically McGovern argues that religion isn't a thing out there in the world it's the glasses on your face through which you see the world shaped by Western history and in particular Christianity By exploring the major religious traditions and comparing stereotypes about them to reality this textbook establishes how the lens of religion systematically distorts our perception of the world Topics covered include What Is Religion Colonialism and the Two Faces of Orientalism Islam Does Fear Imply Difference Buddhism A Philosophy or a Religion Hinduism A Polytheistic or a Monotheistic Religion Chinese Religion What Is It and Where Can We Find It Indian Religions How Can One Religion Include Another Tibetan Buddhism Is It Still Buddhism Judaism A Religion or an Ethnicity Indigenous Traditions What Gets Counted as a Religion Secularism Can We Put Religion in a Box How is the way we think about religion influenced by the theology of Martin Luther How does the Christian paradigm of religion distort our perception of Christianity itself This textbook not only provides a survey of important religious traditions but also guides the reader on how to study religion in a methodologically sophisticated way This innovative volume is essential reading for those who want a contemporary and engaging approach to the study of world religions Islam and Orientalism Maryam Jameelah,1991-09-01

If you ally obsession such a referred **Orientalism And Religion Orientalism And Religion** ebook that will offer you worth, acquire the totally best seller from us currently from several preferred authors.
