Christianity and Religious Plurality Wilbert R. Shenk, Richard J. Plantinga, 2016-10-11 Over the past two centuries the Christian faith has spread to all continents Although more global than ever Christians are

religious minorities in most societies Religious freedom is hardly universal In the past fifty years millions of people have been uprooted from their traditional homelands in Asia Africa and Latin America Some have emigrated to Western Europe and North America The West has become the scene of cultural linguistic and religious variety on a scale unimagined in 1900 Today the full range of faiths and religious practices from all continents are present in Europe and North America Christians are challenged to come to terms with this changed situation These developments have intensified religious plurality Christians all over the world are being urged to understand and engage with this new situation This volume highlights this new reality and specifies some sources for engagement not least among them the Judeo Christian scriptures fundamental to all Christianities that emerged out of religious plural contexts On the basis of their faith in the Triune God disclosed in this text all followers of Jesus Christ must interact with these opportunities in today's radically context sensitive world

The Eastern Origins of Western Civilisation John M. Hobson, 2004-06-03 Publisher Description **The Priesthood of All Believers and the Missio Dei** Henry Joseph Voss, 2016-10-25 The priesthood of all believers is a pillar undergirding Protestant ecclesiology Yet the doctrine has often been used to serve diverse agendas This book examines the doctrine's canonical catholic and contextual dimensions It first identifies the priesthood of all believers as a canonical doctrine based upon the royal priesthood of Christ and closely related to the believer's eschatological temple service and offering of spiritual sacrifices chapters 1-3 It secondly describes its catholic development by examining three paradigmatic shifts shifts especially associated with Christendom chapters 4-6 and a suppression of the doctrine's missional component Finally the book argues that a Christian doctrine of the priesthood of all believers should be developed with a Christocentric Trinitarian understanding of the missio Dei This suggests there are especially appropriate ways for the royal priesthood to relate to the Father to the Son and to the Holy Spirit A canonically and catholically informed priesthood of all believers leads contextually to particular ecclesial practices These seven practices are 1 Baptism as public ordination to the royal priesthood 2 Prayer 3 Lectio Divina 4 Ministry 5 Church Discipline 6 Proclamation and 7 the Lord's Supper as the renewal of the royal priesthood

Pilgrims and Popes Tobias Brandner, 2019-10-31 Pilgrims and Popes introduces the foundational fifteen hundred years of the history of Christianity from Jesus to the eve of the Reformation The crucial decisions of the first

centuries have indelibly shaped the subsequent journey of the Christian faith movement The book tells how the Christian faith story unfolded in dialectic movements hegemony and emancipation institutionalization and protest petrification and renewal missionary involvement in the world and separation from the world The book bridges the gap between the present and the seemingly remote world of the first fifteen hundred years of Christianity in the West by engaging with present day readers cultures and contexts The rich material is presented in an easily readable way combined with charts and with questions for discussion and deepening reflection This study book will be a welcome learning tool in classrooms and in churches particularly in the context of the Global South

History, Frankish Identity and the Framing of Western Ethnicity, 550-850 Helmut Reimitz,2015-08-06 This pioneering study explores early medieval Frankish identity as a window into the formation of a distinct Western conception of ethnicity Focusing on the turbulent and varied history of Frankish identity in Merovingian and Carolingian historiography it offers a new basis for comparing the history of collective and ethnic identity in the Christian West with other contexts especially the Islamic and Byzantine worlds The tremendous political success of the Frankish kingdoms provided the medieval West with fundamental political religious and social structures including a change from the Roman perspective on ethnicity as the quality of the Other to the Carolingian perception that a variety of Christian peoples were chosen by God to reign over the former Roman provinces Interpreting identity as an open ended process Helmut Reimitz explores the role of Frankish identity in the multiple efforts through which societies tried to find order in the rapidly changing post Roman world

and Divisions of European History Johann P. Arnason, Jóhann Páll Árnason, Natalie Doyle, 2010-01-01 The patterns of unity and division that define Europe as a historical region have been discussed in many seminal works but the complex set of questions behind its domains and divisions merits a more sustained debate The disappearance of the cold war the enlargement of the European Union and core issues of historical sociology all require an exploration of the structures and boundaries of historical formations as well as the question of European unity This volume tackles the topic of the divisions that have shaped European history head on as leading scholars in the field negotiate such issues as regional identity geographical boundaries divisional labeling and post cold war European unity *The Oxford Illustrated History of*
