

Osho said that women looked after men but never attacked. Women live with men but never fight. Women attract without words and surround a man in such a way that he himself is totally unaware of what is happening.

The chains with which women bind men are invisible yet strong.

Randy, Beer and Rock 'n' Roses Alfred Groff, 2024-01-17 This story touches all perspectives of a human being socio political inner psychological transpersonal spiritual Randy s social worker finds him an apartment in a community where topics such as democracy regional money the economy for the common good permaculture 100% money and unconditional basic income are the order of the day He works on an organic farm jogs with a civil servant gets a massage from a tantric woman falls in love escapes into the solitude of the forest survives a death struggle and meets willing women in a cupboard Finally Randy travels and visits the communities in the Ecovillages Findhorn Tamera Sekem and Auroville And then the telephone rings Excerpt from one of the first feedbacks I came across this book by chance The title caught my interest But I feared a very complicated work I like things to be simple clear and intuitively

comprehensible But my first glance at the book reassured me It seemed to be written in a generally understandable way This was confirmed as the book progressed Technical terms were explained and I could understand most of the theories on first reading I found Kushala s first question to Randy rather unworldly if you know the normal world And yet Kushala is just like that She belongs to an educated elite who don t really know how people out there think and speak But that s exactly why they want the normal Randy in the community I really liked him right from the start For a normal guy as I have met many out there he is surprisingly open minded and open hearted He doesn t understand everything but he gets involved So much so that he quickly experiences the positive aspects of meditation and the other spiritual and physical benefits I think that s great he doesn t seem to have any deep resistance to these experiences he really just seems to be inexperienced in this area So he is clearly a person who wants to develop in this positive direction and then does so The book captivated me I started reading it in one evening and one evening later I had already read the whole thing Thank you for the great book and the great story The message is great The writing style is understandable The story is exciting This is a book I will recommend and give as a gift This is also a good book as a basis for discussions and conversations in writing and reading groups
