European Revolutions and the Ottoman Balkans Dimitris Stamatopoulos, 2020-02-06 The emergence of the Balkan national states in the nineteenth and twentieth centuries has long been viewed through an Orientalist lens and their birth and evolution traditionally seen by scholars as the effect of the Ottoman Empire's decline As a result the role played by the great European revolutions wars and intellectual developments is often neglected Rejecting these traditional Orientalist narratives this work examines Balkan nationalist movements within their broader European historical contexts Drawing on a range of unused archival research and ranging from the Napoleonic era to the Bolshevik Revolution contributors variously consider the complex roles played by Europe's internal geo political ruptures in forming the Balkan states and demonstrate how the Balkan intelligentsia drew inspiration from and interacted with contemporary European thought Shedding light onto the strong intellectual political and military interconnections between the regions this is essential reading for all those studying Balkan and European history as well as anyone interested in the question of national identity Published in Association with the British Institute at Ankara **Orthodox Christianity and Nationalism in Nineteenth-Century**

Southeastern Europe Lucian N. Leustean, 2014-07-02 Nation building processes in the Orthodox commonwealth brought together political institutions and religious communities in their shared aims of achieving national sovereignty Chronicling how the churches of Greece Romania Bulgaria and Serbia acquired independence from the Patriarchate of Constantinople in the wake of the Ottoman Empire's decline Orthodox Christianity and Nationalism in Nineteenth Century Southeastern

Europe examines the role of Orthodox churches in the construction of national identities Drawing on archival material available after the fall of communism in southeastern Europe and Russia as well as material published in Greek Serbian Bulgarian Romanian and Russian Orthodox Christianity and Nationalism in Nineteenth Century Southeastern Europe analyzes the challenges posed by nationalism to the Ecumenical Patriarchate and the ways in which Orthodox churches engaged in the nationalist ideology *State, Faith, and Nation in Ottoman and Post-Ottoman Lands* Frederick F.

Anscombe,2014-02-17 Current standard narratives of Ottoman Balkan and Middle East history overemphasise the role of nationalism in the transformation of the region Challenging these accounts this book argues that religious affiliation was in fact the most influential shaper of communal identity in the Ottoman era that religion moulded the relationship between state and society and that it continues to do so today in lands once occupied by the Ottomans The book examines the major transformations of the past 250 years to illustrate this argument traversing the nineteenth century the early decades of post Ottoman independence and the recent past In this way the book affords unusual insights not only into the historical patterns of political development but also into the forces shaping contemporary crises from the dissolution of Yugoslavia to the rise of political Islam

Nationalism and War John A. Hall,Siniša Malešević,2013-04-25 Has the emergence of nationalism made warfare more brutal Does strong nationalist identification increase efficiency in fighting Is nationalism the cause or the consequence of the breakdown of imperialism What is the role of victories and defeats in the formation of national identities The relationship between nationalism and warfare is complex and it changes depending on which historical period and geographical context is in question In *Nationalism and War* some of the world's leading social scientists and historians explore the nature of the connection between the two Through empirical studies from a broad range of countries they explore the impact that imperial legacies education welfare regimes bureaucracy revolutions popular ideologies geopolitical change and state breakdowns have had in the transformation of war and nationalism *The Routledge History Handbook of Central and Eastern Europe in the Twentieth Century* Włodzimierz Borodziej,Sabina Ferhadbegović,Joachim von

Puttkamer,2020-04-21 Statehood examines the extending lines of development of nation state systems in Eastern Europe in particular considering why certain tendencies in state development found a different expression in this region compared to other parts of the continent This volume discusses the differences between the social developments political decisions and historical experience that have influenced processes of state building with a focus on the structural problems of the region and the different paths taken to overcome them The book addresses processes of building social orders and examines the contribution of state institutions to social and cultural integration and disintegration It analyses institutional and personnel continuities that have outlasted the great political changes of the twentieth century and addresses the expansion of state activity in shaping property relations in agriculture and industry as well as in social security and family politics Taking a comparative approach based on experiential history allowing individual experience to be detached from specific national

references the volume delineates a transnational comparison of problems shared within the region as they have been passed down through history providing definition to the specificity of Eastern Europe and situating the historical experience of the region within a pan European context The second in a four volume set on Central and Eastern Europe in the twentieth century it is the go to resource for those interested in statehood and state building in this complex region **The Wars before the Great War** Dominik Geppert, William Mulligan, Andreas Rose, 2015-05-07 This volume offers a comprehensive account of the wars before the Great War and their role in undermining international instability *A History of the Modern Middle East* Betty S. Anderson, 2016-04-20 A History of the Modern Middle East offers a comprehensive assessment of the region stretching from the fourteenth century and the founding of the Ottoman and Safavid empires through to the present day protests and upheavals The textbook focuses on Turkey Iran and the Arab countries of the Middle East as well as areas often left out of Middle East history such as the Balkans and the changing roles that Western forces have played in the region for centuries to discuss the larger contexts and influences on the region s cultural and political development Enriched by the perspectives of workers and professionals urban merchants and provincial notables slaves students women and peasants as well as political leaders the book maps the complex social interrelationships and provides a pivotal understanding of the shifting shapes of governance and trajectories of social change in the Middle East Extensively illustrated with drawings photographs and maps this text skillfully integrates a diverse range of actors and influences to construct a narrative that is at once sophisticated and lucid A History of the Modern Middle East highlights the region s complexity and variation countering easy assumptions about the Middle East those who governed and those they governed the rulers rebels and rogues who shaped a region Anticorruption in History Ronald Kroeze, André Vitória, Guy Geltner, 2018 Anticorruption in History is a timely and urgent book corruption is widely seen today as a major problem we face as a global society undermining trust in government and financial institutions economic efficiency the principle of equality before the law and human wellbeing in general Corruption in short is a major hurdle on the path to Denmark a feted blueprint for stable and successful statebuilding The resonance of this view explains why efforts to promote anticorruption policies have proliferated in recent years But while the subject of corruption and anticorruption has captured the attention of politicians scholars NGOs and the global media scant attention has been paid to the link between corruption and the change of anticorruption policies over time and place with the attendant diversity in how to define identify and address corruption Economists political scientists and policy makers in particular have been generally content with tracing the differences between low corruption and high corruption countries in the present and enshrining them in all manner of rankings and indices The long term trends potentially undergirding the position of various countries plays a very small role Such a historical approach could help explain major moments of change in the past as well as reasons for the success and failure of specific anticorruption policies and their relation to a country s image of itself or as construed from outside as being more or less corrupt It is precisely this scholarly

lacuna that the present volume intends to begin to fill The book addresses a wide range of historical contexts Ancient Greece and Rome Medieval Eurasia Italy France Great Britain and Portugal as well as studies on anticorruption in the Early Modern and Modern era in Romania the Ottoman Empire the Netherlands Germany Denmark Sweden and the former German Democratic Republic *Bibliography of Sources on the Region of Former Yugoslavia Volume III* Rusko Matuli?,1998

Unmasked Laurence Cockcroft,Anne-Christine Wegener,2016-11-30 How corrupt is the West Europe and North America s formal self perception is one of high standards in public life And yet corruption is receiving ever greater attention in the European American and Canadian press with high profile cases affecting both the corporate and political worlds This book identifies the driving forces behind such cases particularly the role of political finance lobbying the banking system and organised crime It analyses the sectors which are particularly prone to corruption including sport defence and pharmaceuticals In the course of their investigation the authors consider why anti corruption legislation has not been more effective and why there is an increasing discrepancy between regulation and commercial and cultural practice Are Europe and the US genuinely serious about fighting corruption and if so what measures will be taken to roll it back **Romania, 1916-1941** Dennis Deletant,2022-08-19 This study challenges the rose tinted view of the interwar period in Romanian history which is often judged against the darkness of almost five decades of Communist rule Romania like several of the states of Eastern Europe emerged from the First World War as it had entered it as a predominantly agricultural country and one of its major problems was the condition of the peasantry This volume s focus is the drive to improve that condition on the collapse of democracy and the search by Romania s leaders for strategies to secure the state to assert the country s independence and to maintain its territorial integrity in the face of the threat to the European order posed by two totalitarian systems represented by Nazi Germany and the Soviet Union By examining recent scholarship this volume provides the most up to date account of Romania s predicament in the interwar years Romania 1916 1941 is a useful resource for upper level undergraduates postgraduates and scholars interested in foreign policy politics society internationalization and late development in interwar Central and Eastern Europe The Politics of Self-determination Volker Prott,2016 Addresses the pitfalls of border drawing in post WWI Europe arguing that at international and local levels the temptation of violence made national self determination problematic as local elites administrations and paramilitary leaders used ethnic notions of identity to mobilise popular support under a guise of international legitimacy Russia and the Making of Modern Greek Identity, 1821-1844 Lucien J. Frary,2015 Explores how Russian politics and religion were instrumental in the shaping of modern Greece providing a broad understanding of nineteenth century Russian foreign policy and religious enterprise and the relationship between religion nationalism and state building *The 'Sailor Prince' in the Age of Empire* Miriam Magdalena Schneider,2017-09-21 This book explores the puzzling phenomenon of the remarkable revival of monarchy in nineteenth century Europe through a new prism the public persona of the Sailor Prince It highlights how four usually overlooked

dynastic figures the younger sons and brothers of monarchs such as Queen Victoria or Emperor William II decisively helped to advertise their respective dynasties in the fiercely contested political and popular mass market by aligning them with one of the most myth invested cultural presences and power political symbols of the Age of Empire the navy The Sailor Prince in the Age of Empire traces the unusual professional careers the adventurous empire travels and the multifaceted public representations of Prince Alfred of Britain 1844 1900 Prince Heinrich of Prussia 1862 1929 Prince Valdemar of Denmark 1858 1939 and Prince Georgios of Greece 1869 1957 Through the prism of these four personality brands the study also investigates issues such as the role of the maritime sphere in national identity the nature and extent of nineteenth century monarchical modernization the relevance of intra and inter imperial royal diplomacy in the Age of High Imperialism and the curious collaboration of middle class opinion makers and entrepreneurs with Europe s monarchical establishment **2010** Massimo Mastrogregori, 2014-12-12 Every year the Bibliography catalogues the most important new publications historiographical monographs and journal articles throughout the world extending from prehistory and ancient history to the most recent contemporary historical studies Within the systematic classification according to epoch region and historical discipline works are also listed according to author s name and characteristic keywords in their title **No Rule of Law, No Democracy** Cristina Nicolescu-Waggonner, 2016-11-10 Argues that new democracies face consolidation challenges due to campaign finance corruption and the unwillingness of politicians to reform rule of law enforcement Mainstream theories assert that democracy cures corruption In market economies however elections are expensive and parties with ever thinning memberships cannot legally acquire the necessary campaign funds In order to secure electoral funds a large number of politicians misappropriate public funds Due to the illicit character of these transactions high officials with conflicts of interest prefer to leave anticorruption enforcement mechanisms unreformed and reserve the right to intervene in the judicial process with dire consequences for the rule of law In No Rule of Law No Democracy Cristina Nicolescu Waggonner demonstrates that when corrupt politicians are in power true of nearly all new democracies they will protect their office and fail to implement rule of law reforms Consequently these polities never reach a point where democracy could and would cure corruption This dysfunction is tested in one hundred cases over sixteen years with significant results In the case of the Czech Republic for example which is regarded as a consolidated democracy there is systematic corruption misappropriation of state funds an unreformed judiciary and arbitrary application of law The only solution is a powerful independent well funded anticorruption agency Romania one of the most corrupt countries in Europe established at the European Union s request powerful anticorruption bodies and punished corrupt leaders which created the predictability of enforcement It is the certainty of punishment that curtails corruption and establishes true rule of law *Sacralizing the Nation through Remembrance of Medieval Religious Figures in Serbia, Bulgaria and Macedonia* Stefan Rohdewald, 2022-05-20 Religious figures of remembrance served to consolidate first dynastic rule and later nation state legitimacy and community This book

explains the interweaving of Eastern Roman medieval Serbian and Bulgarian contexts as well as Ottoman and Western European national discourses or reinvented traditions We can distinguish a secularization and nationalization of the religious contexts in the 19th century within historicism followed by a nationalization of God and a sacralization of the nation until the end of WWII Contrary to the national views the origins of the modern content of these discourses lie only to a very limited extent in the Middle Ages or in the Early Modern period as this study shows Please note this is volume 2 of a 2 volume set [Click here to see volume 1](#) *Beyond the Balkans* Sabine Rutar, 2014 This book shows how current and future research on the social history of the Balkans can be integrated into a broader European framework The contributions look at a range of methodological and empirical issues and the theme that links the various studies is that of the contrasting yet at the same time entangled ideas of the Balkans as a mental map and of Southeast Europe as an historical region Series Studies on South East Europe Vol 10
