Our Chemical Selves Gender Toxics And Environmental Health:

Our Chemical Selves Dayna Nadine Scott, 2015-02-25 Chemicals found in homes schools and workplaces are having devastating consequences on human health and the environment Our Chemical Selves examines the gender dynamics associated with these everyday toxic exposures Written by leading researchers in science law and public policy the chapters in Our Chemical Selves reveal that while exposures to chemicals are pervasive and widespread people from low income racialized and Indigenous communities face a far greater risk of exposure At the same time the risks associated with these exposures and the burdens of managing them rest disproportionately on the shoulders of women This collection hones in on the political economy of pollution by critically examining the system that manufactures the chemicals and the social political and gender relations that enable harmful chemicals to continue being produced and consumed It also demonstrates the urgent need to revise existing approaches to the regulation of toxics including Canada's current Chemicals Management Plan

Environmental Health Literacy Symma Finn, Liam R. O'Fallon, 2018-09-12 This book explores various and distinct aspects of environmental health literacy EHL from the perspective of investigators working in this emerging field and their community partners in research Chapters aim to distinguish EHL from health literacy and environmental health education in order to classify it as a unique field with its own purposes and outcomes Contributions in this book represent the key aspects of communication dissemination and implementation and social scientific research related to environmental health sciences and the range of expertise and interest in EHL Readers will learn about the conceptual framework and underlying philosophical tenets of EHL and its relation to health literacy and communications research Special attention is given to topics like dissemination and implementation of culturally relevant environmental risk messaging and promotion of EHL through visual technologies Authoritative entries by experts also focus on important approaches to advancing EHL through community engaged research and by engaging teachers and students at an early age through developing innovative STEM curriculum The significance of theater is highlighted by describing the use of an interactive theater experience as an approach that enables community residents to express themselves in non verbal ways **Law, Animals and Toxicity**

Testing Anne M. Wordsworth, 2024-09-02 Drawing on our growing knowledge of animal cognition this book provides a critical analysis of the use of animals in the legal regime and the practice of toxicity testing Although animal abuse has become a major issue animal testing remains largely in the shadows even though it involves substantial cruelty Toxicity testing in particular imposes considerable pain suffering and ultimately death on those laboratory animals often mice chosen to demonstrate the characteristics of chemicals and their commercial potential This book documents and critically analyzes the animal protection laws of the European Union the United States and Canada It not only examines the tests themselves and the suffering they inflict on animals but also exposes the failure of both the testing and the toxicity laws to effectively protect human health and the environment Finally the book takes up the potential of alternative non animal testing methods

to replace the current regimen and to reduce current damage to health and the environment This book will be of interest to scholars and researchers in the fields of animal studies environmental law and sociolegal studies as well as activists and others with an interest in ethics and animal rights

Chemical Risk Governance Adam D.K. Abelkop, Lucas Bergkamp, Lynn L. Bergeson, Bethami Auerbach, 2023-03-20 This incisive volume of the Elgar Encyclopedia of Environmental Law offers a broad analysis of the foundations main concepts and substantive and procedural requirements of selected chemical law regimes as they pertain to the environment Featuring contributions from more than 40 expert scholars and practitioners in the field the volume focuses on chemical regulatory systems from representative jurisdictions including the EU and the US to provide a coherent overview of this expansive and often fragmented area of law Divided into five thematic parts the volume first examines the fundamental concepts of chemical law addressing topics including risk assessment nomenclature environmental justice and animal testing Entries then discuss types of chemicals and exposures regulation of chemicals in products and manufacturing and waste and contamination as well as covering liability rules as they apply to chemicals This volume will be an essential resource for scholars and students looking for a clear understanding of chemicals regulation and governance from environmental and public health perspectives at both national and international levels Its insights into policy developments and liability issues will also be of interest to policymakers and practitioners

Toxic Sexual Politics Melina Packer, 2025-01-28 Toxic Sexual Politics uses historical and contemporary evidence to show how the U S science of toxicology is a tool designed by and for the chemical industry suggesting that public health will never win the industry s game What if instead the science of toxicants explicitly confronted chemical corporate power building from queer feminist anti ableist and anti racist movements for environmental and reproductive justice

Invisible Women Caroline Criado Perez, 2019-03-12 The landmark prize winning international bestselling examination of how a gender gap in data perpetuates bias and disadvantages women 1 International Bestseller Winner of the Financial Times and McKinsey Business Book of the Year Award Winner of the Royal Society Science Book Prize Data is fundamental to the modern world From economic development to health care to education and public policy we rely on numbers to allocate resources and make crucial decisions But because so much data fails to take into account gender because it treats men as the default and women as atypical bias and discrimination are baked into our systems And women pay tremendous costs for this insidious bias in time in money and often with their lives Celebrated feminist advocate Caroline Criado Perez investigates this shocking root cause of gender inequality in *Invisible Women* Examining the home the workplace the public square the doctor s office and more Criado Perez unearths a dangerous pattern in data and its consequences on women s lives Product designers use a one size fits all approach to everything from pianos to cell phones to voice recognition software when in fact this approach is designed to fit men Cities prioritize men s needs when designing public transportation roads and even snow removal neglecting to consider women s safety or unique responsibilities and travel patterns And in medical research women have largely been

excluded from studies and textbooks leaving them chronically misunderstood mistreated and misdiagnosed Built on hundreds of studies in the United States in the United Kingdom and around the world and written with energy wit and sparkling intelligence this is a groundbreaking highly readable expos that will change the way you look at the world **Better Safe Than Sorry** Norah MacKendrick, 2018-05 How toxic are the products we consume on a daily basis Whether it s triclosan in toothpaste formaldehyde in baby shampoo endocrine disruptors in water bottles or pesticides on strawberries chemicals in food and personal care products are of increasing concern to consumers This book chronicles how ordinary people try to avoid exposure to toxics in grocery store aisles using the practice of precautionary consumption Through an innovative analysis of environmental regulation the advocacy work of environmental health groups the expansion of the health food chain Whole Foods Market and interviews with consumers Norah MacKendrick ponders why the problem of toxics in the U S retail landscape has been left to individual shoppers and to mothers in particular She reveals how precautionary consumption or green shopping is a costly and time intensive practice one that is connected to cultural ideas of femininity and good motherhood but is also most available to upper and middle class households Better Safe Than Sorry powerfully argues that precautionary consumption places a heavy and unfair burden of labor on women and does little to advance environmental justice or mitigate risk There's Something In The Water Ingrid R. G. Waldron, 2021-03-25T00:00:00Z In There s Something In The Water Ingrid R G Waldron examines the legacy of environmental racism and its health impacts in Indigenous and Black communities in Canada using Nova Scotia as a case study and the grassroots resistance activities by Indigenous and Black communities against the pollution and poisoning of their communities Using settler colonialism as the overarching theory Waldron unpacks how environmental racism operates as a mechanism of erasure enabled by the intersecting dynamics of white supremacy power state sanctioned racial violence neoliberalism and racial capitalism in white settler societies By and large the environmental justice narrative in Nova Scotia fails to make race explicit obscuring it within discussions on class and this type of strategic inadvertence mutes the specificity of Mi kmaq and African Nova Scotian experiences with racism and environmental hazards in Nova Scotia By redefining the parameters of critique around the environmental justice narrative and movement in Nova Scotia and Canada Waldron opens a space for a more critical dialogue on how environmental racism manifests itself within this intersectional context Waldron also illustrates the ways in which the effects of environmental racism are compounded by other forms of oppression to further dehumanize and harm communities already dealing with pre existing vulnerabilities such as long standing social and economic inequality Finally Waldron documents the long history of struggle resistance and mobilizing in Indigenous and Black communities to address environmental racism Environmental Justice Brendan Coolsaet, 2020-06-15 Environmental Justice Key Issues is the first textbook to offer a comprehensive and accessible overview of environmental justice one of the most dynamic fields in environmental politics scholarship The rapidly growing body of research in this area has brought about a proliferation of

approaches as such the breadth and depth of the field can sometimes be a barrier for aspiring environmental justice students and scholars This book therefore is unique for its accessible style and innovative approach to exploring environmental justice Written by leading international experts from a variety of professional geographic ethnic and disciplinary backgrounds its chapters combine authoritative commentary with real life cases Organised into four parts approaches issues actors and future directions the chapters help the reader to understand the foundations of the field including the principal concepts debates and historical milestones This volume also features sections with learning outcomes follow up questions references for further reading and vivid photographs to make it a useful teaching and learning tool Environmental Justice Key Issues is the ideal toolkit for junior researchers graduate students upper level undergraduates and anyone in need of a comprehensive introductory textbook on environmental justice

Ungendering Menstruation Ela Przybylo, 2025-05-13 Why and how menstrual pain needs to be incorporated into discussions of gender embodiment and disability Honing a cranky approach to being a menstruating body expected to accept and embrace trauma Ungendering Menstruation examines menstrual suppression toxicity and the cooptation of menstrual positivity rhetoric Drawing on their own experiences as a toxic shock survivor and a menstrual pain and period dysphoria sufferer Ela Przybylo questions why on what terms and for whom menstruation has been fixed around experiences of pain Instead they present a vision for menstrual justice that refuses the womaning of bleeding and the further erasure dismissal and denial of menstrual pain as real pain If menstruating is framed as somatechnically elective Przybylo contends it provides avenues for both celebrating and appreciating cultures of bleeding as well as for remaining critical of the ways in which bleeding has been used as a transphobic and sexist tool to fix gender in place

Indigenous Resurgence Jaskiran Dhillon,2022-03-11 From the Standing Rock Sioux Tribe s resistance against the Dakota Access pipeline to the Nepalese Newar community s protest of the Fast Track Road Project Indigenous peoples around the world are standing up and speaking out against global capitalism to protect the land water and air By reminding us of the fundamental importance of placing Indigenous politics histories and ontologies at the center of our social movements *Indigenous Resurgence* positions environmental justice within historical social political and economic contexts exploring the troubling relationship between colonial and environmental violence and reframing climate change and environmental degradation through an anticolonial lens

Home Is Where the Hurt Is Sara Hosey,2019-11-08 Despite years of propaganda attempting to convince us otherwise popular media is beginning to catch on to the idea that the home is one of the most dangerous and difficult places for a woman to be This book examines emergent trends in popular media which increasingly takes on the realities of domestic violence toxic home lives and the impossibility of having it all While many narratives still fall back on outmoded and limiting narratives about gender the pursuit of romance children and a life dedicated to the domestic this book makes the case that some texts introduce complexity and a challenge to the status quo pointing us toward a feminist future in which women s voices and concerns are amplified and respected

Energy Justice Raya Salter,Carmen G. Gonzalez,Elizabeth Ann Kronk Warner,2018-11-30 *Energy Justice US and International Perspectives* is a pioneering analysis of energy law and policy through the framework of energy justice While climate change has triggered unprecedented investment in renewable energy the concept of energy justice and its practical application to energy law and policy remain under theorized This volume breaks new ground by examining a range of energy justice regulatory challenges from the perspective of international law US law and foreign domestic law The book illuminates the theory of energy justice while emphasizing practical solutions that hasten the transition from fossil fuels and address the inequities that plague energy systems

Historical Explorations of Modern Epidemiology Heini Hakosalo,Katariina Parhi,Annukka Sailo,2023-04-10 This volume explores the history of epidemiology from the mid twentieth century to the present Epidemiology has exerted major influence on the way that both infectious and chronic diseases are conceptualized and controlled and more generally on the way that people in modern societies think about health behavior longevity and risk This collection consists of a series of in depth analyses of the roots development and impact of epidemiological research illuminating the complex relationship between medical research and data on the one hand and social and cultural factors on

the other The thematical and geographical scope of the book ranges from indigenous and participant perspectives to the visualization of pandemics and from Circumpolar North to East Africa The book identifies significant historical changes and the driving forces behind them charting forms of science society interaction that characterize modern epidemiology Chapter 1 and chapter 4 are available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

In a New Light Abigail Harrison Moore,R.W. Sandwell,2021-07-15 In the early 1970s a German study estimated that women expended as many calories cleaning their coal mining husbands work clothes as their husbands did working below ground arguably making the home as much a site of industrialized work as factories and mines But while energy studies are beginning to acknowledge the importance of social and historical contexts and to produce more inclusive histories of the unprecedented energy transitions that powered industrialization women have remained notably absent from these accounts In a New Light explores the vital place of women in the shift to fossil fuels that spurred the Industrial Revolution illuminating the variety of ways in which gender and energy intersected in women s lives in nineteenth and twentieth century Europe and North America From their labour in the home where they managed the adoption of new energy sources to their work as educators in electrical housecraft and their protests against the effects of industrialization women took on active roles to influence energy decisions Together these essays deepen our understanding of the significance of gender in the history of energy and of energy transitions in the history of women and gender By foregrounding women s energetic labours and concerns the authors shed new light on energy use in the past and provide important insights as societies move towards a carbon neutral future

Decolonizing Law Sujith Xavier,Beverley Jacobs,Valarie Waboose,Jeffery G. Hewitt,Amar Bhatia,2021-05-24 This book brings together Indigenous Third World and Settler perspectives on the theory and practice of decolonizing law Colonialism imperialism and settler colonialism continue to affect the lives of racialized communities and Indigenous Peoples around the world Law in its many iterations has played an active role in the dispossession and disenfranchisement of colonized peoples Law and its various institutions are the means by which colonial imperial and settler colonial programs and policies continue to be reinforced and sustained There are however recent and historical examples in which law has played a significant role in dismantling colonial and imperial structures set up during the process of colonization This book combines usually distinct Indigenous Third World and Settler perspectives in order to take up the effort of decolonizing law both in practice and in the concern to distance and to liberate the foundational theories of legal knowledge and academic engagement from the manifestations of colonialism imperialism and settler colonialism Including work by scholars from the Global South and North this book will be of interest to academics students and others interested in the legacy of colonial and settler law and its overcoming

Earth Matters on Stage Theresa J. May,2020-08-09 *Earth Matters on Stage Ecology and Environment in American Theater* tells the story of how American theater has shaped popular understandings of the environment throughout the twentieth century as it argues for theater s potential power in the

age of climate change Using cultural and environmental history seven chapters interrogate key moments in American theater and American environmentalism over the course of the twentieth century in the United States It focuses in particular on how drama has represented environmental injustice and how inequality has become part of the American environmental landscape As the first book length ecocritical study of American theater *Earth Matters* examines both familiar dramas and lesser known grassroots plays in an effort to show that theater can be a powerful force for social change from frontier drama of the late nineteenth century to the eco theater movement This book argues that theater has always and already been part of the history of environmental ideas and action in the United States *Earth Matters* also maps the rise of an ecocritical thought and eco theater practice what the author calls ecodramaturgy showing how theater has informed environmental perceptions and policies Through key plays and productions it identifies strategies for artists who want their work to contribute to cultural transformation in the face of climate change
