Motherhood and Creativity in Contemporary Self-Life Writing Alice Braun, 2024-08-21 This book aims to study the representation of motherhood in self life writing by English speaking authors It highlights the particular issues women writers are faced with when they try to combine their vocation as artists with their duties to their children For those women who claim their right to be both mothers and writers several cultural myths need to be taken down chief among which is the representations that we have of what being an artist should be like as well as the role a mother should have towards her children This book looks at self life writing by women from English speaking countries to reveal the common

themes and tropes which recur in texts written on the subject of motherhood by looking at them from both a literary and a cultural perspective It also aims to demonstrate that a new generation of women writers is taking up the subject and forging a new literary tradition **Library Journal** ,1996 The Publishers Weekly ,2001 **A Bite Off Mama's Plate** Miriam Meyers,2001-09-30 Miriam Meyers celebrates the positive role that food plays in women s lives particularly in the relationship between mother and daughter Chocolate for a Woman's Heart and Soul Kay Allenbraugh,1998-11 Previously published separately as Chocolate for a woman s soul and Chocolate for a woman s heart **Contemporary Authors New Revision Series** Scot Peacock,2001-09 In response to the escalating need for up to date information on writers Contemporary Authors New Revision Series brings researchers the most recent data on the world s most popular authors These exciting and unique author profiles are essential to your holdings because sketches are entirely revised and up to date and completely replace the original Contemporary Authors entries For your convenience a soft cover cumulative index is sent biannually While Gale strives to replicate print content some content may not be available due to rights restrictions Call your Sales Rep for details **Women's Research Network News** ,1995 Toni Morrison and Motherhood Andrea O'Reilly,2012-02-01 Traces Morrison s theory of African American mothering as it is articulated in her novels essays speeches and interviews Mothering is a central issue for feminist theory and motherhood is also a persistent presence in the work of Toni Morrison Examining Morrison s novels essays speeches and interviews Andrea O Reilly illustrates how Morrison builds upon black women s experiences of and perspectives on motherhood to develop a view of black motherhood that is in terms of both maternal identity and role radically different from motherhood as practiced and prescribed in the dominant culture Motherhood in Morrison s view is fundamentally and profoundly an act of resistance essential and integral to black women s fight against racism and sexism and their ability to achieve well being for themselves and their culture The power of motherhood and the empowerment of mothering are what make possible the better world we seek for ourselves and for our children This argues O Reilly is Morrison s maternal theory a politics of the heart As an advocate of a politics of the heart O Reilly has an acute insight into discerning any threat to the preservation and continuation of traditional African American womanhood and values Above all Toni Morrison and Motherhood based on Andrea O Reilly s methodical research on Morrison s works as well as feminist critical resources proffers a useful basis for understanding Toni Morrison s works It certainly contributes to exploring in detail Morrison s rich and complex works notable from the perspectives of nurturing and sustaining African American maternal tradition African American Review O Reilly boldly reconfigures hegemonic western notions of motherhood while maintaining dialogues across cultural differences Journal of the Association for Research on Mothering Andrea O Reilly examines Morrison s complex presentations of and theories about motherhood with admirable rigor and a refusal to simplify and the result is one of the most penetrating and insightful studies of Morrison yet to appear a book that will prove invaluable to any scholar teacher or reader of Morrison South Atlantic Review it serves as a sort of

Theriot,2021-05-11 The feminine script of early nineteenth century centered on women s role as patient long suffering mothers By mid century however their daughters faced a world very different in social and economic options and in the physical experiences surrounding their bodies In this groundbreaking study Nancy Theriot turns to social and medical history developmental psychology and feminist theory to explain the fundamental shift in women s concepts of femininity and gender identity during the course of the century from an ideal suffering womanhood to emphasis on female control of physical self Theriot s first chapter proposes a methodological shift that expands the interdisciplinary horizons of women s history She argues that social psychological theories recent work in literary criticism and new philosophical work on subjectivities can provide helpful lenses for viewing mothers and children and for connecting socioeconomic change and ideological change She recommends that women s historians take bolder steps to historicize the female body by making use of the theoretical insights of feminist philosophers literary critics and anthropologists Within this methodological perspective Theriot reads medical texts and woman authored advice literature and autobiographies She relates the early nineteenth century notion of true womanhood to the socioeconomic and somatic realities of middle class

women's lives particularly to their experience of the new male obstetrics. The generation of women born early in the century in a close mother-daughter world taught their daughters the feminine script by word and action. Their daughters, however, the first generation to benefit greatly from professional medicine, had less reason than their mothers to associate womanhood with pain and suffering. The new concept of femininity they created incorporated maternal teaching but altered it to make meaningful their own very different experience. This provocative study applies interdisciplinary methodology to new and long-standing questions in women's history and invites women's historians to explore alternative explanatory frameworks.
