Orintatie Nieuwe Wegen In De Theologie:

Nouvelle Théologie - New Theology Jürgen Mettepenningen, 2010-04-01 This is an introduction to the most influential movement in Catholic theology in the 20th century which prepared the ground for the Second Vatican Council. It sheds new light on the theological movement that led up to and inspired the Second Vatican Council and is a most needed contribution to the ongoing heated discussions about the hermeneutics of the Council.

Handbook of Dutch Church History Herman J. Selderhuis, 2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co-written by a Catholic and a Protestant author who have all integrated the latest research results. Each section begins with a brief historiographical overview. The same time ecclesiastical events are always set within a greater framework of political, social and cultural developments for which reason each author has taken the liberty to describe its own method. The user will find in this book tables, diagrams and illustrations. Also many source texts are integrated in the narration. These texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words. The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user. First there is the nature of a handbook that is intended to be a good tool but also has its limitations; it stimulates and necessitates the use of further books. Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region, town and village has its own church history. Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments.

Dietrich Bonhoeffer and Neo-Calvinism in Dialogue George Harinck, Brant M. Himes, 2023-11-28 This book is a collection of scholarly essays that place Dietrich Bonhoeffer in conversation with the Dutch Neo-Calvinist tradition of Abraham Kuyper and Herman Bavinck. The essays engage in theological ethics and historical theology in an effort to frame ongoing dialogue in relation to issues of public theology. While Bonhoeffer and Neo-Calvinism represent distinct theological traditions, there is value in placing their respective ideas in conversation for the purposes of creative insight, theological understanding and practical application. Contributors represent perspectives from North America and the Netherlands. Taken together, the essays offer an important contribution to this unique field of theological inquiry.

Orthodoxy and Platonism in Athanasius E. P. Meijering, 1968 *Towards Another Future* Marcel Heyndriks, 2006 From the beginning the gospel has been understood and articulated in terms borrowed from the cultural context in which it finds itself For the largest part of the church's history the prevailing context has worked with a static vision of humanity and the world Theology and philosophy perpetuated this static worldview This was both legitimate and necessary as long as the culture was shaped by such a worldview Since the advent of modernity however this is no longer the case The advent of science and technology has seen the static view of things give way to an understanding of ourselves and our world as dynamic entities This has made the traditional understanding of faith increasingly untenable One might say that the gospel has become the prisoner of its previous embodiments The church's determination to hold on to established forms and with them the traditional understanding of humanity and the world has led to its increasing alienation from the prevailing culture especially in the West For many in our society the church's language has become increasingly incomprehensible and its message increasingly untenable In this book the author argues that the church's attachment to a static worldview is the fundamental cause of the current crisis especially as this is manifest in western Europe He provides a detailed discussion of the European context and analyzes the main features of the traditional static understanding of faith and its roots in classical culture He then examines the contemporary crisis of faith and offers a critical evaluation of attempts at restoration Finally he proposes a vision of the way forward for the church as it struggles to come to terms with the modern worldview

Territories of Faith Sven Sterken, Eva Weyns, 2022-01-28 A novel and interdisciplinary perspective on post war church building In the 1950s and 1960s thousands of churches were built across Europe in an attempt to keep up with the continent's rapid urbanisation This book addresses the immense effort related to the planning financing and construction of this new religious infrastructure Going beyond aspects of style and liturgy and transcending a focus on particular architects or regions this volume considers church building at the crossroads of pastoral theology religious sociology and urban planning Presenting the rich palette of strategies and methods deployed by congregations dioceses government bodies and private patrons in their attempt to secure a religious presence in the rapidly modernising world Territories of Faith offers a broad view of the practice of religion and its material expression in the fast evolving sub urban landscapes of post war Europe

Myth and Metaphysics W.A. Luijpen, 2012-12-06 This book is an attempt to interpret man's religious existence an interpretation for which some of the groundwork was laid by the author's book PHENOMENOLOGY AND ATHEISM Duquesne University Press 2nd impression 1965 That work explored the denial of God by the leading atheists and came to terms with the most typical forms assumed by their denials Nevertheless I am not an adherent of atheism The reason why it is possible to agree with many atheists without becoming one of them is that man can misunderstand his own

religiousness or lapse into an inauthentic form of being a believer What many atheists unmask is one or the other form of pseudo religiousness which should be unmasked On the other hand I have also constantly refused to identify religiousness with such inauthentic forms and to define it in terms of those forms just as I refuse to identify the appendix with appendicitis the heart with an infarct the psyche as a disturbance and marriage as a fight The book offered here has been written since the rise of the radical God is dead theology This theology without God has often been presented as the only form of theological thought still suitable for modern man As the reader will notice I reject the brash facility with which some modern men measure the relevance of anything by its modernity **Denken over religie - Deel III Hedendaagse perspectieven**

Valeer Neckebrouck,2014-10-23 Derde en laatste deel van het basiswerk Denken over religie door Valeer Neckebrouck Met Deel III Hedendaagse perspectieven is auteur Valeer Neckebrouck tot het sluitstuk gekomen van de chronologisch opgevatte reeks Denken over religie Antropologische theorie en godsdienst De studie van de antropologie van de religie wordt in dit laatste deel vanuit de meest toonaangevende hedendaagse modellen en perspectieven belicht De secularisatietheorie n het postmodernisme het feminisme het neodarwinisme en de cognitieve antropologie van de godsdienst worden uitvoerig behandeld maar ook denkers als Ren Girard Walter Burkert Edward O Wilson en Richard Dawkins passeren de revue Met de behandeling van hedendaagse theoretische perspectieven in de antropologische studie van de godsdienst gaat het om onderzoeksterreinen die nog constant in beweging zijn om inzichten die nog in volle ontwikkeling verkeren Bijna dagelijks worden in de biologie nieuwe ontdekkingen gedaan waarvan sommige verplichten tot een radicale herziening van inzichten die voordien als vaststaande verworvenheden werden beschouwd Omdat onze kennis op gebied van biologie en neurologie voortdurend evolueert dient het bilan ervan steeds weer herschreven te worden Met dit derde deel uit de reeksDenken over religie heeft Valeer Neckebrouck hiertoe onmiskenbaar een belangwekkende bijdrage geleverd Neckebrouck brengt de lezer in dit finale volume een grondige analyse en kritische evaluatie van de verschillende theoretische systemen waarmee grote en minder grote geesten uit de recente westerse cultuurgeschiedenis getracht hebben het enigmatische fenomeen religie vanuit antropologisch standpunt te verhelderen Voor eenieder die geïnteresseerd is in het fenomeen religie en wil weten hoe antropologen doorheen de geschiedenis over godsdienst hebben gedacht is deze trilogie een onmisbaar en bijzonder rijk gestoffeerd naslagwerk Een zo gedetailleerde beschrijving en kritische evaluatie van de behandelde materie was tot nog toe in geen enkel taalgebied voorhanden The Artificiality of Christianity M. the author's primary goal is to distill from monastic literature a poetical tool that can be used to decipher the literary structure of religious texts a secondary goal is to show the centrality of monasticism to the specific experiences of Christian reading *Bible and Canon* Luc Zaman,2008-05-31 Several decades ago canonical criticism came to dominate the study of the canon and even indeed all of biblical studies by its emphasis on the biblical canon's dogmatic content An investigation of this canonical criticism brings its weak points to light most notably the insufficient attention that is given to the canon's

historical development This new historical study begins with the earliest stages of the process of forming the canon rather than its final stages as most studies do It shows how the canon in essence was already formed in the early stages of its historical development It is essentially synchronically an authoritative unification of a range of traditions within the faith community and diachronically the guide that draws the dynamics of these traditions beyond their discontinuities to produce a continuity
