George Orwell Mark Connelly, 2018-11-09 George Orwell 1903-1950 is one of the most influential authors in the English language His landmark novels Animal Farm 1945 and Nineteen Eighty Four 1949 have been translated into many foreign languages and inspired numerous stage and film adaptations His well known essays A Hanging and Shooting an Elephant are widely anthologized and often taught in college composition classes The writer is credited with inventing the terms Big Brother thought crime unperson and double think His name itself has become an adjective Orwellian Seventy years after its publication Nineteen Eighty Four remains very popular its sales surging in an era of enhanced surveillance and media manipulation This literary companion provides an extensive chronology and more than 175 entries about both his literary works and personal life Also included are discussion questions and research topics notable quotations by Orwell and an extensive bibliography of related sources

Orwell and Marxism Philip Bounds, 2009-03-16 Whether as a fighter in the Spanish Civil War an advocate of patriotic Socialism or a left wing opponent of the Soviet Union George Orwell was the ultimate outsider in politics insecure scornful of orthodoxies cussedly independent Best known today as the author of Animal Farm and Nineteen Eighty Four Orwell also wrote seven other full length books and a vast number of essays articles and reviews A pioneering cultural critic he addressed a range of important issues including art literature Englishness mass communication and the spectre of totalitarianism Famously describing his own background as lower upper middle class Orwell had a complex relationship with Marxism and all his work reflects the influence of British communism In this thoughtful and original study Philip Bounds argues that Orwell's writings effectively took the form of a

dialogue with the leading British Marxists of his day Bounds shows that Orwell often agreed with the Marxists and built on their insights in his writings while on other occasions he used his disagreements with them as the basis of his own critical position Through close analysis of Orwell's writings as well as his historical and literary context Bounds has produced an important study of one of the iconic writers of the 20th century Orwell and Marxism offers a thorough introduction to Orwell the intellectual reviving his reputation as a serious cultural thinker and documenting his most important influences as well as a convincing portrait of British Marxism and society in the 1930s and 40s **The Oxford Handbook of George Orwell**

,2025-02-02 The Oxford Handbook of George Orwell offers a wide ranging reconsideration of Orwell's life and work focusing on the extensive connections between his novels essays diaries columns letters and reviews Accessible to general readers and to established scholars alike forty eight chapters written by an international team of Orwell specialists address familiar topics such as Orwell's journalism broadcasting literary criticism and politics as well as less well trodden areas of his output such as his accounts of stupidity kindness and justice and his connections with contemporaries like Jack Common Katharine Burdekin Wyndham Lewis and Victor Serge Sections on Orwell's professional activities his main literary influences his politics his intellectual fixations his literary contemporaries and his legacies structure the book which moves thematically and topically through the full scope of his output The first section looks at how Orwell spent his time as a writer reader and broadcaster Chapters on writers from Shakespeare to the modernists investigate the determinants of Orwell's literary practice The book then turns to a set of political contexts in which Orwell's writing can be understood The Fixations section covers the familiar such as Orwell's account of Englishness and the unfamiliar such as his account of the absurd The fifth section relates Orwell to several politically minded contemporaries tracing connections and differences between their writing The final section of the Handbook reflects on how Orwell sounds through several literary and socio political legacies and includes innovative considerations of feminism Afrofuturism and queer speculative fiction **Orwell** Scott Lucas,2003

Accessible and affordable biography illustrated throughout in color **On Nineteen Eighty-Four** Abbott Gleason,Jack Goldsmith,Martha C. Nussbaum,2010-07-28 George Orwell's Nineteen Eighty Four is among the most widely read books in the world For more than 50 years it has been regarded as a morality tale for the possible future of modern society a future involving nothing less than extinction of humanity itself Does Nineteen Eighty Four remain relevant in our new century The editors of this book assembled a distinguished group of philosophers literary specialists political commentators historians and lawyers and asked them to take a wide ranging and uninhibited look at that question The editors deliberately avoided Orwell scholars in an effort to call forth a fresh and diverse range of responses to the major work of one of the most durable literary figures among twentieth century English writers As Nineteen Eighty Four protagonist Winston Smith has admirers on the right in the center and on the left the contributors similarly represent a wide range of political literary and moral viewpoints The Cold War that has so often been linked to Orwell's novel ended with more of a whimper than a bang but most

of the issues of concern to him remain alive in some form today censorship scientific surveillance power worship the autonomy of art the meaning of democracy relations between men and women and many others The contributors bring a variety of insightful and contemporary perspectives to bear on these questions **The Ministry of Truth** Dorian

Lynskey,2019-06-04 Rich and compelling Lynskey s account of the reach of 1984 is revelatory George Packer The Atlantic An authoritative wide ranging and incredibly timely history of 1984 its literary sources its composition by Orwell its deep and lasting effect on the Cold War and its vast influence throughout world culture at every level from high to pop 1984 isn t just a novel it s a key to understanding the modern world George Orwell s final work is a treasure chest of ideas and memes Big Brother the Thought Police Doublethink Newspeak 2 2 5 that gain potency with every year Particularly in 2016 when the election of Donald Trump made it a bestseller Ministry of Alternative Facts anyone Its influence has morphed endlessly into novels The Handmaid s Tale films Brazil television shows V for Vendetta rock albums Diamond Dogs commercials Apple even reality TV Big Brother The Ministry of Truth is the first book that fully examines the epochal and cultural event that is 1984 in all its aspects its roots in the utopian and dystopian literature that preceded it the personal experiences in wartime Great Britain that Orwell drew on as he struggled to finish his masterpiece in his dying days and the political and cultural phenomena that the novel ignited at once upon publication and that far from subsiding have only grown over the decades It explains how fiction history informs fiction and how fiction explains history **Culture of the Internet** Sara

Kiesler,2014-02-04 As we begin a new century the astonishing spread of nationally and internationally accessible computer based communication networks has touched the imagination of people everywhere Suddenly the Internet is in everyday parlance featured in talk shows in special business technology sections of major newspapers and on the covers of national magazines If the Internet is a new world of social behavior it is also a new world for those who study social behavior This volume is a compendium of essays and research reports representing how researchers are thinking about the social processes of electronic communication and its effects in society Taken together the chapters comprise a first gathering of social psychological research on electronic communication and the Internet The authors of these chapters work in different disciplines and have different goals research methods and styles For some the emergence and use of new technologies represent a new perspective on social and behavioral processes of longstanding interest in their disciplines Others want to draw on social science theories to understand technology A third group holds to a more activist program seeking guidance through research to improve social interventions using technology in domains such as education mental health and work productivity Each of these goals has influenced the research questions methods and inferences of the authors and the look and feel of the chapters in this book Intended primarily for researchers who seek exposure to diverse approaches to studying the human side of electronic communication and the Internet this volume has three purposes to illustrate how scientists are thinking about the social processes and effects of electronic communication to encourage research based contributions to

current debates on electronic communication design applications and policies and to suggest by example how studies of electronic communication can contribute to social science itself

None of Your Business Peter P. Swire, Robert E. Litan, 2010-12-01 The historic European Union Directive on Data Protection will take effect in October 1998 A key provision will prohibit transfer of personal information from Europe to other countries if they lack adequate protection of privacy If enforced as written the Directive could create enormous obstacles to commerce between Europe and other countries such as the United States that do not have comprehensive privacy statutes In this book Peter Swire and Robert Litan provide the first detailed analysis of the sector by sector effects of the Directive They examine such topics as the text of the Directive the tension between privacy laws and modern information technologies issues affecting a wide range of businesses and other organizations effects on the financial services sector and effects on other prominent sectors with large transborder data flows In light of the many and significant

effects of the Directive as written the book concludes with detailed policy recommendations on how to avoid a coming trade war with Europe The book will be of interest to the wide range of individuals and organizations affected by the important new European privacy laws More generally the privacy clash discussed in the book will prove a major precedent for how electronic commerce and world data flows will be governed in the Internet Age

The Republican Noise Machine David Brock, 2005 Bestselling author David Brock documents the most important political development of the last thirty years How the Republican Right has won political power and hijacked public discourse in the United States Over the last several decades the GOP has built a powerful media machine newspapers and magazines think tanks talk radio networks op ed columnists the FOX News Channel Christian Right broadcasting book publishers and high traffic Internet sites to sell conservatism to the public and discredit its opponents David Brock's penetrating analysis of news stories from the disputed 2000 presidential election to the war in Iraq to the political battles of 2004 reveals that this booming right wing media market is largely based on bigotry ignorance and emotional manipulation closely tied to America's long standing cultural divisions and the buying power of anti intellectual traditionalists Writing with verve and deep insight Brock reaches far beyond typical bromides about media bias to produce an invaluable account of the rise of right wing media and its political consequences

Life in the Market Ecosystem Stuart K. Hayashi, 2014-11-13 Life in the Market Ecosystem the second book in the Nature of Liberty trilogy confronts evolutionary psychology head on It describes the evolutionary psychologists theory of gene culture co evolution which states that although customs and culture are not predetermined by anyone's genetic makeup one's practice of a custom can influence the likelihood of that person having children and grandchildren Therefore according to the theory customs count as evolutionary adaptations Extending that theory further as entire systems of political economy capitalism socialism and hunter gatherer subsistence consist of multiple customs and institutions it follows that an entire political economic system can likewise be classified as an evolutionary adaptation Considering that liberal republican capitalism has insofar as the system has been implemented done more to reduce the mortality rate and secure human fertility than other models of societal structure it stands to reason that liberal republican capitalism is itself a beneficent evolutionary adaptation Moreover as essential tenets of Rand's Objectivism individualism observation based rationality and peaceable self interest have been integral to the development of the capitalist ecosystem important aspects of the Objectivism are worthwhile adaptations as well This book shall uphold that position as well as combat critiques by evolutionary psychologists and environmentalists who denounce capitalism as self destructive Instead capitalism is the most sustainable and fairest political model This book argues that of all the philosophies Objectivism is the one that is most fit for humanity

Our Posthuman Future Francis Fukuyama, 2017-06-15 Is a baby whose personality has been chosen from a gene supermarket still a human If we choose what we create what happens to morality Is this the end of human nature The dramatic advances in DNA technology over the last few years are the stuff of science fiction It is now not only possible to

clone human beings it is happening For the first time since the creation of the earth four billion years ago or the emergence of mankind 10 million years ago people will be able to choose their children s sex height colour personality traits and intelligence It will even be possible to create superhumans by mixing human genes with those of other animals for extra strength or longevity But is this desirable What are the moral and political consequences Will it mean anything to talk about human nature any more Is this the end of human beings Our Posthuman Future is a passionate analysis of the greatest political and moral problem ever to face the human race **Virtual Politics** Andrew Wilson, Professor of the Archaeology of the Roman Empire Andrew Wilson, 2005-01-01 States like Russia and Ukraine may not have gone back to totalitarianism or the traditional authoritarian formula of stuffing the ballot box cowing the population and imprisoning the opposition or not obviously But a whole industry of political technology has developed instead with shadowy private firms and government fixers on lucrative contracts dedicated to the black arts of organizing electoral success This book uncovers the sophisticated techniques of the virtual political system used to legitimize post Soviet regimes entire fake parties phantom political rivals and scarecrow opponents And it exposes the paramount role of the mass media in projecting these creations and in falsifying the entire political process Wilson argues that it is not primarily economic problems that have made it so difficult to develop meaningful democracy in the former Soviet world Although the West also has its spin doctors dirty tricks and aggressive ad campaigns it is the unique post Bolshevik culture of political technology that is the main obstacle to better governance in the region to real popular participation in public affairs and to the modernization of the political economy in the longer term

Neoliberal Hegemony Dieter Plehwe, Bernhard J. A Walpen, Gisela Neunhöffer, 2007-05-07 Neoliberalism is fast becoming the dominant ideology of our age yet politicians businessmen and academics rarely identify themselves with it and even political forces critical of it continue to carry out neoliberal policies around the globe How can we make sense of this paradox Who actually are the neoliberals This is the first explanation of neoliberal hegemony which systematically considers and analyzes the networks and organizations of around 1 000 self conscious neoliberal intellectuals organized in the Mont Plerin Society This book challenges simplistic understandings of neoliberalism It underlines the variety of neoliberal schools of thought the various approaches of its proponents in the fight for hegemony in research and policy development political and communication efforts and the well funded well coordinated and highly effective new types of knowledge organizations generated by the neoliberal movement partisan think tanks It also closes an important gap in the growing literature on private authority presenting new perspectives on transnational civil society formation processes This fascinating new book will be of great interest to students of international relations political economy globalization and politics
