**Out of it** Stuart Walton, 2002 Out of It is a superbly informed and sharply observed tour through the history legality and chemistry of the many substances we use to get high Dealing with the full range of drugs including cocaine cannabis caffeine ecstasy nicotine heroin and alcohol and their effects Stuart Walton s book also has a shocking but compelling central argument that we not only have an abiding desire to consume intoxicating substances but actually have a right to do so And that the harm they can do is greatly outweighed by the variety of experience they make possible and the considerable enjoyment we derive from taking them The Hangover Jonathon Shears, 2020-03-27 What is a hangover How does it feel to suffer from one What can hangovers tell us about the way attitudes to alcohol have developed over time In the humanities why have we neglected the subject of the hangover in our critical discussions of alcohol and intoxication In the first comprehensive study of the hangover in literature and culture Jonathon Shears sets out to answer each of these questions by exploring the representation of the morning after in a wide variety of texts ranging from the Renaissance to the present day The book looks at what examples of hangover literature from writers such as Ben Jonson Robert Burns Charles Dickens Kingsley Amis and A L Kennedy can add to our personal and cultural understanding of alcohol use It demonstrates that more than just a cluster of physical symptoms the hangover is a complex interplay of sensations and emotions with a fascinating cultural history **The SAGE Encyclopedia of Alcohol** Scott C. While medical science understands it is risky for our health dependency addiction illness anthropology sees drinking as contributing to communal celebration euphoria sociability Since health and celebration are both desirable goods Kieran Bonner suggests that it is this balancing act our desire for what is better and good our preference for one thing over another that creates ambiguity revealing a grey zone that is fundamental to a fuller understanding of well being In a series of case studies revealing intricacies and ambiguities not usually picked up in typical scientific philosophical or sociological discourses Bonner posits well being as harmony requiring nuanced judgments about the various things that humans desire including wealth health beauty power vitality leisure pleasure love and wisdom Informed by a creative synthesis of Socratic interrogation hermeneutic perspectives drawn from post phenomenological thinkers such as Hans Georg Gadamer and Hannah Arendt and distinctive perspectives found in the tradition of reflexive sociology Euphoria and Symposia asserts that reconciling unlimited desire with the finite nature of the human condition is essential for the understanding and enjoyment of life itself
