Sin: A Guide for the Perplexed Derek R. Nelson, 2011-05-26 Christianity concerns itself with salvation But salvation implies something from which one must be saved as reconciliation implies an estrangement and redemption a loss The classical theological symbol naming the problem to which salvation is the solution is sin Interpreting the meaning of sin however has become difficult for two reasons sin has become a taboo subject in popular discourse and has acquired an extremely broad meaning in recent theology Sin A Guide for the Perplexed is intended as a mid level comprehensive introduction to the notion of sin and its significance for Christian theology Nelson situates and interprets biblical material on sin and then offers a lucid history of the doctrine He elucidates Augustine's conception of original sin and defends it against its many caricatures Special attention is paid to sin as an ordinary yet highly interruptive phenomenon in the lives of individuals This is supplemented by a careful look at the non individualistic dimensions of sin and an appreciation of how sin relates to other key theological commitments

Healing All Creation Joan Connell, Adam Bartholomew, 2019-06-12 In Healing All Creation a scripture scholar and a religion journalist explore the literary and theological symmetries of Genesis the Gospel of Mark and the unfolding story of evolution as told by science and the emerging discipline of cosmological theology Read together these narratives shed new light on the Judeo Christian tradition and offer fresh ideas about how to respond to the moral and environmental crises of our times Scientific discoveries make it increasingly clear that everything in the world is connected Physically and spiritually small actions can have great impact In the creation myths of Genesis it is possible for individuals to generate great evil but also do enormous good and repair a broken world Mark's story of the public life of Jesus speaks to the transformative effect of cumulative acts of compassion Cosmological theology suggests that evolution is spiritual as well as material and that our search for meaning

is dynamic ongoing and grounded in the sanctity of all creation This book speaks to those for whom Judeo Christian scripture is important but also to those who consider themselves spiritual but not religious those who stand in awe of the majesty of the universe and appreciate the sanctity of all creation It introduces to a general audience a century long dialogue among scientists theologians scripture scholars and summons the voices of 20th century spiritual heroes contemporary theologians and religion scholars from a variety of traditions and perspectives This accessible but scholarly narrative and robust endnotes make it valuable as a textbook for college level courses on religion and ecology The authors offer fresh insights into Mark s story of the healing ministry of Jesus and his relationships with women including his crushing final encounter with the women who stayed with him to the end and the transformative mission it inspired It raises questions about the gender inequity that persists in organized religion and in the world at large This book examines institutional Christianity s historical failures such as the early abandonment of nonviolence and its tendency to question the validity of scientific discoveries It explores the impact of dispensational theology whose vision of a material world ending in fiery apocalypse produced Christians so focused on the end times that they have scant regard for the sanctity of the Earth It has been said that the Bible is the most purchased and least read book in America This accessible narrative introduces a diverse general audience to the riches of contemporary scripture scholarship the wisdom of cosmological theology and a renewed awareness of the sanctity of all creation

Feminist Theology and the Challenge of Difference Margaret D.

Kamitsuka, 2007-07-20 In the early years of contesting patriarchy in the academy and religious institutions feminist theology often presented itself as a unified front a sisterhood The term feminist theology however is misleading It suggests a singular feminist purpose driven by a unified female cultural identity that struggles as a cohesive whole against patriarchal dominance Upon closer inspection the voice of feminist theology is in fact a chorus of diverging perspectives each informed

by a variety of individual and communal experiences and an embattled scholarly field marked by the effects of privilege and power imbalances This complexity raises an important question How can feminist theologians respect the irreducible diversity of women s experiences and unmask entrenched forms of privilege in feminist theological discourse In *Feminist Theology and the Challenge of Difference* Margaret D Kamitsuka urges the feminist theological community to examine critically its most deeply held commitments assumptions and goals especially those of feminist theologians writing from positions of privilege as white or heterosexual women Focusing on women s experience as portrayed in literature biblical narrative and ethnographic writing Kamitsuka examines the assumptions of feminist theology regarding race and sexuality She proposes theoretical tools that feminist theologians can employ to identify and hopefully avoid the imposition of racial or sexual hegemony thus providing invaluable complexity to the movement s identity and ultimately contributing to current and future Christian theological issues Blending poststructuralist and postcolonial theoretical resources with feminist and queer concerns *Feminist Theology and the Challenge of Difference* makes constructive theological proposals ranging from sin to christology The text calls feminist theologians to a more rigorous self critical approach as they continue to shape the changing face of Christian theological discourse
