Outsourcing Of Hospital Services:

Cleaning Up Dan Zuberi, 2013-10-15 To cut costs and maximize profits hospitals in the United States and many other countries are outsourcing such tasks as cleaning and food preparation to private contractors In *Cleaning Up* the first book to examine this transformation in the healthcare industry Dan Zuberi looks at the consequences of outsourcing from two perspectives its impact on patient safety and its role in increasing socioeconomic inequality Drawing on years of field research in Vancouver Canada as well as data from hospitals in the U S and Europe he argues that outsourcing has been disastrous for the cleanliness of hospitals leading to an increased risk of hospital acquired infections a leading cause of severe illness and death as well as for the effective delivery of other hospital services and the workers themselves Zuberi s interviews with the low wage workers who keep hospitals running uncover claims of exposure to near constant risk of injury and illness Many report serious concerns about the quality of the work due to understaffing high turnover poor training and experience inadequate cleaning supplies and on the job injuries Zuberi also presents policy recommendations for improving patient safety by reducing the risk of hospital acquired infection and ameliorating the work conditions and quality of life of hospital support workers He makes the case that hospital outsourcing exemplifies the trend towards low road service sector jobs that threatens to undermine society s social health as well as the physical health and well being of patients in health care settings globally

Policy and Politics is essential reading for undergraduates studying Canada's labour market. This comprehensive textbook traces the causes and rise of labour inequities and outlines solutions for a more sustainable future. Written in clear and accessible language by leading experts and practitioners, this book demonstrates how and why laws and public policy intended to protect workers often leave employees vulnerable and with little economic or social security. Based on up-to-date data and framed in the context of international developments, this essential text provides readers with real-world examples and case studies of how globalization, labour laws, employment standards, COVID-19 and other issues affect workers on and off the job. Canadian Labour Policy and Politics invites students into defining a policy agenda for developing greater economic equality and political inclusiveness while fostering a green recovery. Key features include chapter summaries and outlines, suggestions for further reading, and glossaries of key terms.

Analysis of Resource Management in Complex Work Systems Qinglian Lin, 2016-08-19. This book develops and assesses a decision-making model for resource management in complex work systems in line with the Systems Engineering method. It applies the Balanced Scorecard to the development of the criteria system for decision-making and employs fuzzy linguistics theory to evaluate the alternatives. Further, the book assesses the application of this model in a hospital that has to decide whether or not to outsource its sterile goods. The use of the model opens up a diverse range of fields for decision-making in the area of complex work systems.

Hospital Performance in Brazil Gerard Martin La Forgia, Bernard Couttolenc, 2008-01-01. Drawing on an eclectic array of research and evaluative studies culled from a mix of sources, this volume analyzes Brazilian hospital performance along several policy dimensions including resource allocation and use within hospitals, hospital payment mechanisms, organizational and governance arrangements, management practices, and regulation and quality. An agenda for hospital reform is proposed which synthesizes priorities that are integral to improving hospital performance and which should be considered for implementation in the near and medium term.

Management Principles for Health Professionals Joan Gratto Liebler, Charles R. McConnell, 2004. Management Principles for Health Care Professionals will thoroughly prepare your students for their future roles as healthcare managers. The customary activities of the manager—planning, organizing, decision-making, staffing, motivating, and budgeting—are succinctly defined, explained, and presented with detailed examples drawn from a variety of health care settings. Students will learn proven management concepts, techniques, models, and tools for managing individuals or teams with skill and ease. This edition includes discussions on new concepts and trends in management such as appreciative inquiry, approaches to motivation and conflict management, and Six Sigma applications for quality control.

The Japan Healthcare Debate Mark A. Colby, 2021-10-25. Driven by the demographic tsunami of a rapidly aging population, costs of universal healthcare in Japan have grown at an unprecedented rate. These trends are mirrored elsewhere, so industrialized countries are asking if Japan will become a global test case for healthcare delivery.
