Here is the real story of the MGA's engineering, body styling and every aspect of the car's development and production, including MG's strategy to beat its competitors. In seven years of production there were major successes and sad disappointments. The MGA was the car that was right first time and though the Twin Cam variant was a nightmare for the factory, it is now the most sought after model. This book tells how the sleepy Thames side village of Abingdon became a mass production centre for the MGA, how the MGA became one of America's best loved sports cars and how the MGA has become one of today's classic cars cherished by enthusiastic owners all over the world. *Practical Classics Guide to the MGB* Danny Hopkins, 2014. The four and six cylinder Healey 100s and the later 3000 model were masculine, hairy-chested sports cars in the best tradition. This edition is designed to appeal to all fans of British sports cars as well as to Austin Healey owners and enthusiasts. The book features the complete history of the car period and modern colour photographs and production figures and specifications.
