François Mitterrand Adolf Kimmel,2022-07-13

After Charles de Gaulle François Mitterrand is regarded as the most important French politician since the end of World War II. His election as President of the Republic in 1981 brought about the first transfer of power after 23 years in the Fifth Republic to the left wing Socialist Communist alliance. During his 14 year presidency important reforms were passed some of which are still in place today including the abolition of the death penalty decentralization and retirement at age 60. Adolf Kimmel presents on the one hand Mitterrand's efforts to ensure national independence and achieve close Franco German cooperation and on the other his adherence to the principles of Gaullist foreign policy. In clear contours he portrays a politician who was as inscrutable and changeable as he was controversial as a personality the reason he has also been called the Sphinx.
