New Perspectives On Aloe New Perspectives On Aloe:

New Perspectives on Aloe Young In Park, Seung Ki Lee, 2006-09-27 New Perspectives on Aloe will cover research studies of aloe by the CAP Creation Aloe Pharmaceuticals team which studied various aspects of aloe over a period of more than 10 years. The team was organized into two groups: the isolation and analysis group which purified many components in terms of low molecular weight compounds, carbohydrates, proteins present in aloe, and the assay group which determined the efficacy of those components. This type of target-oriented organized research provides a model of how to conduct multidisciplinary research. The contents include a brief introduction of aloe isolation, purification, and structural analysis of components and various physiological effects of those components for possible use as health foods or drugs. Various functions identified were wound healing, angiogenesis, anti-allergy, skin whitening, stimulation of cell proliferation such as liver or kidney protection against nephrotoxicity, and immune modulation. Moreover, we suggest standardization and quality control procedures for manufacturing raw aloe and how to develop related products for successful application of aloe. This is important in Korea because last year the Korean government listed aloe as a health food for which the government establishes regulatory laws. Therefore, many scientists in Korea who are interested in studying health foods would be interested in this kind of text. Other major fields related to this kind of research will be medicine, biology, pharmaceuticals, natural products, and analytics. [Diabetes: New Insights for the Healthcare Professional: 2012 Edition](#), 2012-12-10

[Diabetes New Insights for the Healthcare Professional 2012 Edition](#) is a ScholarlyEditions eBook that delivers timely, authoritative, and comprehensive information about Diabetes. The editors have built Diabetes New Insights for the Healthcare Professional 2012 Edition on the vast information databases of ScholarlyNews. You can expect the information about Diabetes in this eBook to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Diabetes New Insights for the Healthcare Professional 2012 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com>.

Herbal Medicine Iris F. F. Benzie, Sissi Wachtel-Galor, 2011-03-28 The global popularity of herbal supplements and the promise they hold in treating various disease states has caused an unprecedented interest in understanding the molecular basis of the biological activity of traditional remedies. *Herbal Medicine: Biomolecular and Clinical Aspects* focuses on presenting current scientific evidence of biomolecular effects. *Language and Ecology in Southern and Eastern Arabia* Janet C.E. Watson, Jon C. Lovett, Roberta Morano, 2022-10-20 Regions of the world with greatest biodiversity are shown to exhibit greatest linguistic diversity, strongly suggesting that the relationship between language and ecology is both symbiotic and spatially and temporally determined. This volume examines the expressions of and threats and

challenges to this relationship in southern and eastern Arabia Exploring the ways in which indigenous languages reflect the close relationship between people and their natural environment this book presents an overview of the key threats and challenges and introduces the methodologies used to investigate them Across the chapters case studies are presented dealing with language gesture and ecology the significance of naming the role of narratives in the language ecology relationship and conservation and revitalisation of bio cultural diversity in Arabia Taking a multidisciplinary view this book argues for the central role that language plays in facing the challenges and threats to bio cultural diversity and presents methods for the study of the language nature relationship that can be applied globally
