The Garden District of New Orleans Jim Fraiser, 2012-03-01 The Garden District of New Orleans has enthralled residents and visitors alike since it arose in the 1830 s with its stately white columned Greek Revival mansions and double galleried Italianate houses decorated with lacy cast iron Photographer West Freeman evokes the romance of this elegant neighborhood with lovely images of private homes dazzling gardens and public structures Author Jim Fraiser vividly details the historical significance and architectural styles of more than a hundred structures and chronicles both the political and cultural evolution of the neighborhood The Garden District unlike the French Quarter evolved under the auspices of

predominantly Anglo American architects hired by newly arriving and newly wealthy Americans Beyond these wealthy homeowners the Garden District also offers a startlingly diverse and freewheeling history teeming with African American slaves free men and women of color French Italians Germans Jews and Irish all of whom helped fashion it into one of America's first suburbs and most extraordinary neighborhoods Fraiser animates the Garden District's story with such notables as Mark Twain Jefferson Davis occupying Union general Benjamin Butler flamboyant steamboat captain Thomas Leathers crusading Reverend Theodore Clapp Confederate generals Jubal Early and Leonidas Polk jazzmen Joe King Oliver and Nate King Cole champion pugilist John L. Sullivan local authors Grace King George Washington Cable and Anne Rice Mayor Joseph R. E. Rouse architects Henry Howard Lewis Reynolds and Thomas Sully cotton magnate Henry S. Buckner and Louisiana Lottery co-founder John A. Morris In words and photographs Fraiser and Freeman explore the unexpected evolution of this district and reveal how war plagues politics religion cultural conflict and architectural innovation shaped the incomparable Garden District

Southern Comfort S. Frederick Starr, 2005-09-22 *Southern Comfort* details the magnificent architecture and planning of the Garden District of New Orleans Through the histories of the developers owners architects laborers and craftspeople who shaped this district the book creates a picture of the uniquely cosmopolitan city in the American South This book is a valuable contribution to Southern history and to the history of both American architecture and American cities *Southern Comfort* is a landmark piece of scholarship on the area Anne Rice New York Times Book Review There's no part of New Orleans so steeped in architectural history as the Garden District *Southern Comfort: The Garden District of New Orleans* tells the story in words and rich photos Hemispheres

New Orleans Neighborhoods: A Cultural Guide Maggy Baccinelli, 2015 Where you are in New Orleans this simple question can yield hundreds of answers People on the same block might say that they live in Pigeon Town Pension Town or Carrollton but they have surely all danced together at the neighborhood's Easter Sunday second line Did you know that gospel queen Mahalia Jackson grew up singing in a little pink church in the Black Pearl or that Tremé is the oldest African American neighborhood in the country In an exploration that weaves together history culture and resident stories Maggy Baccinelli captures New Orleans neighborhood identities from the Mississippi River to Lake Pontchartrain

The National Trust Guide to New Orleans Roulhac Toledano, 1996-04-23 Toledano New Orleans 144045 The Definitive Guide to the Architectural and Cultural Treasures of One of North America's Most Beloved Cities The National Trust Guide to New Orleans is an indispensable resource for tourists armchair travelers architects and anyone concerned with the preservation of one of the world's most fascinating cities From the cast iron ornamentation in the French Quarter to the stately Greek Revival residences of the Garden District this lavishly illustrated guide takes you on a neighborhood by neighborhood journey through the architectural and cultural treasures of the Big Easy Providing a cross

section of types and styles of architecture for each neighborhood covered the guide pays special attention to architecturally important buildings once inhabited by notable persons. Photographs, drawings, engravings, etchings, maps, and other images created by earlier building watchers show you the sites through the eyes of other generations. You'll find fascinating historical details about the buildings, architects, builders, and residents up to date information on food, lodgings, and entertainment, and discussions of preservation issues that pertain to many of the sites.

Puerto Rican Houses in Sociohistorical Perspective Carol F. Jopling, 1992 This book is the first work to describe the architecture of an entire complex society from the inventive self-built dwellings of the poor to the elegant mansions of the rich. Abundantly illustrated with utilitarian black and white photos and good line drawings. Annotation copyright by Book News Inc. Portland, OR

Greater New Orleans Bridge No. 2, Orleans/Jefferson Parishes, 1978 **Public Spaces, Private Gardens** Lake Douglas, 2011-05-17 Landscape architect Lake Douglas employs written accounts, archival data, historic photographs, lithographs, maps, and city planning documents many of which have never before been published to explore public and private outdoor spaces in New Orleans and those who shaped them. The result offers the first in-depth examination of the city's landscape history. Douglas presents this beautiful and imposing city as a work of art crafted by numerous influences. His survey from the colonial period to the twentieth century finds that geography, climate, and above all the multicultural character of its residents have made New Orleans unique in American landscape design history. French and Spanish settlers, Africans, and Native Americans, as well as immigrants from Germany, Ireland, Italy, and other parts of the world, all participated in creating this community's unique public and private landscapes. Places such as Congo Square, Audubon Park, the river levees, and neutral grounds, local residents' own term for medians together with ordinary residential gardens, are all testaments to the city's international imprint. Douglas identifies five types of public and private designed landscapes in New Orleans: squares, linear open spaces, urban parks, commercial pleasure gardens, and domestic gardens. Discussing their design function and content, he shows how specific examples of each contribute to the city's unique character and also fit within the larger context of American landscape design history. Each type has its own complexion and reflects the influence of those who occupied it. Though New Orleanians lived in strata according to language, cultural identity, economics, and race, they found common ground literally in their community's landscapes. Douglas's sweeping study, illustrated with over 90 color and black and white images, includes an exploration of archival horticultural books, almanacs, and periodicals; information about laborers who actually built landscapes; details of horticultural commerce, services, and marketing materials; and an exhaustive inventory of plants grown in New Orleans for agricultural, medicinal, and ornamental uses. **Public Spaces, Private Gardens** provides an informative look at two hundred years of the designed landscapes and horticulture of New Orleans and a fresh perspective on one of America's most interesting and historic cities.

The National Register of Historic Places, **New Orleans Architecture** Friends of the Cabildo, Roulhac Toledano, Mary Louise Christovich, Betsy Swanson, 1971-01-01 This volume focuses on the

Bayou Road which was lined with the country seats and residences of the city's earliest settlers The publisher *New in New Orleans Architecture* John Klingman, 2012-03-01 The best of contemporary New Orleans architecture From commercial buildings to residential dwellings this pictorial guide compiles descriptions of more than eighty architecture projects from the last fifteen years Establishments include Octavia Books the Ogden Museum of Art and the Cotton Mill **The Magazine Antiques**, 1983-04 **Architecture and Town Planning in Colonial North America** James D. Kornwolf, Georgiana Wallis Kornwolf, 2002 Incorporating more than 3 000 illustrations Kornwolf's work conveys the full range of the colonial encounter with the continent's geography from the high forms of architecture through formal landscape design and town planning From these pages emerge the fine arts of environmental design an understanding of the political and economic events that helped to determine settlement in North America an appreciation of the various architectural and landscape forms that the settlers created and an awareness of the diversity of the continent's geography and its peoples Considering the humblest buildings along with the mansions of the wealthy and powerful public buildings forts and churches Kornwolf captures the true dynamism and diversity of colonial communities their rivalries and frictions their outlooks and attitudes as they extended their hold on the land **Driven from New Orleans** John Arena, 2012 In the early 1980s the tenant leaders of the New Orleans St Thomas public housing development and their activist allies were militant uncompromising defenders of the city's public housing communities Yet ten years later these same leaders became actively involved in a planning effort to privatize and downsize their community an effort that would drastically reduce the number of affordable apartments What happened John Arena a longtime community and labor activist in New Orleans explores this drastic change in *Driven from New Orleans* exposing the social disaster visited on the city's black urban poor long before the natural disaster of Katrina magnified their plight Arena argues that the key to understanding New Orleans's public housing transformation from public to private is the co-optation of grassroots activists into a government and foundation funded nonprofit complex He shows how the nonprofit model created new political allegiances and financial benefits for activists moving them into a strategy of insider negotiations that put the profit making agenda of real estate interests above the material needs of black public housing residents In their turn white developers and the city's black political elite embraced this newfound political realism because it legitimized the regressive policies of removing poor people and massively downsizing public housing all in the guise of creating a new racially integrated mixed income community In tracing how this shift occurred *Driven from New Orleans* reveals the true nature and the true cost of reforms promoted by an alliance of a neoliberal government nonprofits community activists and powerful real estate interests **Capital Problem** Arthur S. Marks, 2013-01-01 Explores the history application and accrued meanings of the attic order in America beginning with Benjamin Henry Latrobe who employed the order The author traces the genealogy of the architectural influence as it passes from Latrobe to his disciples to their disciples Latrobe saw a singular exception a unique design feature that besides having a direct and indisputable association with ancient Greece also offered

Americans an architectural order that might be naturalized that might be made their own The work is extremely fine grained and rich in references especially to 18th and 19th century architectural literature 45 b w plates
