The New Social Order Meredith Atkinson.1919 The Social Gospel and the New Social Order, 1919-1929 William Winners and Losers Stuart Macintyre, 2020-07-29 What is a fair wage Is there a right to work Is Finley McKee, 1961 there a right to shelter or to good health What are the entitlements of those who cannot work Can opportunities be equal For women For Aborigines For more than a century Australians have addressed expectations of social justice to their governments and have had to live with the consequences This book looks at how changing circumstances have generated changing popular aspirations and how these in turn have been translated into public policy It argues that social justice has no single meaning and is in fact the site of conflicting and divergent endeavours Precisely for this reason it has a special relevance for the age of consensus The first part of this book uses these shifting interpretations of social justice as a lodestar to chart a new course through the history of this country. The second part shows how it operates today as a focus of debate in areas ranging from education to Aboriginal land rights The book therefore offers a new perspective on the past and a trenchant analysis of the present It draws together a wide range of material and presents it by means of case studies that assume no specialist knowledge It will appeal to students of Australian history public policy and social welfare and it is addressed to all readers with an interest in the future of their country Gough Whitlam: A Moment In History Jenny Hocking, 2014-06-01 This moment was not his alone nor could it ever have come about without him Gough Whitlam turned to Graham Freudenberg touched him lightly on the shoulder saying It s been a long road Comrade but we re there and walked out to meet the spotlight Acclaimed biographer Jenny Hocking's Gough Whitlam A Moment in History is the first contemporary and definitive biographical study of the former Labor Prime Minister From his childhood in the fledging city of Canberra to his first appearance as Prime Minister playing Neville Chamberlain to his extensive war service in the Pacific and marriage to Margaret the champion swimmer and daughter of Justice Wilfred Dovey the biography draws on previously unseen archival material extensive interviews with family and colleagues and exclusive interviews with Gough Whitlam himself Hocking's narrative skill and scrupulous research reveals an extraordinary and complex man whose life is in every way formed by the remarkable events of previous generations of his family and who would in turn change Australian political and cultural developments in the twentieth century Municipal Reference Library Notes ,1919

Social-Imperialism in Britain Neil Redfern, 2018-09-24 In Social Imperialism in Britain Neil Redfern examines the relationship between British labour and British capital in the two world wars of the twentieth century He argues that the Second World War the so called People s War no less than the First World War was an imperialist war He further argues that in both wars labour and capital entered into a social imperialist contract in which labour would be rewarded for its support for war with such social and political reforms as votes for women and a health service culminating in the welfare state constructed after the Second World War Concentrating on Lancashire he examines the complex interaction between military

successes and reverses elite war aims labour unrest and popular demands for reform The New Social Order Meredith Atkinson, 2018-01-10 Excerpt from The New Social Order A Study of Post War Reconstruction Now that victory has come to the Alliance of Free Nations a new social order becomes possible if the principles for which they fought in the field are translated into the policies of peace About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www forgottenbooks com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Rural and Regional Futures Anthony Hogan, Michelle Young, 2014-09-19 Agriculture mining and related rural industries have been central to the development of Australia s economy This book details the role that the Australian Government has played in the making of rural and regional Australia particularly since World War II The book reviews these policies and evaluates them with regards the commitments undertaken by the Government to contribute towards vibrant rural communities Policy areas addressed include agriculture water education welfare and population natural resource management resource extraction Indigenous and affairs localism rural research and regional innovation Youth Affairs and the devolution of regional governance Overall two distinct policy strategies can be observed one wherein the government saw its role as part of the entrepreneurial state and a sector wherein government has increasingly taken itself out of industry development leaving this role to the market Having considered these strategies and their impacts the book concludes that policy over the past 40 years has not in fact contributed to a more vibrant prosperous rural and regional Australia Rural and Regional Futures concludes with several chapters looking to the future One chapter explores what the role of the state can be within a social market economy while the final chapter gives consideration to the initial steps rural communities will need to take to begin the process of revitalisation While these materials present as a case study of developments in Australia the policy shift from the Government as entrepreneur to a focus on markets is an international one and as such the insights offered by this book will have wide appeal to War Wendy Cuthbertson, 2012 During the Second World War the Congress of Industrial Organizations in Canada grew from a handful of members to more than a quarter million and from political insignificance to a position of influence in the emergence of the welfare state What was it about the good war that brought about this phenomenal growth Labour Goes to War analyzes the organizing strategies of the CIO during the war to show that both cultural and economic forces were at work Labour shortages gave workers greater power in the workplace and increased their militancy But workers patriotism their ties to those on active service and allegiance to the people's war also contributed to the CIO's growth and to what it claimed for workers Drawing on a wealth of archival material Wendy Cuthbertson illuminates this complex wartime context

She also shows how the complex often contradictory motives of workers during this period left the Canadian labour movement with an ambivalent progressive conservative legacy Political Science at the LSE Cheryl Schonhardt-Bailey, Gordon Bannerman, 2021-09-13 This monograph traces the emergence and evolution of the LSE Government Department from 1895 to 2020 focusing on the personalities that guided the development of the Department the social and political contexts the Department existed within its research agenda and course structure and the location of the Department in British politics It also charts the evolution of the discipline of political science in Britain itself The volume is divided chronologically into four chapters each covering roughly similar time periods in the Department's history and focuses on the events that shaped it personalities events and location Key themes are the development of political science in Britain the impact of location on the LSE Government Department the professionalisation of academia in Britain and the microcosm the Department presents of British political life during each time period The conflicts between progressive and conservative forces are a recurring theme which helps link the internal dynamics of the Department with the wider social and political contexts that occurred from the beginning of the School to its 125th anniversary The volume uses detailed archival research particularly in the early chapters as well as over thirty interviews with a range of individuals with unique perspectives on the Department These include current and former faculty and students ranging from academics such as Christopher Hood Anne Phillips and Tony Travers to graduates who have subsequently become politicians such as Anneliese Dodds former UK Shadow Chancellor of the Exchequer and Kennedy Stewart and Michael Fougere both mayors in Canada as well as others with strong links to the Department such as Meghnad Baron Desai and Professors Tim Besley and Nick Barr This monograph offers a wealth of insights on the history of political science not only at the LSE but in British academia more broadly It speaks to a wide historical and social science audience concerned with Fabian and socialist history the history of politics and education and the development of British political science Of course it also offers appeal to more immediate audiences such as prospective and current students alumni and others throughout the wider LSE community As a history of the LSE as well as of the development of British higher education it serves as both a specific case study and a general representative of wider trends within universities during the twentieth and early twentieth first centuries A unique feature of this monograph is that it represents the collective efforts of students from the LSE Government Department including undergraduate MSc and PhD who worked under the leadership of Professor Cheryl Schonhardt Bailey Head of Government Department and Dr Gordon Bannerman British Historian This collaboration has enabled a rich array of perspectives on the history of the Department but has also brought the monograph to life with personal ties to the Department itself The Mass Observers James Hinton, 2013-03-14 This is the first full scale history of Mass Observation the independent social research organisation which between 1937 and 1949 set out to document the attitudes opinions and every day lives of the British people Through a combination of anthropological fieldwork opinion surveys and written testimony solicited from hundreds of volunteers Mass

Observation created a huge archive of popular life during a tumultuous decade which remains central to British national identity The social history of these years has been immeasurably enriched by the archive and extracts from the writings of M O s volunteers have won a wide and admiring audience Now James Hinton whose acclaimed Nine Wartime Lives demonstrated how the intensely personal writing of some of M O s volunteers could be used to shed light on broader historical issues has written a wonderfully vivid and evocative account which does justice not only to the two founders whose tempestuous relationship dominated the early years of Mass Observation but also to the dozens of creative and imaginative and until now largely unknown young enthusiasts whose work helped to keep the show on the road The history of the organisation itself the staff the research methods the struggle for funding M O s characteristic voice and its role in the cultural and political life of the period are themselves as interesting as any of the themes that the founders set out to document This long awaited and deeply researched history corrects and revises much of our existing knowledge of Mass Observation opens up new and important perspectives on the organisation and will be seen as the authoritative account for years to come *Municipal Reference Library Notes* New York Public Library. Modern Economic History with Special Reference to Australia Herbert Heaton, 1922 A Decent Provision John Murphy, 2016-03-16 A Decent Provision is a narrative history of how and why Australia built a distinctive welfare regime in the period from the 1870s to 1949 At the beginning of this period the Australian colonies were belligerently insisting they must not have a Poor Law yet had reproduced many of the systems of charitable provision in Britain By the start of the twentieth century a combination of extended suffrage basic wage regulation and the aged pension had led to a reputation as a social laboratory And yet half a century later Australia was a welfare laggard and the Labor Party s welfare state of the mid 1940s was a relatively modest and parsimonious construction Models of welfare based on social insurance had been vigorously rejected and the Australian system continued on a path of highly residual targeted welfare payments The book explains this curious and halting trajectory showing how choices made in earlier decades constrained what could be done and what could be imagined Based on extensive new research from a variety of primary sources it makes a significant contribution to general historical debates as well as to the field of comparative social policy 'Now is the Psychological Moment' Stephen Wilks, 2020-10-12 Earle Christmas Grafton Page 1880 1961 surgeon Country Party leader treasurer and prime minister was perhaps the most extraordinary visionary to hold high public office in twentieth century Australia Over decades he made determined efforts to seize the psychological moment and thereby realise his vision of a decentralised regionalised and rationally ordered nation Page s unique dreaming of a very different Australia encompassed new states hydroelectricity economic planning cooperative federalism and rural universities His story casts light on the wider place in history of visions of national development He was Australia s most important advocate of developmentalism the important yet little studied stream of thought that assumes that governments can lead the nation to realise its economic potential His

audacious synthesis of ideas delineated and stretched the Australian political imagination Page's rich career confirms that Australia has long inspired popular ideals of national development but also suggests that their practical implementation was increasingly challenged during the twentieth century Effervescent intelligent and somewhat eccentric Page was one of Australia s great optimists Few Australian leaders who stood for so much have since been so neglected Psychoanalysis, inner security and the social order Steven Groarke, 2013-10-30 An inherent tension exists in the history of psychoanalysis and its applications between the concepts of freedom and security In Managed Lives this tension is explored from the point of view of the rapeutic experience Set against the background of Freud's contested legacy the book examines ways of managing oneself under psychiatric supervision in the analytic encounter and in the emotional and moral contexts of everyday life Through a series of detailed case studies Steven Groarke addresses therapeutic experience as a formation of managed society examining the work of Donald Winnicott on types of management Colin Murray Parkes on bereavement and Anthony Giddens on the sociological appropriation of psychoanalysis Managed Lives forms an original critical analysis of contemporary managerial culture and its self reflexive project as well as presenting the idea of management as a source of inner security and vital morality Presented in three parts the book addresses The Criterion of Maturity The Reflexive Norm The Managed Society Together the book's arguments provide a fresh and challenging perspective on post Freudian uses of faith the risks of critical rationality and the difficulties of living an ethical life under modern conditions Managed Lives is ideal for academics and research students working on psychoanalytic studies social theory and mental health studies as well as students and trainees taking courses in psychotherapy counselling social work and health and social care Notes -Municipal Reference and Research Center Municipal Reference and Research Center (New York, N.Y.),1919 Making of the Australian National University, 1946-1996 Stephen Glynn Foster, Margaret M. Varghese, 2009-08-01 First published 1996 This edition with new introduction published July 2009 The Australian National University has always been a university with a difference Conceived in the mid 1940s to serve Australia s post war needs for advanced research and postgraduate training it quickly embraced the ideals and traditions of Oxford and Cambridge Undergraduate teaching was introduced in 1960 following amalgamation with Canberra University College The University continued to adapt to changes in Australian society while retaining much of its unique structure and objectives Stephen Foster and Margaret Varghese trace the ANU s history from its wartime origins to its fiftieth anniversary in 1996 featuring many of the prominent Australians who contributed to its making Nugget Coombs Howard Florey Mark Oliphant W K Hancock Douglas Copland John Crawford Peter Karmel and others who stood out in particular fields such as J C Eccles Arthur Birch Manning Clark Russell Mathews Ernest Titterton Beryl Rawson John Mulvaney John Passmore and Frank Fenner The Making of The Australian National University explores many themes in higher education during the last half century including academic freedom relations between universities and politicians recruitment practices the two cultures of science and the humanities

collegial versus managerial structures equality of opportunity student politics academics and architecture and universities in the marketplace This is an affectionate and critical account of a remarkable Australian institution and more broadly a fascinating study of how institutions work Struggling for a Social Europe Andy Mathers, 2016-04-01 Protests at summit meetings have inspired intense debate over the nature and significance of the anti globalization or anti capitalist movement However the European dimension of this movement is still largely unknown In this insightful book Andy Mathers addresses this deficit by focusing on events that have marked the birth of a European social movement He relates the development of the movement to key matters such as economic employment and welfare state restructuring along neoliberal lines He also challenges ideas about the nature of contemporary collective action and the character of present day social movements Mathers discusses the significance of the movement and its future development through a critical engagement with the work of major writers in European sociology and of academics influential in the wider global movement such as Pierre Bourdieu A postscript brings readers fully up to date with developments in the type of social Europe propagated by the institutions of the EU as well as in the maturation of a social movement to oppose it Nationalism and the State Nicola McEwen, 2006 Since the mid 1970s many developed states have reduced the size and scope of their welfare systems At the same time states have faced growing demands for self government from national minorities These twin processes have had a substantial impact upon the structure power and legitimacy of the state yet few have considered their inter relationship This book aims to fill this gap by conducting a focused comparison of nationalism and welfare development in Scotland and Quebec The recent emergence of Scottish and Qu b cois nationalism took place against a backdrop of welfare retrenchment Did the post war welfare state contain these territorial identities and strengthen attachment to the state among Scots and Quebecers Did the retrenchment of state welfare lead to demands for greater self government Demands for Scottish self government led to the creation of the Scottish Parliament and the devolution of power over wide areas of social policy. The book examines the complexities of welfare development in multi level states drawing upon the Quebec Canada experience to explore the relationship between nationalism and welfare development in post devolution Scotland
