Designing Retail

Experience in the 21st Century D.J. Huppertz, 2025-04-03 Covering 2001 to today Designing Retail Experience in the 21st Century presents readers with a critical cross disciplinary perspective on retail design bringing together scholarship from design architecture branding cultural studies and social studies Our retail experience has changed profoundly over the past two decades largely due to the impact of digital technologies While the rise of smartphones and online commerce threatened to displace bricks and mortar stores physical shopping has survived and in some cases thrived Today the most successful brands design experiences that engage customers both within the physical store and in the digital realm In this book D J Huppertz analyses how corporations design these experiences how we interact with them and how they align with broader social cultural and economic changes Eight case studies reveal how some of the largest global retail chains including Apple Amazon Nike Zara IKEA and LEGO and smaller chains such as Aesop and Gentle Monster utilize design to create engaging experiences Unlike in the past such corporations consider design in a continuum that extends from architecture and interiors

to product and service design and from website and digital interactions to social media At the intersection of design and cultural studies this book provides a critical survey and understanding of design and retail experience in the 21st century

The Last Days of the Schooner America David Gendell, 2024-08-06 2025 BREWINGTON BOOK PRIZE WINNER The schooner America was a technological marvel and a child star In the summer of 1851 just weeks after her launching at New York she crossed the Atlantic and sailed to an upset victory against a fleet of champions The silver cup she won that day is still coveted by sportsmen Almost immediately after that famous victory she began a decades long run of adventure neglect rehabilitations and hard sailing always surrounded by colorful passionate personalities America ran and enforced wartime blockades She carried spies across the ocean And she was on the scene as yachtsmen and business titans spent freely and competed fiercely for the cup she first won By the early twentieth century she was in desperate need of a thorough refit The old thoroughbred floated in brackish water at the United States Naval Academy stripped of her sails and rotting in the sun Refitting America would be a massive project expensive and potentially distracting for a nation struggling to emerge from the Great Depression and preparing for a world war But the project had a powerful sponsor On a windy evening in December 1940 the eighty nine year old America was hauled groaning and complaining up a marine railway at Annapolis the first physical step in a rehabilitation rumored to have been set in motion by President Franklin Roosevelt himself The haul out brought the famous schooner into the heart of the Annapolis Yacht Yard a privately owned company with a staff capable of completing such a project but with leadership determined to convert their facility into a modern warship production plant on behalf of the United States and its allies The Last Days of the Schooner America traces the history of the famous vessel from her design build and early racing career through her lesser known Civil War service and

the never before told story of her final days and moments on the ground at Annapolis The schooner s story is set against a vivid picture of the entrepreneurial forces behind the fast focused rise of the Annapolis Yacht Yard as the United States prepares for and enters World War II As wooden warships are built around her America waits for a rehabilitation that would never happen To bring this unique story to life Annapolis sailor David Gendell delves into archival sources and oral histories and interviews some of the last living people who saw America at the Annapolis Yacht Yard **New York 2015-2016**
