Bias in the Booth Dylan Gwinn, 2015-03-02 Most of us see sports as a welcome even blessed relief from the challenges and frustrations of everyday life We want to sit back open a beer and enjoy the game But many of those who bring us the game have a different agenda they use their broadcasting platform to harangue us with their own politically correct preoccupations If a seventh round NFL draft pick who can t make the team or an over the hill basketball player declares that he s gay he gets wall to wall media coverage and is hailed as a hero If a stripper accuses college lacrosse players of rape liberal sports reporters lead the lynch mob with no apologies when the bearers of white privilege are proved innocent In his blistering new book *Bias in the Booth* sports reporter and commentator Dylan Gwinn takes you inside the sports media spin machine to reveal what they hope you won t notice the sports media are no different from the news and entertainment media

Triumphant wins gut wrenching losses last second shots underdogs competition and loyalty it's fun to be a fan But when a football player takes a hit to the head after yet another study has warned of the dangers of CTE or when a team whose mascot was born in an era of racism and bigotry takes the field or when a relief pitcher accused of domestic violence saves the game how is one to cheer Welcome to the club for sports fans who care too much In *Loving Sports When They Don't Love You Back* acclaimed sports writers Jessica Luther and Kavitha A Davidson tackle the most pressing issues in sports why they matter and how we can do better For the authors sticking to sports is not an option not when our taxes are paying for the stadiums and college athletes aren't getting paid at all But simply quitting a favorite team won't change corrupt and deplorable practices and the root causes of many of these problems are endemic in our wider society An essential read for modern fans *Loving Sports When They Don't Love You Back* challenges the status quo and explores how we might begin to reconcile our conscience with our fandom *From Slaveships to Scholarships* Charles Pinkney, 2017-06-26 In an era when black athletes are commonly compared to the African slaves Dr Pinckney attempts to draw a connection to William Rhoden's *Forty Million Dollar Slaves* and Harry Edwards' earlier work about the black athletes integration and segregation issues Furthermore this book is an attempt to chronicle the past and current history of blacks in sports This book reads like a hybrid book part history part sociology and part current issues Dr Pinckney captures the rise and slow decline of segregation in college and professional athletics Dr Pinckney examines how social and political forces imposed policies of racism and explains the social forces that eventually forced blacks and historical black colleges and universities to accept second class segregated competition By some accounts five hundred years ago our African ancestors were running from the slave catcher

and slave ships to avoid slavery however today the descendants of slaves are still running In fact they are running jumping shooting baskets and catching odd shaped balls for their masters Sporting events such as track and field football and basketball are mainly dominated by blacks On any given Saturday afternoon at majority white institutions the black athlete can be found entertaining not only their immediate white master but their white masters in terms of the disproportionate number of white fans including faculty staff and college administrators This in itself has predated far too many black athletes to slavery and the conditions of modern day slavery at the hand of athletics Truly sports in America today as we know it has psychologically damaged the black athlete
