the Coming Genetic Apocalypse Vol.2 Billy Crone,2020-04-09 What if I were to tell you that virtually every plant species known to mankind is on the verge of going out of existence Then what if I were to inform you that all the animals on planet earth as we know them today are being genetically altered in ways that will have dreadful irreversible side effects This book Vol 2 seeks to equip you the reader with the hardcore scientific evidence and Biblical warnings from God concerning this modern day annihilation of virtually all life forms on the planet Back cover *'The Real Scriptures' of God* James Platter,2012-08-14 Inside the covers of this book you will find the Real Scriptures of the Christian churches Many church leaders know that other Christian churches hold to these books but they are only willing to state what they have been brain washed to believe that is about the other inferior books It isnt in the canon of scripture formed of course by the early Catholic Church at various stages and Councils from the fourth century A D therefore no one has the right to change what is in the canon of scripture and the Catholic Church changed it in their councils not in agreement of other Christians but to hide their offence at the words of God They would not even imagine that different churches have different scriptures and assume that the correct canon of scripture must be the one first declared by the Catholic Church and its priests but other priests must be considered demented or apostate but they are not affected by the changes they made to the canon of Scripture over many centuries They will not consider the canons of Orthodox Churches or others because they vary in different regions of the world So is European Christianity based in the Vatican City right about all its holy scriptures while everyone elses church scriptures are false scriptures Ethiopia it seems got most books of scripture right even with their translation into an ancient language **You and I** ,1887 **Technology and the Doctor-Patient Relationship** D.C. Lozar, M.D.,2019-08-16 Medicine is an ancient profession that advances as each generation of practitioners passes it down It remains a distinguished flawed and rewarding vocation but it may be coming to an end as we know it Computer algorithms promise patients better access safer therapies and more predictable outcomes Technology reduces costs helps design more effective and personalized treatments and diminishes fraud and waste Balanced against these developments is the risk that medical professionals will forget that their primary responsibility is to their patients not to a template of care Written for anyone who has considered a career in health care and for any patient who has had an office visit where a provider spent more time with data entry than with them this book weighs the benefits of emerging technologies against the limitations of traditional systems to envision a future where both doctors and patients are better informed consumers of health care tools

Christian Advocate ,1919 **A Call to Stand** Georgette Loschiavo,2009-10 Americans have been weathering this storm but a sequel is inevitable A nightmarish storm is hovering over Us right now and the dark clouds are threatening almost every aspect of Our lives In the wake of every crisis there comes a moment when a lightening bolt of truth hits The sting goes deep and anger arises when Our pretentious picture of Ourselves is disturbed but the pain of facing past mistakes will be worth it if it wakes Us up to remember Who We are We must learn what it takes to be good stewards of the legacy left

to Us We are facing a tempestuous point in time but built into every storm is the chance to learn and grow We have to know Who We are and what is required to keep the dream alive Change must come but We must be the change The evolution of both democracy and Humankind requires education and cooperation Nothing more and nothing less The next step is a matter of choice Our choice It is time to learn from history and answer the call to take a stand
