If This Goes Wrong . . . Hank Davis, 2017-01-03 WHAT COULD GO WRONG Progress It's wonderful though it sometimes has unexpected and undesirable side effects Read the long warning list of possible side effects on a medicine bottle's label sometime the part in really tiny print But surely the benefits of modern technology outweigh the drawbacks Until they don't Remember how increasingly deadly weapons from the machine gun to the H bomb were supposed to make war too horrific to even be contemplated Didn't happen The cell phone has made it possible to phone from almost anywhere too bad if you wanted to be out of reach And civilization is so big and complicated that a breakdown of any part can have disastrous consequences Modern transportation makes it possible to get anywhere in a hurry though traffic jams and overextended airports may slow the hurry part to a crawl And it also can ensure that a new disease can go all over the planet in a few days Then there's the sheer complexity of society itself from interminable waits at the DMV to trying to get tech help on the phone Your call is important to us And that's just the present day What new technologies new ways of organizing or disorganizing society new confused and confusing government bureaucracies new ways for small disgruntled groups to wreak havoc and worse will the future bring Will privacy keep eroding Could computers and robots take over Maybe they wouldn't want to And if the pace of modern life is driving you batty just wait to see what's on the horizon Exploring such scary yet fascinating possibilities are such masters of science fiction as Robert A Heinlein Sarah A Hoyt Fritz Leiber Gordon R Dickson Lester del Rey Christopher Anvil Fredric Brown and more writers who have seen the future and it may not work At the publisher's request this title is sold without DRM Digital Rights Management Praise for previous anthologies edited by Hank Davis In Space No One Can Hear You Scream the 13 tales in this collection blend SF with horror to demonstrate the resiliency of both genres offers strong tales by the genre's best storytellers Library Journal first rate science fiction demonstrating how short stories can still entertain

As Time Goes By As Time Goes By does an excellent job of exploring not only romance through time travel relationships enabled or imperiled by voyaging through time but the intrinsic romance of time travel itself The range of styles and approaches is as wide as the authors sensibilities and periods might suggest full of entertaining and poignant stories Alvaro Zinos Amaro IntergalacticMedicineShow com

Robert Asprin's excellent lighthearted fantasy series Epic Illustrated continues with more antics from magician Skeeve and his eclectic team at M Y T H Inc. Business is slow for M Y T H Inc and its president Bunny is getting nervous that the company might not meet its quarterly goal. So when a job comes in that's worth an absurd amount of gold and also happens to take them to Winslow, the most luxurious vacation resort in any dimension, the team jumps at the opportunity to recoup some cash and maybe catch some R R. Only magician Skeeve has an unsettling feeling that this mission might be trickier than it seems. Someone in Winslow is messing with the magic lines and working hard to ensure that the M Y T H crew gets nowhere near the powerful relic that they've been hired to find. And as the mysterious manipulation turns deadly, Skeeve, Bunny, Aahz, and the rest of their partners find themselves in a race not only to finish the job but also to escape paradise alive. About Larry Correia and the Monster Hunter International series: Everything I like in fantasy—intense action scenes, evil in a horrifying array, good struggling against the darkness, and most of all, people gorgeously flawed human beings faced with horrible moral choices that force them to question and change and grow. Jim Butcher: A no-holds-barred all-out page-turner that is part science fiction, part horror, and an absolute blast to read. Bookreporter.com: If you love monsters and action, you'll love this book. If you love guns, you'll love this book. If you love fantasy and especially horror fantasy, you'll love this book. Knotclan.com: A gun person who likes science fiction or heck, anyone who likes science fiction will enjoy these books. The plotting is excellent, and Correia makes you care about the characters. I read both books without putting them down, except for work, so whaddya wait? In for Go and buy some for yourself and for stocking stuffers.

Massad Ayoob: This lighthearted, testosterone-soaked sequel to 2009's [Monster Hunter International](#) will delight fans of action horror with elaborate weaponry, hand-to-hand combat, disgusting monsters, and an endless stream of blood and body parts.
