Nice Governance Partnership Management Coalitions Federation:

Strategic Communication Management for Development and Social Change Tsietsi Mmutle, Tshepang Bright Molale, Olanrewaju Olugbenga Akinola, Olebogeng Selebi, 2023-12-13 This book is the first of its kind within the African region to combine scholarly perspectives from the fields of Strategic Communication Management and Communication for Development and Social Change It draws insights from scholars across the African continent by unravelling the complementary nature of scholarship between the two fields through the lens of prevailing governance and sustainability challenges facing African countries today This edited volume covers issues that have adversely affected the achievement of goals related to humanitarian upliftment development and social change for all African nations Consequently citizen participation which lies at the heart of these challenges when considering the question of sustainable governance and policy development for social change in an African context is addressed To this end a reflection is also made on various case studies that exist where local citizens do not inform sustainable development programmes while the promotion of bottom up development and social change is largely replaced by top down instrumental action approaches and hemispheric communication instead of strategic communication Themes explored include Communication for social change bottom up development and social movements in the local government sphere Strategic communication in governance planning and policy reforms The role of multi stakeholder partnerships in achieving development of objectives geared towards good governance in Africa Public participation protests and resistance from below Public sector health communications and development Media relations accountability and contested development narratives with the Fourth Estate Social media and eParticipation in government development programs *Budgeting and Financial Management in the Federal Government* Jerry L. McCaffery, Lawrence R. Jones, 2002-02-01 Mission Statement The mission of the book series is to be consistent with the mission statement of the International Public Management Network IPMN that will sponsor the series The mission of IPMN and the book series is to provide a forum for sharing ideas concepts and results of research and practice in the field of public management and to stimulate critical thinking about alternative approaches to problem solving and decision making in the public sector The book series editors will seek to facilitate exchange and cooperative work among scholars interested in transformational change in the public sector in individual nations and around the world Our intent will be to create and sustain a dialogue on emerging management concepts methods and technology so that readers can learn about innovation and change in public sector organizations throughout the world IPMN presently includes members representing 70 different countries approximately 600 representatives from these nations As such we have a solid base of subscription support for the book series within IPMN For more information on IPMN see the website at <http://www.willamette.org/ipmn/about.html> In addition we want the series to appeal to members of the Public Sector section of the Academy of Management and to the members of the Association for Public Policy Analysis and Management Both editors belong to and participate actively in

AOM and APPAM Delivering Social Welfare Derek Birrell, Ann Marie Gray, 2016-12-14 As the system of governance and delivery of social welfare in the UK radically changes this important new book argues that the extent of this change is such that it could be considered a fundamental transformation or even a revolution It shows how a new public governance perspective has replaced the dominance of new public management reflecting the increasingly plural and fragmented nature of public policy implementation Drawing on examples across a range of policy areas it assesses how changes in social policy and governance interact in the delivery of the main areas of social policy and social welfare The book will be essential reading for researches students and policy makers *Local Disaster Resilience* Ashley D. Ross, 2013-11-12 Since 2000 the Gulf Coast states Texas Louisiana Mississippi Alabama and Florida have experienced a series of hurricanes multiple floods and severe storms and one oil spill These disasters have not only been numerous but also devastating Response to and recovery from these unprecedented disasters has been fraught with missteps in management In efforts to avoid similar failures in the future government agencies and policy practitioners have looked to recast emergency management and community resilience has emerged as a way for to better prevent manage and recover from these disasters How is disaster resilience perceived by local government officials and translated into their disaster response and recovery efforts Ashley D Ross systematically explores and measures disaster resilience across the Gulf Coast to gain a better understanding of how resilience in concept is translated into disaster management practices particularly on the local government level In doing so she presents disaster resilience theory to the Gulf Coast using existing data to create county level baseline indicators of Gulf Coast disaster resilience and an original survey of county emergency managers and elected municipal officials in 60 counties and 120 municipalities across the Gulf States The findings of the original survey measure the disaster resilience perceptions held by local government officials which are examined to identify commonalities and differences across the set of cases Additional analyses compare these perceptions to objective baseline indicators of disaster resilience to assess how perceptions align with resilience realities *Local Disaster Resilience* not only fills a critical gap in the literature by applying existing theories and models to a region that has experienced the worst disasters the United States has faced in the past decade but it can also be used as a tool to advance our knowledge of disasters in an interdisciplinary manner **The Federal Labor-management and Employee Relations Consultant**, 1995 **Researcher-Policymaker Partnerships** Jenni W. Owen, Anita M. Larson, 2017-03-31 Gone are the days when researchers policymakers and practitioners each worked in isolation In recent years a few interrelated issues have emphasized the need for greater collaboration among these groups the increased emphasis on results and accountability particularly where public funds are at stake the need to improve services and the growing use of technology This book is about these all important partnerships specifically the relationships between those searching for evidence and those putting evidence to use designing and implementing policy at the federal state or local level Yet the science or art of how to create partnerships and how to make them work has just begun This book

offers the reader a toolkit for effective researcher policymaker collaborations by exploring innovations underway around the country and developing an analytic framework to describe the process It asks questions such as What can we learn from these examples How can and should partners communicate Where should partners plan together and where is it best to leave some separation to respect the differences in our roles Through carefully chosen and organized case studies this book demonstrates the motivations that lead to partnerships the core elements of successful implementation and the lessons to be learned about sustaining these relationships It further examines the use of research once the research phase has concluded as well as the ever important consideration of investing in collaboration by both non profit and public sector funders For policymakers this book offers a greater appreciation of the role of research in the policy process and new insights into different types of research For researchers the book provides insights into how best to formulate questions how to work closely with those most affected and how to communicate findings in ways that can be more easily understood by those who are depending on clear answers Students of public policy public administration social work and education will find much to inform future roles in research policy or practice The Budget of the United States Government United States,2001
