Nice Match Century Marrying Duke:

Imperial Ladies of the Ottonian Dynasty Phyllis G. Jestice, 2018-04-12 In tenth century Europe and particularly in Germany imperial women were able to wield power in ways that were scarcely imaginable in earlier centuries Theophanu and Adelheid were two of the most influential figures in the Ottonian reich along with their husbands who relied heavily on their support Phyllis G Jestice examines an array of factors that produced their power and prestige including societal attitudes toward women their wealth their unction as queens and their carefully constructed image of piety Due to their influential positions Theophanu and Adelheid reclaimed control of the young Otto III despite fierce opposition from Henry the Quarrelsome during the throne struggle of 984 In examining how they successfully secured the regency this book confronts the outmoded notion of exceptionalism and illuminates the lives of powerful Ottonian women **Mad, Bad and Dangerous**

to Know Karl Shaw, 2017-04-13 The alarming history of the British and European aristocracy from Argyll to Wellington and from Byron to Tolstoy stories of madness murder misery greed and profligacy From Regency playhouses to which young noblemen would go simply in order to insult someone to provoke a duel that might further their reputation to the fashionable gambling clubs or hells which were springing up around St James s in the mid eighteenth century the often bizarre doings of aristocrats An eighteenth century English gentleman was required to have what was known as bottom a shipping metaphor that referred to stability Taking part in a duel was a bold statement that you had bottom William Petty 2nd Earl of Shelburne certainly had bottom if not a complete set of gonads following his duel with Colonel Fullarton MP for Plympton Both men missed with their first shots but the colonel fired again and shot off Shelborne s right testicle Despite being hit Shelborne deliberately discharged his second shot in the air When asked how he was the injured Earl coolly observed his wound and said I don t think Lady Shelborne will be the worse for it The cast of characters includes imperious hard drinking and highly volatile Danish astronomer Tycho Brahe who is remembered today as much for his brilliant scientific career as his talent for getting involved in bizarre mishaps such as his death as a result of his burst bladder the Marquess of Queensberry a side whiskered psychopath who on a luxury steamboat in Brazil in a row with a fellow passenger over the difference between emus and ostriches and knocked him out cold and Thomas 2nd Baron Lyttelton a Georgian rake straight out of central casting who ran up enormous gambling debts fought duels frequented brothels and succumbed to drug and alcohol addiction Often such rakes would be swiftly packed off on a Grand Tour in the hope that travel would bring about maturity It seldom did **England's Queens** Elizabeth Norton, 2011-06-15 Her story not his the English monarchy through the private and public lives of the queens of England

The Three Richards Nigel Saul, 2006-06-12 The three Richards who ruled England in the Middle Ages were among the most controversial and celebrated of its rulers Richard I Coeur de Lion 1189 99 was a great crusading hero Richard II 1377 99 was an authoritarian aesthete deposed by his cousin Henry IV and murdered while Richard III 1483 85 as the murderer of his nephews The Princes in the Tower was the most notorious villain in English

history This highly readable joint biography shows how much the three kings had in common apart from their names All were younger sons of monarchs not expected to come to the throne all failed to leave a legitimate heir causing instability on their deaths all were cultured and pious and all died violently All have attracted accusations but also fascination In comparing them Nigel Saul tells three gripping stories and shows what it took to be a medieval king *Illegitimacy, Family, and Stigma in England, 1660-1834* Kate Gibson,2022 Illegitimacy Family and Stigma is the first full length exploration of what it was like to be illegitimate in eighteenth century England telling stories of individuals across the socio economic scale This vivid investigation of the meaning of illegitimacy gets to the heart of powerful inequalities in families communities and the state

The Legend of Good Women Carolyn P. Collette,2006 Essays re examining the Legend of Good Women placing it in its cultural and historical context *The Forgotten Battle of 1066: Fulford* Charles Jones,2007-07-01 This is a history of the forgotten third battle of 1066 the battlefield which until now remained undiscovered Three weeks and three days before the epic clash at Hastings in 1066 between Harold II and William of Normandy a battle of the same size and scale took place just south of York at Fulford Harald Hardrada king of Norway in alliance with Tostig Harold II s brother invaded with 300 ships sailing up the Ouse just south of York Edwin and Morcar Harold s brothers in law and earls of Mercia and Northumbria gave battle at Fulford This site has been forgotten and largely undisturbed for almost a thousand years Charles Jones book investigates the complex events that forced King Harold II of England to divide his army in order to defend his new kingdom from the invasions he expected in the north and the south **DICTIONARY OF NATIONAL BIOGRAPHY** ,1889

Children of the House of Cleves Heather R. Darsie,2023-06-15 The first book to look at the lives of Anna of Cleves siblings particularly her powerful brother Wilhelm V and her elder sister Sybilla and their interactions with the Holy Roman Empire England and France which had a significant impact on the Reformation *Henry VIII and the Plantagenet Poles* Adam Pennington,2024-11-24 Reveals how King Henry VIII targeted his royal cousins the Pole family fearing their stronger claims to the throne The story of King Henry VIII a man who married six times only to execute two of those wives is part of Great Britain s national and international identity Each year millions of people walk around the Tower of London Hampton Court Palace and Hever Castle plus many other historical sites taking in and hoping to glean some sense of the man and the myth and yet there is a period from Henry VIII s life which remains largely overlooked a period in which he chose not to execute wives servants or ministers but instead turned on another group entirely his own family Like practically all members of the nobility of the time Henry VIII descended from King Edward III which ensured a ready made crop of royal cousins were in abundance at his court and awkwardly for the king these cousins often possessed much greater claims to the throne than he did The house of Tudor was one which should never have been let alone taken the throne Upstarts in every sense of the word their ancestry while almost noble was by no means as grand as many a family in England and it is against this backdrop that this book was created The Pole family the subjects of the story were royalty in secret Lady Margaret Pole Countess of

Salisbury the family matriarch was a niece of King Edward IV and Richard III making her a first cousin of Elizabeth of York the first Tudor queen consort and thus a first cousin once removed of Henry VIII Margaret Pole was therefore one of the most senior members of the nobility at the Tudor court and through her her sons her daughter and her grandchildren possessed a dangerous name and dangerous bloodline which put them on a collision course with the most volatile man ever to sit the throne of England They were the old guard the house of Plantagenet the greatest ruling dynasty in English history the true royal family and this coupled with the monumental shifts which England underwent during the reign of Henry VIII all but ensured their destruction For centuries their story has been overlooked or at best fleetingly covered but when one digs deep a story as audacious and juicy as it s possible to be soon emerges *The Woodvilles* Susan

Higginbotham,2013-10-01 In 1464 the most eligible bachelor in England Edward IV stunned the nation by revealing his secret marriage to Elizabeth Woodville a beautiful impoverished widow whose father and brother Edward himself had once ridiculed as upstarts Edward s controversial match brought his queen s large family to court and into the thick of the Wars of the Roses This is the story of the family whose fates would be inextricably intertwined with the fall of the Plantagenets and the rise of the Tudors Richard the squire whose marriage to a duchess would one day cost him his head Jacquetta mother to the queen and accused witch Elizabeth the commoner whose royal destiny would cost her three of her sons Anthony the scholar and jousting knight who was one of Richard III s first victims and Edward whose military exploits would win him the admiration of Ferdinand and Isabella *Dynasty* John Macleod,2001-04-20 Offers an irreverent take on the royal family that

united Great Britain chronicling the trials and triumphs of a dynasty that oversaw the rise of English Protestantism and the evolution of modern British democracy *Mistress of the Monarchy* Alison Weir,2010-01-05 Acclaimed author Alison Weir brings to life the extraordinary tale of Katherine Swynford a royal mistress who became one of the most crucial figures in the history of Great Britain Born in the mid fourteenth century Katherine de Ro t was only twelve when she married Hugh Swynford an impoverished knight But her story had truly begun two years earlier when she was appointed governess to the household of John of Gaunt Duke of Lancaster and fourth son of King Edward III Widowed at twenty one Katherine became John s mistress and then after many twists of fortune his bride in a scandalous marriage *Mistress of the Monarchy* reveals a woman ahead of her time making her own choices flouting convention and taking control of her own destiny Indeed without Katherine Swynford the course of English history perhaps even the world would have been very different **Women, Rank,**

and Marriage in the British Aristocracy, 1485-2000 K. Schutte,2014-05-15 Through an analysis of the marriage patterns of thousands of aristocratic women as well as an examination of diaries letters and memoirs this book demonstrates that the sense of rank identity as manifested in these women s marriages remained remarkably stable for centuries until it was finally shattered by the First World War *Farnese* Helge Gamrath,2007 **The Pursuit of the Heiress** A. P. W.

Malcomson,2006 *The Pursuit of the Heiress* is a new greatly enlarged and more widely focused version of what the late

Lawrence Stone described as a brilliant long essay or short book on the subject of the role of heiresses among the Irish aristocracy which was published by the Ulster Historical Foundation under the same title in 1982 and has long been out of print The new book comes to the same broad conclusions about heiresses namely that their importance as a means of enlarging the estates or retrieving the fortunes of their husbands has been much exaggerated This was because known heiresses were well protected by a variety of legal devices and in common with many aristocratic women of the day also had minds and strong preferences of their own which meant that they were not generally an object of deliberate or profitable pursuit The new book also ranges more widely than its central theme of heiresses and addresses other aspects of aristocratic marriage such as abductions elopements mesalliances the supposed rise of the affective family and the disadvantaged situation of even the richest and most privileged women in an age when both adultery and divorce were largely the prerogative of men

Sisters of Fortune Jehanne Wake, 2012-02-28 The first American heiresses took Britain by storm in 1816 two generations before the great late Victorian beauties Marianne Louisa Emily and Bess Caton were descended from the first settlers in Maryland and brought up in Baltimore by their grandfather Charles Carroll one of the Signers of the Declaration of Independence

The Town and Country Magazine, Or Universal Repository of Knowledge, Instruction, and Entertainment, 1789

The Artillery of the Dukes of Burgundy, 1363-1477 Robert Douglas Smith, Kelly DeVries, 2005 A major new exploration of the history and development of gunpowder weapons in the 15th century based on the artillery of the Dukes of Burgundy The four Valois Dukes of Burgundy created in little more than a century a fabulously wealthy and independent state Their centralised control and chancellery have bequeathed to us a vast treasure trove of documents including accounts and inventories of the Masters of the artillery under the later Dukes Although many of these were extracted and transcribed in the late nineteenth century modern historians have largely ignored their unprecedented insights into fifteenth century guns and their use When Charles the Bold the last Valois Duke took on the combined Swiss confederate forces in 1476 he lost not just the battles and his personal fortune but much of his artillery train as well Of the dozens of cannons captured at least 25 pieces survive in Swiss museums The documents that survive from the Valois state give us almost for the first time in medieval Europe the ability to see the course of history in a period when Europe was undergoing some of the most profound changes before the 20th century The Artillery of the Dukes of Burgundy is the first attempt to combine all these sources bringing new and fresh insights into the development and use of artillery in the fifteenth century Moreover this is the first modern study of medieval cannon one of the most important discoveries of the post classical world KELLY DeVRIES has authored numerous books and articles on medieval warfare ROBERT DOUGLAS SMITH formerly Head of Conservation in the Royal Armouries Tower of London is an acknowledged expert on medieval artillery This study is the first major fruit of their combined researches
