New Racism Revisiting Researcher Accountabilities:

New Racism Norma Romm, 2010-07-08 This book develops a debate around responsible social inquiry into new racism A variety of ways of researching new forms of racism for example aversive modern cultural purportedly color blind and new racism are addressed Experiments that have been undertaken to inquire into group identity and people s implicit bias in relation to those perceived as other are critically explored and their potential consequences reconsidered The book also critically explores survey research which it is argued can serve to reinforce the notion of the existence of ethnoracial groups with defined boundaries that inhere in social life The book considers interviewing including focus group interviewing and case study research including participant observation ethnography in terms of possibilities for moving beyond new forms of racism Action research defined by the understanding of an inextricable link between knowing and acting is examined in depth in terms of the hopes to make a difference at the moment of inquiry Types of retroductive logic that are used to examine underlying structures that arguably unduly constrain people s life chances and render human relationships inhumane are also explored The book draws together the different arguments and it proposes ways in which the design of research into new racism can better approached as well as ways in which dialogue around processes of inquiry and the products thereof can be better fostered Suggestions for nurturing humane social relationships that provide for transcultural meaning making are threaded through the text

Responsible Research Practice Norma RA Romm, 2018-04-21 This book explores ways in which creative research practice can be explicitly and mindfully geared to make a difference to the quality of social and ecological existence It offers a range of examples of how different research methods can be employed and re tuned with this intention The book suggests that what Romm names active research involves using the research space responsibly to open up new avenues for thinking and acting on the part of those involved in the inquiry and wider stakeholders The book includes a discussion of a range of epistemological ontological methodological and axiological positions or paradigms that can be embraced by inquirers implicitly or explicitly It details the contours of an epistemology where knowing is recognized to be grounded in social relations as a matter of ethics While focusing on discussing the transformative paradigm and attendant view of research ethics it considers to what extent the borders between paradigms can be treated as being permeable in creative and active inquiries Apart from considering options for enhancing responsible research practice during the process of inquiry and reconsidering mixed research designs the book also considers options for responsible theorizing that is inspirational for pursuing goals of social and ecological justice UGC NET Public Administration (Paper-II) Study Notes ,

Mixed Methods and Cross Disciplinary Research Janet McIntyre-Mills, Norma R. A. Romm, 2019-07-12 This book uses mixed methods to extend the concept of wellbeing stocks to refer to dynamic ways of working with others It addresses metaphors and praxis for weaving together strands of experience The aim of the wellbeing stocks concept is to enable people to re evaluate economics and to become more aware of the way in which we neglect social

and environmental aspects of life The pursuit of profit at the expense of people and the environment is a central problem for democracy and governance The vulnerability of cities is a symptom of the lack of balance between individual and collective needs This book explores the potential for cities specifically in the regions of Indonesia Africa and Australia to become more productive as sites for food and water security through more creative use of technology It highlights the need for partners that see food and security feasible at the household level if supports are provided at the community national and international level The book examines how these regions are affected by demographics climate change and people movements but also explores ways to establish an effective cultural ecosystem management **Indigenous Studies:**

Scholarship for Our Time Adrianna J. Kezar,Yianna Drivalas,Joseph A. Kitchen,2023-07-03 This book proposes a new paradigm of public scholarship for our time one that shifts from the notion of the public intellectual to the model of the engaged scholar The editors premise is that the work of public scholarship should be driven by a commitment to supporting a diverse democracy and promoting equity and social justice The contributors to this volume present models that eschew the top down framing of policy to advocate for practice that drives bottom up change by arming the widest range of stakeholders especially members of marginalized communities with relevant research They demonstrate how public scholarship in higher education can increase its impact on practice and policy and compellingly argue that public scholarship should be recognized as normative practice for all scholars and indeed integrated into the curriculum of graduate courses The chapters describe multiple types of public scholarship and different strategies that move beyond informing policymakers faculty and administrators to engage publics such as students and parents media the general public and particularly groups that may have had little or no access to research Examples include partnering with a community agency to design a research project and disseminate results writing for practitioner or policy venues and magazines outside the traditional academic journals serving on boards for national groups that impact decisions related to your area of research and the use of social media Whether scholar director of graduate education or graduate student of higher education this book opens up a new vision of how research can inform practice that promotes the public good **Routledge International Handbook of**

Contemporary Racisms John Solomos,2020-02-25 The study of contemporary forms of racism has expanded greatly over the past four decades Although it has been a focus for scholarship and research for the past three centuries it is perhaps over this more recent period that we have seen important transformations in the analytical frames and methods to explore the changing patterns of contemporary racisms The Routledge International Handbook of Contemporary Racisms brings together thirty four original chapters from international experts that address key features of contemporary racisms The Handbook has a truly global orientation and covers contemporary racisms in both the western and non western geopolitical environments In terms of structure the volume is organized into ten interlinked parts that include Theories and Histories Contemporary Racisms in Global Perspective Racism and the State Racist Movements and Ideologies Anti Racisms Racism and Nationalism Intersections of Race and Gender Racism Culture and Religion Methods of Studying Contemporary Racisms and the End of

Racism These parts contain chapters that draw on original theoretical and empirical research to address the evolution and changing forms of contemporary racism The Handbook is framed by a General Introduction and by short introductions to each part that provide an overview of key themes and concerns Written in a clear and direct style and from a conceptual multidisciplinary and international perspective the Handbook will provide students scholars and practitioners with an overview of the most pressing issues of Racisms in our time

Taking It to the Streets Laura W. Perna, 2018-04-16 As scholars become more public what responsibility do they have to advocate for policies that will advance equity inclusiveness and social change Higher education scholars often conduct research on topics about which they care deeply but to what extent should they be advocates for reform and social change One school of thought believes researchers should remain dispassionate and data focused the other that a researcher by the very questions she asks can help effect social change In this book Laura W Perna questions how why and when higher education researchers should be public intellectuals and whether armed with research they are and should be a powerful force for change Taking It to the Streets collects essays from nationally and internationally recognized thought leaders with diverse opinions and perspectives on these issues With the intentional inclusion of voices on different sides of this discussion the volume offers a thought provoking and nuanced understanding of the multifaceted connections between higher education research advocacy and policy Contributors Ann E Austin Estela Mara Bensimon Anthony A Berryman Mitchell J Chang Cheryl Crazy Bull Adam Gamoran Sara Goldrick Rab Shaun R Harper Donald E Heller Adrianna Kezar Simon Marginson James T Minor Jeannie Oakes Laura W Perna Gary Rhoades Daniel G Solorzano Christine A Stanley William G Tierney

Sustainability and Small and Medium-sized Enterprises Aharon Factor, John Parm Ulhøi, 2021-03-29 Industrialisation has brought great benefits to humankind but now after 200 years of fossil fuel use land clearance and pollution the planet's boundaries are being stretched to their limits Going beyond these confines would have severe consequences for humankind To prevent this from happening government corporate and community initiatives must focus on reducing the environmental impact of approximately 400 million small and medium sized enterprises SMEs given that they produce approximately 70% of the world's pollution 60% of carbon emissions and have a significant impact on land To date research shows that SMEs have been environmental laggards and more needs to be understood to improve sustainability in the SME sector Broadening the researcher's methodological focus beyond traditional singular approaches improves knowledge generation and better informs policy and practice This book paves the way by showing the reader that a mixed method research design is able to provide a deep diverse and holistic understanding of sustainability and SMEs Importantly the book also provides an in depth mapping of mixed method sustainability and SME research at a regional level As this book is about environmental sustainability framed in a business context it will be of interest to researchers academics students and those in industry who are enquiring about the environmental sustainability of SMEs

Intergenerational Ethnic Identity Construction and Transmission among Italian-Australians Simone Marino, 2020-07-02 This book focuses on the transmission of ethnic identity across three generations of Italian Australians specifically Italian Australians of Calabrian descent in the Adelaide region of Australia Simone Marino analyzes ethnographic data collected over a three year period to consider individual familial and community cultural practices as well as societal influences on ethnic identity transmission in order to present generational differences in

the understandings of Italian Australian identity Among other factors the role of community events community networks and cultural practices associated with being Italian Australian are examined The transmission of ethnic identity is analysed through the lens of sociological theories including Sayad s concept of double absence and Bourdieu s ideas of habitus and cultural capital and is considered at the macro meso and micro spheres of social life Ultimately Marino s study reveals clear generational differences amongst Italian Australians the first generation those who arrived from Italy manifest a condition of feeling absent the second generation present a condition of in between ness between the world of their immigrant parents and that of Australians and the third generation experience a sense of ethnic revival
