## New York Review Of Books:

**The New York Review of Books [88].** ,1988      *The New York Review of Books [89].* ,1989      **American Women Writing Fiction** Mickey Pearlman,1988 The works of Walt Whitman have been described as masculine feminine postcolonial homoerotic urban organic unique and democratic yet arguments about the extent to which Whitman could or should be considered a political poet have yet to be fully confronted Some scholars disregard Whitman s understanding of democracy insisting on separating his personal works from his political works A Political Companion to Walt Whitman is the first full length exploration of Whitman s works through the lens of political theory Editor John E Seery and a collection of prominent theorists and philosophers uncover the political awareness of Whitman s poetry and prose analyzing his faith in the potential of individuals his call for a revolution in literature and political culture and his belief in the possibility of combining heroic individualism with democratic justice A Political Companion to Walt Whitman reaches beyond literature into political theory revealing the ideology behind Whitman s call for the emergence of American poets of democracy      [The New York Review of Books](#) Sanford Schwartz,Gail Fraser,2002      **Moving Image Cataloging** Martha M. Yee,2007-10-30 Libraries archives and museums hold a wide variety of moving images all of which require the same level of attention to issues of organization and access as their print counterparts Consequently the people who create collection level records and metadata for these resources need to be equally conversant in the principles of cataloging Martha Yee covers both descriptive AACR2R AMIM and FIAF rules and subject cataloging with a focus on LCSH In the process the reader is encouraged to think critically and to be prepared to make decisions in ambiguous situations where solutions to problems are not always obvious or clearly dictated by specific rules      *The Making of Dissidents* Victoria Harms,2024-09-17 Before Hungary s transition from communism to democracy local dissidents and like minded intellectuals activists and academics from the West influenced each other and inspired the fight for human rights and civil liberties in Eastern Europe Hungarian dissidents provided Westerners with a new purpose and legitimized their public interventions in a bipolar world order The Making of Dissidents demonstrates how Hungary s Western friends shaped public perceptions and institutionalized their advocacy long before the peaceful revolutions of 1989 But liberalism failed to take root in Hungary and Victoria Harms explores how many former dissidents retreated and Westerners shifted their attention elsewhere during the 1990s paving the way for nationalism and democratic backsliding      **Freedom and the Arts** Charles Rosen,2012-05-21 Is there a moment in history when a work receives its ideal interpretation Or is perpetual negotiation required to preserve the past and accommodate the present The freedom of interpretation Charles Rosen suggests in these sparkling explorations exists in a delicate balance with fidelity to the identity of the original work      **Julian Barnes** Sebastian Groes,Peter Childs,2011-09-01      *Patriot Acts* Alia Malek,2015-10-01 This book seeks to tell the life stories of the innocent men and women who have been needlessly swept up in the war on terror As we approach the ten year anniversary of 9 11 this collection of narratives gives voice to the people

who have had their human rights violated here in the U S by post 9 11 policies and actions Among the narrators Young men of Arab Muslim South Asian and Middle Eastern descent who were arrested and detained or singled out for voluntary interviews because of their national origin or religion Scholars who have been blacklisted or subjected to interrogation for their research or writings on Islam and related topics Muslim women who have suffered from job discrimination harassment and assault for wearing a veil or similar head covering

#### **Law and the State** Alain Marciano, Jean-Michel

Josselin, 2005-01-01 Law and the State provides a political economy analysis of the legal functioning of a democratic state illustrating how it builds on informational and legal constraints It explains in an organised and thematic fashion how competitive information enhances democracy while strategic information endangers it and discusses how legal constraints stress the dilemma of independence versus discretion for judges as well as the elusive role of administrators and experts Throughout the book empirical evidence and comparative studies illuminate sometimes provocative theoretical views on issues such as the place of the rule of law in constitutional and banking systems regulation of copyright art and heritage innovations and technologies of communication and information terrorism and media manipulation Both private and public law applied and theoretical issues are covered comprehensively Academics and researchers of law and economics and public choice will find much to challenge and inform them within this book

*The Economics of the Good, the Bad and the Ugly* Manfred J. Holler, 2018-07-20 The highly praised Western The Good the Bad and the Ugly has been used in many game theory courses over the years and has also found its way into leading journals of this field Using the rich material offered by this movie alongside other elements from popular culture literature and history this book furthers this exploration into a fascinating area of economics In his series of Schumpeter lectures Manfred J Holler uses his analysis of Sergio Leone s movie as a starting point to argue that combinations of desires secrets and second mover advantages trigger conflicts but also allow for conflict resolution Many people and organizations have a desire for secrecy and this is often motivated by a desire to create a second mover advantage and by undercutting the second mover advantage of others This book demonstrates that the interaction of these three ingredients account for a large share of social problems and failures in politics and business but somewhat paradoxically can also help to overcome some of the problems that result by applying one or two of them in isolation This book has been written for curious readers who want to see the world from a different perspective and who like simple mathematics alongside story telling Its accessible approach means that it will be of use to students and academics alike especially all those interested in decision making game theory and market entry

#### The American Intellectual Elite

John Sommer, 2017-07-12 There are almost as many works about intellectuals as there are intellectuals Perhaps this is because intellectuals are masters of the word and their mastery is often used to write about themselves Indeed with the possible exceptions of sports figures and film actors intellectuals may be the most overpublicized people in America In this classic study originally published in 1974 Charles Kadushin examines the attitudes of that class of people known as the

American intellectual elite While most works on intellectuals first establish who should be included under the title intellectual and debate their characteristics Kadushin instead sets forth a sociological history of leading American intellectuals of the late 1960s The book's concern however is primarily with time and place While The American Intellectual Elite is very much about social circles and the networked small world of intellectuals defined by the institutions such as the journals and magazines around which they gathered the uniqueness of this volume is the recognition that fact must come before theory Thus the collective attitude of leading intellectuals of the sixties are presented in a straightforward and dispassionate manner on topics as diverse as the Vietnam War race relations foreign and domestic policy and the place of intellectuals in the resolution of such issues Now in paperback with a new introduction by the author The American Intellectual Elite is an influential work that will be valued by students of sociology members of the intellectual elite and professionals and students of contemporary American history

**The Two-State Delusion** Padraig O'Malley, 2016-07-26 Author Padraig O'Malley is the subject of the new acclaimed documentary The Peacemaker Impressive O'Malley has done a tremendous amount of research about the Israeli Palestinian conflict The New York Times Book Review Disputes over settlements the right of return the rise of Hamas recognition of Israel as a Jewish state and other intractable issues have repeatedly derailed peace negotiations between Israel and Palestine Now in a book that is sure to spark controversy renowned peacemaker Padraig O'Malley argues that the moment for a two state solution has passed After examining each issue and speaking with Palestinians and Israelis as well as negotiators directly involved in past summits O'Malley concludes that even if such an agreement could be reached it would be nearly impossible to implement given a variety of obstacles including the staggering costs involved Palestine's political disunity and economic fragility rapidly changing demographics in the region Israel's continuing political shift to the right global warming's effect on the water supply and more In this revelatory hard hitting book O'Malley approaches the key issues pragmatically without ideological bias to show that we must find new frameworks for reconciliation if there is to be lasting peace between Palestine and Israel

*The Yale Critics* Jonathan Arac, Wlad Godzich, Wallace Martin, 1983 The Yale Critics was first published in 1983 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions A heated debate has been raging in North America in recent years over the form and function of literature At the center of the fray is a group of critics teaching at Yale University Harold Bloom Geoffrey Hartman Paul de Man and J Hillis Miller whose work can be described in relation to the deconstructive philosophy practiced by French philosopher Jacques Derrida For over a decade the Yale Critics have aroused controversy most often they are considered as a group to be applauded or attacked rather than as individuals whose ideas merit critical scrutiny Here a new generation of scholars attempts for the first time a serious broad assessment of the Yale group These essays appraise the Yale Critics by exploring their roots their individual careers and the issues they introduce Wallace Martin's introduction offers a brilliant compact

account of the Yale Critics and of their relation to deconstruction and the deconstruction to two characteristically Anglo American enterprises Paul Bove explores the new criticism and Wlad Godzich the reception of Derrida in America Next come essays giving individual attention to each of the critics Michael Sprinker on Hartman Donald Pease on Miller Stanley Corngold on de Man and Daniel O Hara on Bloom Two essays then illuminate deconstruction in America through a return to modern continental philosophy Donald Marshall on Maurice Blanchot and Rodolphe Gasche on Martin Heidegger Finally Jonathan Arac s afterword brings the volume together and projects a future beyond the Yale Critics Throughout the contributors aim to provide a balanced view of a subject that has most often been treated polemically While useful as an introduction The Yale Critics also engages in a serious critical reflection on the uses of the humanities in American today

*Gender Politics and Post-Communism* Nanette Funk, Magda Mueller, 2018-12-19 In the wake of communism s decline women s concerns had become increasingly important in Eastern Europe and the former Soviet Union Yet most discussions of post communism changes had neglected women s experiences Originally published in 1993 this title was the first collection of its kind presenting original essays by women scholars politicians activists and former dissidents from Eastern Europe and the former Soviet Union along with essays by Western feminists and scholars They discuss gender politics during the often turbulent transition and crises of post communism offering vivid accounts and analyses of the conditions facing women in each country

**Particles, Fields, Space-Time** Martin Pohl, 2020-09-13 CHOICE Highly Recommended 2021 Particles Fields Space Time From Thomson s Electron to Higgs Boson explores the concepts ideas and experimental results that brought us from the discovery of the first elementary particle in the end of the 19th century to the completion of the Standard Model of particle physics in the early 21st century The book concentrates on disruptive events and unexpected results that fundamentally changed our view of particles and how they move through space time It separates the mathematical and technical details from the narrative into focus boxes so that it remains accessible to non scientists yet interesting for those with a scientific background who wish to further their understanding The text presents and explains experiments and their results wherever appropriate This book will be of interest to a general audience but also to students studying particle physics physics teachers at all levels and scientists with a recreational curiosity towards the subject Features Short comprehensive overview concentrating on major breakthroughs disruptive ideas and unexpected results Accessible to all interested in subatomic physics with little prior knowledge required Contains the latest developments in this exciting field

The Autobiographical Myth of Robert Lowell Philip Cooper, 2018-08-25 Lowell s continuing

productivity and his ever increasing stature as a poet demand a new evaluation of his work and Cooper has provided it in this penetrating study Though Cooper s primary purpose is to demonstrate the principle of the interrelation of the poems a secondary and equally important purpose is to analyze the significance of Lowell s most recent work Originally published in 1970 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

**Eminent Jews** David Denby,2025-04-08 Leonard Bernstein Mel Brooks Betty Friedan and Norman Mailer Brilliant brash yet soulful they were 100 percent Jewish and 100 percent American They upended the restrained culture of their forebears and changed American life They worked in different fields and apart from clinking glasses at parties now and then they hardly knew one another But they shared a historical moment and a common temperament For all four their Jewish heritage was electrified by American liberty The results were explosive As prosperity for Jews increased and anti Semitism began to fade after World War II these four creative giants stormed through the latter half of the twentieth century altering the way people around the world listened to music defined what was vulgar comprehended the relations of men and women and understood the American soul They were not saints they were turbulent and self dissatisfied intellectuals who fearlessly wielded their own newly won freedom to charge up American culture Celebratory yet candid at times fiercely critical David Denby presents these four figures as egotistical and generous larger than life all of them yet vulnerable even heartbreaking in their ambition ferocity and pride

**Dissenters and Mavericks** Margery Sabin,2002-10-24 Dissenters and Mavericks reinvigorates the interdisciplinary study of literature history and politics through an approach to reading that allows the voices heard in writing a chance to talk back to exert pressure on the presuppositions and preferences of a wide range of readers Offering fresh and provocative interpretations of both well known and unfamiliar texts from colonial writers such as Horace Walpole and Edmund Burke to twentieth century Indian writers such as Nirad Chaudhuri V S Naipaul and Pankaj Mishra the book proposes a controversial challenge to prevailing academic methodology in the field of postcolonial studies

Eventually, you will unconditionally discover a additional experience and carrying out by spending more cash. still when? get you say yes that you require to acquire those every needs similar to having significantly cash? Why dont you try to get something basic in the beginning? Thats something that will lead you to comprehend even more with reference to the globe, experience, some places, in the manner of history, amusement, and a lot more?

It is your unconditionally own period to doing reviewing habit. among guides you could enjoy now is **New York Review Of Books** below.
