*Mystic Moderns* James H. Thrall, 2020-01-21 *Mystic Moderns* examines the responses of three British authors Evelyn Underhill 1875 1941 May Sinclair 1863 1946 and Mary Webb 1881 1927 to the emerging modernity of the long early twentieth century moment encompassing the First World War As they explored divergent but overlapping understandings of what mystical experience might be these authors rejected claims that modernity's celebration of the secular and rational left no place for the mystical rather they countered sensitivity to a greater reality could both establish and validate personal agency and was integral to their identities as modern women Their preoccupations with the dynamism of human connection drew on prevailing ideas of vital energy or life force developed by Arthur Schopenhauer and Henri Bergson in ways that channeled modernity's erotic energy of change By using their fiction to describe new self authenticating forms of mysticism separate from either the prevailing orthodoxy of establishment Christianity or the extreme heterodoxy of their era's enthusiasm for paranormal experimentation they also contributed to the rise of a generic concept of spirituality *Mystic Moderns* thus offers historical perspective on contemporary claims for self constructed non institutional spiritual experience associated with the claim I'm spiritual not religious Working as they did within the shadow of the First World War Underhill Sinclair and Webb were in the end attempting to determine what might be of authentic value for a modern age marked by ubiquitous death While not themselves utopian authors each was touched by her era's complicated hunger for the best of all possible worlds Their constructions of how an individual should be and act in the midst of modernity thus simultaneously projected visions of what that modernity itself should become

*Genocide and the Global Village* K. Campbell, 2001-09-07 A half century ago the international community made a solemn promise to never again allow genocide to go unchallenged In the early days of the Post Cold War New World Order though international leaders failed to stop horrific genocides in Bosnia and Rwanda chiefly because Western leaders lack the political will to use decisive force to suppress ongoing genocide Despite increased attention to war crimes issues in the Clinton Administration and increased rhetoric about its commitment to halting genocide American military force policy still gives lowest priority to responding to gross abuses of human rights In *Genocide and the Global Village* Kenneth Campbell explains why the international community fails so miserably to prevent suppress and punish contemporary genocide The book integrates the scattered pieces of this complex problem political military legal and ethical into a more complete clearer picture of the challenge facing the world today Campbell engages in a complex multi level

analysis of genocide's impact upon world order and the inter play of politics and morality in the international community's determination of the appropriate role for military force in halting genocide and securing an emerging global civil society Campbell recommends practical steps the international community can take to greatly improve its response the next time genocide occurs a next time that will occur The New-York Review, 1838 **Reading the Novels of John Williams** Mark Asquith, 2017-12-06 John Williams as the New Yorker noted recently was author of the greatest American novel you've have never heard of He died in obscurity but has enjoyed a literary renaissance due to the worldwide critical acclaim greeting recent reissues of his major novel *Butcher's Crossing* Augustus and particularly *Stoner* With films of both *Butcher's Crossing* and *Stoner* already in pre production it is clear that Williams star is in the ascendant This book is designed to offer a critical introduction to his writing It is developed through solid scholarly research but is structured and written in a clear and direct style that makes it accessible for academics students and general readers alike It offers a clear sense of the novelist's early life and work which includes an evaluation of his academic life he was a professor at the University of Denver and neglected poetry The bulk of the book is given over to readings of the three major novels they offer an appreciation of Williams literary craft combined with an assessment of literary and cultural influences and an overview of contemporary critical reactions Few authors have written such disparate works in terms of subject matter genre and style however they are all united in their effort to grapple with deeper existential questions For whether his characters are riding the Western plains speaking in the Roman Forum or reading in a dusty library they all demonstrate Williams preoccupation with the ways in which youthful hopes and a strong sense of who we are shaped by life's accidents How we make the life meaningful learn to love another human being confront failure these are the well points of Williams understated tragedies Unfortunately such meditations are rarely fashionable but neither are they ever unfashionable George Orwell observed that the only true critic is time this study makes clear that Williams time has come **Catalogue of Title-entries of Books and Other Articles**

**The Making of Dissidents** Victoria Harms, 2024-09-17 Before Hungary's transition from communism to democracy local dissidents and like minded intellectuals activists and academics from the West influenced each other and inspired the fight for human rights and civil liberties in Eastern Europe Hungarian dissidents provided Westerners with a new purpose and legitimized their public interventions in a bipolar world order *The Making of Dissidents* demonstrates how Hungary's Western friends shaped public perceptions and institutionalized their advocacy long before the peaceful revolutions of 1989 But liberalism failed to take root in Hungary and Victoria Harms explores how many former dissidents retreated and Westerners shifted their attention elsewhere during the 1990s paving the way for nationalism and democratic backsliding

*Who Will Pay Reparations on My Soul?: Essays* Jesse McCarthy, 2021-03-30 2022 Whiting Award Winner for Nonfiction

Finalist National Book Critics Circle Award Criticism Best Books of the Year TIME Kirkus Reviews This is a very smart and soulful book Jesse McCarthy is a terrific essayist Zadie Smith A supremely talented young critic s essays on race and culture from Toni Morrison to trap herald the arrival of a major new voice in American letters Ranging from Ta Nehisi Coates s case for reparations to Toni Morrison s revolutionary humanism to D Angelo s simmering blend of R B and racial justice Jesse McCarthy s bracing essays investigate with virtuosic intensity the art music literature and political stances that have defined the twenty first century Even as our world has suffered through successive upheavals McCarthy contends something was happening in the world of culture a surging and unprecedented visibility at every level of black art making Who Will Pay Reparations on My Soul reckons with this resurgence arguing for the central role of art and intellectual culture in an age of widening inequality and moral crisis McCarthy reinvigorates the essay form as a space not only for argument but for experimental writing that mixes and chops the old ways into new ones In Notes on Trap he borrows a conceit from Susan Sontag to reveal the social and political significance of trap music the drug soaked strain of Southern hip hop that as he puts it is the funeral music that the Reagan Revolution deserves In Back in the Day McCarthy a black American raised in France evokes his childhood in Paris through an elegiac account of French rap in the 1990s In The Master s Tools the relationship between Spanish painter Diego Vel zquez and his acolyte slave Juan de Pareja becomes the lens through which Kehinde Wiley s paintings are viewed while To Make a Poet Black explores the hidden blackness of Sappho and the erotic power of Phillis Wheatley Essays on John Edgar Wideman Claudia Rankine and Colson Whitehead survey the state of black letters In his title essay McCarthy takes on the question of reparations arguing that true progress will not come until Americans remake their institutions in the service of true equality As he asks What can reparations mean when the damage cannot be accounted for in the only system of accounting that a society recognizes For readers of Teju Cole s Known and Strange Things and Mark Greif s Against Everything McCarthy s essays portray a brilliant young critic at work making sense of our disjointed times while seeking to transform our understanding of race and art identity and representation **The Red**

**Thread: Twenty Years of NYRB Classics** Edwin Frank,2019-09-24 To celebrate the 20th anniversary of NYRB Classics a handpicked anthology of selections from the series In Greek mythology Ariadne gave Theseus a ball of red thread to guide him through the labyrinth and the Red Thread offers a path through and a way to explore the ins and outs and twists and turns of the celebrated NYRB Classics series now twenty years old The collection brings together twenty five pieces drawn from the more than five hundred books that have come out as NYRB Classics over the last twenty years Stories essays interviews poems along with chapters from novels and memoirs and other longer narratives have been selected by Edwin Frank the series editor to chart a distinctive entertaining and thought provoking course across the expansive and varied terrain of the Classics series [The Solitary Voice of Dissent](#) Martin Kay,2020-10-06 This book urges respect for solitary dissent rather than censure It equips a wide audience to understand what previously seemed unimaginable much less

comprehensible It shows the reader how to reach beyond those first conclusions and into the heart of the matter The lone voice explains that something has been hidden away something which the individual now dissenting can no longer acquiesce in It raises the possibility that more may be seriously wrong Those who need to understand range from academics to researchers to managers to elected representatives to journalists We all have an interest in knowing not just what has gone wrong but also why this person and no other decided they could take no more If we are to correct a bad situation rather than just patch it up we need clarity at every level of the individual s deepening unease The book uses four case studies two in Ireland one in UK all on the record and one authoritative biography of a well known Italian personality to demonstrate an approach to analyzing solitary dissent The methods used are academic but in the way they are presented certainly intelligible to the lay reader Indeed the author who is one of the case studies writes with a degree of affection for his two authorities Michel Foucault and Anthony Giddens which is engaging anything but formal but no less authoritative for that Another persuasive output of the book is the resonance of solitary dissent with Jean Paul Sartre s existentialism which is also analysed The Solitary Voice of Dissent is limited by the extent to which the author has been able to delve into the personal privacy of the case studies offered With commendable detachment he is able to examine his own experience and the biography he has selected allows a similarly deep investigation into the fourth case study While each personality investigated was male the author also identifies certain contemporary female dissenters This is an area increasingly impacting upon the public s awareness but which no one has written about before If we are to mend our society we need to start a conversation A wide audience will wish to follow it

Reviewing Political Criticism Elisabeth K. Chaves, 2016-04-08 Reviewing Political Criticism examines the rise of the review form of journal publication from the early eighteenth to the early twenty first centuries The review belongs to a long tradition of written political criticism that first advised then revised and with the increased confidence afforded to civil society by the rise of market capitalism subsequently challenged and even transformed the state s view on what and how it governed Chaves investigates the crucial nexus of intellectual debate with political judgment over this time and highlights the review s central role in upholding this connection Focusing upon critical moments that required the exercise of political judgment the book explains this journal form as a means of political practice one that essentially re views the state s view of how society should be ordered To understand critical activity one must reflect on where this activity takes place on the institutions of criticism that sustain it Referred to by some as the natural habitat of intellectuals journals as the institutionalized sites of theoretical discourse are often overlooked This groundbreaking book offers a concentrated critique of the review form of journal publication as a medium for political thought and action as a decisive site for political judgment
