Framing War Francesco Olmastroni, 2014-10-10 Most research on framing has focused on media and elite frames the ways that the mass media and politicians present information about issues and events to the public Until now the process by which citizens opinions may affect the initial frame building process has been largely ignored The two way flow of influence between public opinion and decision makers has been analyzed more from a top down than a bottom up perspective Olmastroni addresses this issue by introducing a cyclical model of framing Additionally most empirical studies on media framing have centered on the United States Olmastroni s text seeks to overcome this limitation of prior research by examining different types of framing in three different countries Framing War uses the recent war on Iraq as a case study focusing on the elite and media framing of this event in order to examine the interaction between the political elite and the mass public in three Western democracies France Italy and the US during the early and on going stages of the military crisis The book analyzes whether and potentially the extent to which decision makers tracked and responded to public opinion in presenting their foreign policy choices It examines the strategies and approaches that governments potentially adopted to influence public opinion towards either the need for or the lack of need for a military intervention By representing the framing paradigm as a cycle Olmastroni shows how each actor within the system i e government and other elites news media and public opinion is linked to the others and contributes to the final representation of an issue In contrast with other theoretical perspectives of framing this book states that the framing influence does not only proceed from the government to the public but it often moves at the same level of the system with each actor playing different roles Olmastroni s insights on framing are significant for researchers in international relations political communication public opinion comparative politics and political psychology as well as policy analysts journalists and commentators , **American Civil War** Spencer C. Tucker, 2013-09-30 This expansive multivolume reference work provides a broad multidisciplinary examination of the Civil War period ranging from pre Civil War developments and catalysts such as the Mexican American War to the rebuilding of the war torn nation during Reconstruction The Civil War was undoubtedly the most important and seminal event in 19th century American history Students who understand the Civil War have a better grasp of the central dilemmas in the American historical narrative states rights versus federalism freedom versus slavery the role of the military establishment the extent of presidential powers and individual rights versus collective rights Many of these dilemmas continue to shape modern society and politics This comprehensive work facilitates both detailed reading and quick referencing for readers from the high school level to senior scholars in the field The exhaustive coverage of this encyclopedia includes all significant battles and skirmishes important figures both civilian and military weapons government relations with Native Americans and a plethora of social political cultural military and economic developments The entries also address the many events that led to the conflict the international diplomacy of the war the rise of the Republican Party and the growing crisis and stalemate in

American politics slavery and its impact on the nation as a whole the secession crisis the emergence of the total war concept and the complex challenges of the aftermath of the conflict

Watching Darkness Fall David McKean, 2025-09-23 A gripping and groundbreaking account of how all but one of FDR's ambassadors in Europe misjudged Hitler and his intentions As German tanks rolled toward Paris in late May 1940 the U S Ambassador to France William Bullitt was determined to stay put holed up in the Chateau St Firmin in Chantilly his country residence Bullitt told the president that he would neither evacuate the embassy nor his chateau an eighteenth Renaissance manse with a wine cellar of over 18 000 bottles even though we have only two revolvers in this entire mission with only forty bullets As German forces closed in on the French capital Bullitt wrote the president In case I should get blown up before I see you again I want you to know that it has been marvelous to work for you As the fighting raged in France across the English Channel Ambassador to Great Britain Joseph P Kennedy wrote to his wife Rose The situation is more than critical It means a terrible finish for the allies David McKean's **Watching Darkness Fall** will recount the rise of the Third Reich in Germany and the road to war from the perspective of four American diplomats in Europe who witnessed it firsthand Joseph Kennedy William Dodd Breckinridge Long and William Bullitt who all served in key Western European capitals London Berlin Rome Paris and Moscow in the years prior to World War II In many ways they were America's first line of defense and they often communicated with the president directly as Roosevelt's eyes and ears on the ground Unfortunately most of them underestimated the power and resolve of Adolf Hitler and Germany's Third Reich **Watching Darkness Fall** is a gripping new history of the years leading up to and the beginning of WWII in Europe told through the lives of five well educated and mostly wealthy men all vying for the attention of the man in the Oval Office

The Fruits Of His Labor John B. Davis, 2013-06 THE FRUITS OF HIS LABOR The true story of Professor Edmond Jefferson Oliver Principal of Fairfield Industrial High School it's staff it's students community state of Alabama the Nation and the World By John B Davis Class of 1951 Fruit results from planted seeds when seeds grow they bear fruit Galatians 5:22-23 We were taught that the fruit that you have to reach for is the sweetest The fruits of his labor are many the world is blessed with Fairfield Industrial

High School F I H S graduates eschewing their accomplishments through serving others As one of our graduates Lois Macon eloquently proclaimed There was a place called FAIRFIELD INDUSTRIAL HIGH SCHOOL and a man named EDMOND JEFFERSON OLIVER and his vision was to educate the coloreds living in a colored community children of colored parents who worked at colored jobs to send their colored children to a colored school The visionary Professor Oliver with head bloody but unbowed still forged ahead Each drop of blood in the sand like living water produced living fruit sprouting all around is evidence of his passion He calls to the visionaries and awaits that army to understand that each child of mother F I H S also has a purpose that each is and that is will be is when he or she is We the graduates of Fairfield Industrial High School are the fruits of his labor and some of our stories are unfolded in this book Like a plant Professor Oliver s roots are showing He grew good people in our small town with honesty sincerity and dignity Drop this book on the floor and where ever it opens it will be excellent reading This true story is dedicated to our BLACK Community I choose to capitalize the word BLACK because of all the hell we caught and are still catching in this country *When Bad Things Happen to Privileged People* Dara Z. Strolovitch,2023-07-06 A deep and thought provoking examination of crisis politics and their implications for power and marginalization in the United States From the climate crisis to the opioid crisis to the Coronavirus crisis the language of crisis is everywhere around us and ubiquitous in contemporary American politics and policymaking But for every problem that political actors describe as a crisis there are myriad other equally serious ones that are not described in this way Why has the term crisis been associated with some problems but not others What has crisis come to mean and what work does it do In *When Bad Things Happen to Privileged People* Dara Z Strolovitch brings a critical eye to the taken for granted political vernacular of crisis Using systematic analyses to trace the evolution of the use of the term crisis by both political elites and outsiders Strolovitch unpacks the idea of crisis in contemporary politics and demonstrates that crisis is itself an operation of politics She shows that racial justice activists innovated the language of crisis in an effort to transform racism from something understood as natural and intractable and to cast it instead as a policy problem that could be remedied Dominant political actors later seized on the language of crisis to compel the use of state power but often in ways that compounded rather than alleviated inequality and injustice In this eye opening and important book Strolovitch demonstrates that understanding crisis politics is key to understanding the politics of racial gender and class inequalities in the early twenty first century **The New York Times Magazine** ,2009 **Covering the Campus** Brian Farkas,2009 Among the oldest student publications in the United States the Miscellany News traces its roots back to 1866 Beginning as a literary magazine and evolving into a contemporary newspaper the paper has reported nearly 150 years of student experiences The Miscellany has seen generations of Vassar College students who have witnessed the horrors of international war felt the injustices of racial strife and observed stirring protests unfold on their own campus This narrative history of the Miscellany tells the story of the young men and women writing about their collegiate environment against the grand backdrop of American history

With careful qualitative and quantitative analysis along with scores of interviews with former editors Brian Farkas navigates the complex and fascinating history of the Miscellany Blending historical investigation with his personal experience Farkas presents a fascinating and often humorous window into journalism history's first draft **The New York Times**, 2009
