Houchin, 2003-06-26 John Houchin explores the impact of censorship in twentieth century American theatre arguing that theatrical censorship coincided with significant challenges to religious political and cultural systems The study provides a summary of theatre censorship in the eighteenth and nineteenth centuries and analyses key episodes from 1900 to 2000

He investigates the impact of racial violence, political assassinations and the Vietnam War on the trajectory of theatre in the 1960s and concludes by examining the response to gay activist plays such as *Angels in America*.

**Dictionary of the Modern United States Military** S.F. Tomajczyk, 2008-02-11 Warspeak the language of the military can be for many civilians and for members of differing services an unintelligible hodgepodge of acronyms, slang terms and field operation expressions. Few laypersons may know that the Five F's is a derogatory expression though Army, Navy, Marine, Air Force, Coast Guard and others know or can infer that chairborn commandos are administrative and support personnel. The more than 15 000 entries in this comprehensive dictionary provide an inside look at the United States military. Weapons, systems, governmental agencies, electronic warfare, medical terms, military infrastructure, communications, satellites and intelligence systems are among the topics covered in depth. Also detailed are the acronyms and slang terms used by the soldiers in the field. The work provides numerous cross references for ease of use along with a bibliography of over 2 200 sources.

The Wall Street Journal, 1998 **State**, 2000 Homosexuality in the Work of Gore Vidal Jörg Behrendt, 2002 Since his first novel with a homosexual topic *The City and the Pillar* appeared in 1948, Gore Vidal has been seen as an enfant terrible of American letters. Through his ongoing writing career he has examined homo sexuality in the context of cultural, religious and socio-political developments so that it is fascinating to revisit his critical, sometimes cynical and always wittily presented ideas which were formed at a time when Gay Liberation, Gay Literature and Gay Identity were still unheard of and to discover the meaning these ideas still hold for us today.

**The New Visibility of Religion** Graham Ward, Michael Hoelzl, 2008-10-09 Since the late 1980s, sociologists have been drawing our attention to an international surge in the public visibility of religion. This has increasingly challenged two central aspects of modern western European culture: first, the assumption that as we became more modern we would become more secularised and religion would disappear; and secondly, that religion and politics should occupy radically differentiated spheres in which private conviction did not exert itself within the public realm. The new visibility of religion is not simply a matter of what Keppel famously called *The Revenge of God*, that is, the resurgence of Christian, Islamic and Jewish fundamentalism. Religion is permeating western culture in many different forms, from contemporary continental philosophy, the arts and the media to the rhetoric of international politicians. This collection of essays brings together a unique collection of voices from theology, aesthetics, social and political science, philosophy and cultural theory in an exploration of four major aspects of this new visibility of religion: the revision of the secularisation thesis, the relationship between religion and violence, the new re-enchantment of reality and the return of metaphysics. The exploration is conducted through essays by and interviews with figures at the forefront of reflecting upon

this major cultural shift and its implications It is distinctively multidisciplinary examining the phenomenon of the rise of religion in Western Europe from a number of interrelated perspectives      The Iraq War and Democratic Politics Alex Danchev, John MacMillan, 2004-11-10 This book examines the meaning of the 2003 Iraq war for democratic politics It shuns simplistic analysis and provides a nuanced and critical overview of this key moment in global politics      *Jesus Among Her Children* Melanie Johnson-DeBaufre, 2005 This book explores how scholarly constructions of Christian origins participate in contemporary efforts to confirm or challenge particular understandings of the essence of Christianity Johnson DeBaufre offers alternative readings to key Q texts readings that place an interest in the community that shaped Jesus at the center of inquiry      Editor & Publisher , 2001      The Bulletin , 1986-04      **Congressional Record Index** , 1965 Includes history of bills and resolutions
