Nice Book Contest Theory Incentive Mechanisms Ranking:

Contest Theory Milan Vojnović, 2016-02-04 Contests are prevalent in many areas including sports rent seeking patent races innovation inducement labor markets scientific projects crowdsourcing and other online services and allocation of computer system resources This book provides unified comprehensive coverage of contest theory as developed in economics computer science and statistics with a focus on online services applications allowing professionals researchers and students to learn about the underlying theoretical principles and to test them in practice The book sets contest design in a game theoretic framework that can be used to model a wide range of problems and efficiency measures such as total and individual output and social welfare and offers insight into how the structure of prizes relates to desired contest design objectives Methods for rating the skills and ranking of players are presented as are proportional allocation and similar allocation mechanisms simultaneous contests sharing utility of productive activities sequential contests and tournaments [Game Theory and Society](#) Weiying Zhang, 2017-12-14 The progress of society can only happen through interpersonal cooperation because only cooperation can bring about mutual benefit thus bringing happiness to each person This should be our collective rationality but we often see it conflicts with individual interests which leads to the so called Prisoners Dilemma and does not bring happiness to all From a game theoretical perspective this book addresses the issue of how people can cooperate better It has two objectives The first is to use common language to systematically introduce the basic methodologies and core conclusions of Game Theory including the Nash equilibrium multiple equilibriums dynamic games etc Mathematics and theoretical models are used to the minimum necessary scope too to make this book get access to ordinary readers with elementary mathematical training The second objective is to utilize these methods and conclusions to analyze various Chinese social issues and institutional arrangements with a focus on the reasons people exhibit non cooperative behaviors as well as the institutions and cultures that promote interpersonal cooperation In addition to economics specialists in sociology law history politics and management will also be attracted by this book for its insightful analysis on the issue of cooperation in these fields Also readers curious about Chinese society will benefit from this book

[Rural Long Tail Public Service and the Correction Mechanism](#) Ji Luo, 2021-08-24 This book firstly analyzes the status and characteristics of rural long tail public service and its unbalance in detail In all based on the long tail theory mechanism design theory and resource dependence theory this book makes an empirical study and basic judgment on the matching of supply and demand of rural long tail public services in China and explores the mechanism of the efficiency of supply and demand affecting the imbalance This book presents a correction mechanism of rural long tail public demand based on the division of different response subjects and puts forward corresponding policy suggestions By putting the rural public demand in the embedded economic and social system and the development process this book analyzes its future trend and response path Then based on the difference of governance efficiency this book analyzes the general causes of the unbalance of supply

and demand of rural long tail public service Especially for the representative field of rural public service e g special education old age caring medical care this book carries out empirical studies seemingly unrelated regression to analyze the factors internal mechanism and basic path of the imbalance of rural long tail public service Thirdly through the construction of the imbalance index of rural long tail public service this book makes an empirical calculation of the severity of this imbalance This book further puts forward the design of the correction mechanism for the imbalance of rural long tail public service and carries on the reasonable and orderly division for different supply subjects In the end this book puts forward the balanced Internet NGO model for rural long tail public service and takes JD com as an example to expound the operation of the network platform of the correction mechanism

Complex Systems and Sustainability in the Global Auditing, Consulting, and Credit Rating Agency Industries Nwogugu, Michael I. C., 2021-05-07 Current and future issues in the global accounting consulting business opportunity and credit rating agency CRA industries can have significant multiplier effects on international trade sustainable growth and compliance as physical phenomena These three industries are among the most international and human capital intensive of all service industries In these industries analysis of business models and industry dynamics can provide insights about how human computer interaction HCI and contract theory affect the evolution of financial market ecosystems and cross border information flows and how business models work allocation mechanisms and liability allocation can evolve to manage change An often overlooked issue is that non performing loans NPLs sustainability and CRA efficiency can be significantly affected by business processes corporate strategy and HCI in industry ecosystems multinational corporations MNCs and economic systems *Complex Systems and Sustainability in the Global Auditing Consulting and Credit Rating Agency Industries* compares these three industries and introduces theories of public policy and inter business processes The book links industry structure complex systems including networks behavioral game theory structural changes and antitrust problems to sustainability and the efficiency of pollution remediation systems The book introduces new informal algorithms and business resource allocation models that solve social choice problems and also contravene impossibility theorems that are at the core of modern computer science and mechanism design This book is essential for professors and masters PhD level students and employees in industry financial services research institutes consulting firms and government agencies who are interested in industrial mathematics and theoretical computer science

Credit Rating Agencies Mohammed Hemraj, 2015-06-22 The book examines the role of credit rating agencies CRAs in the subprime mortgage crisis The CRAs are blamed for awarding risky securities 3 A investment grade status and then failing to downgrade them quickly enough when circumstances changed which led to investors suffering substantial losses The causes identified by the regulators for the gatekeeper failure were conflicts of interest as the issuers of these securities pay for the ratings lack of competition as the Big Three CRAs have dominated the market share and lack of regulation for CRAs The book examines how the regulators both in the US and EU have sought to address these problems by introducing soft law self

regulation in accordance with the International Organisation of Securities Commissions Code and hard law statutory regulation such as that found in the Reform Act and Dodd Frank Act in the US and similar provisions in the EU The highly topical book examines these provisions in detail by using a doctrinal black letter law method to assess the success of the regulators in redressing the problems identified It also examines the US case law regulation relating to the legal liability of CRAs The book examines whether the regulations introduced have had a deterrent effect on the actions of CRAs whether investors are compensated for their losses and how the regulators have dealt with the issues of conflicts of interest and an anti competitive environment Should liability be introduced for CRAs through changes in the law so as to compel them to issue reliable ratings and solve the current problems The book seeks to simplify the complex issues involved and is backed by concrete evidence as such it will appeal to both the well informed and the lay general public who are interested in learning more about the role of CRAs in the sub prime mortgage crisis and regulators attempts to remedy the situation Novice readers can familiarise themselves with the legal and financial terminology used by referring to the glossary at the end of the book

Microeconomic Theory for the Social Sciences Takashi Hayashi, 2021-07-21 This textbook covers microeconomic theory at the level of intermediate and advanced undergraduates It is also intended as an introduction for those with other intellectual and academic backgrounds who may not necessarily agree with mainstream economists but at least are interested knowing how they think and see things The book provides thorough explanations of definitions and assumptions that the theory is based upon It provides comprehensive accounts of motivations and reservations behind the theory As well it precisely presents the logical process of how the assumptions lead to the conclusion conveying the intuition and the key of the arguments An abundance of topics is included here individual choice general equilibrium partial equilibrium game theory imperfect competition transaction under incomplete information market failures welfare economics social choice and mechanism design The book is a valuable resource for any reader studying or simply interested in microeconomic theory

Mobile Social Networking and Computing Yufeng Wang, Jianhua Ma, 2014-09-05 Recent advancements in mobile device technologies are revolutionizing how we socialize interact and connect By connecting the virtual community with the local environment mobile social networks MSNs create the opportunity for a multitude of new personalized services for mobile users Along with that comes the need for new paradigms mechanisms and techniques with the capacity to autonomously manage their functioning and evolution Currently most books about mobile networks focus mainly on the technical point of view *Mobile Social Networking and Computing A Multidisciplinary Integrated Perspective* not only addresses the theoretical aspects of MSN and computing but also introduces and categorizes existing applications It supplies a multidisciplinary perspective that considers the technology economics social sciences and psychology behind MSNs In addition to fundamental theory the book investigates the practical issues in MSN including characteristics inner structural relationship incentive mechanisms resource allocating information diffusion search ranking privacy trust and reputation Introducing recently

developed technologies modes and models the book provides two distinct but related viewpoints about MSN applications socially inspired networking technology and networking technology that uses recent advancements to enhance quality of life The text illustrates the interaction between the macrolevel structure and the local rational behaviors microlevel in MSN It summarizes currently available MSN development platforms including Android and iOS and introduces and categorizes existing applications related to MSN and computing Both location based service LBS and mobile social networks in proximity MSNPs are presented in a comprehensive manner Highlighting key research opportunities this much needed reference outlines incentive mechanisms inspired by classical economics behavioral economics and social psychology and perhaps for the first time it presents a summary of the economic and business models of MSNs [The Foundations of Behavioral Economic Analysis](#) Sanjit Dhami, Sanjit S. Dhami, 2020 This is the sixth volume of focused texts developed from leading textbook The Foundations of Behavioral Economics Authoritative cutting edge and accessible this volume covers bounded rationality **Growth through Competition, Competition through Growth** Hiroyuki Odagiri, 1992-01-23 This book examines two central aspects of Japanese management growth pursuit by internal investment as opposed to acquisition and intensive competition within and between Japanese firms It also looks at how Japanese firms maintain efficiency and flexibility under the apparently rigid system of lifetime employment The author begins by enquiring in to the financial and human aspects of the firm with a particular emphasis placed on the human side The motivation behaviour and organization of Japanese management are discussed and the consequences of Japan s management system on its industrial organization and macroeconomy are examined Throughout the book it is emphasized that competition is at the heart of the Japanese economy and management to the same if not to a greater degree than in the West This competition is enhanced by the growth preference of Japanese management and competition in turn makes growth feasible **Designing Incentive Regulation for the Telecommunications Industry** David E. Sappington, Dennis L. Weisman, 1996 This book applies new advances in economic theory regarding the asymmetry of information between firms and their regulators to the design of improved telecommunications regulation **Handbook of Human Computation** Pietro Michelucci, 2013-12-04 This volume addresses the emerging area of human computation The chapters written by leading international researchers explore existing and future opportunities to combine the respective strengths of both humans and machines in order to create powerful problem solving capabilities The book bridges scientific communities capturing and integrating the unique perspective and achievements of each It coalesces contributions from industry and across related disciplines in order to motivate define and anticipate the future of this exciting new frontier in science and cultural evolution Readers can expect to find valuable contributions covering Foundations Application Domains Techniques and Modalities Infrastructure and Architecture Algorithms Participation Analysis Policy and Security and the Impact of Human Computation Researchers and professionals will find the Handbook of Human Computation a valuable reference tool The breadth of content also provides a

thorough foundation for students of the field *China's Reform: History, Logic, and Future* Guoqiang Tian,Xudong Chen,2022-10-03 This book is about where to go and what to do in China s reform Its comprehensive overview and economic analysis of China s reform offers a coverage not found in other English language text It provides an overview of China s development and reform practice an economic analysis of China s market oriented reform and a brief introduction to the theoretical origin practices and defects of the planned economy In so doing this book demonstrates that the key to the success of China s reform lies in drawing reasonable governance boundaries between government and the market and between government and society It further discusses the basic elements required for modernizing China s state governance system and conducts an analysis of China s reform and development in 13 key fields The analysis is based on three dimensions theoretical logic practical knowledge and a historical perspective This book proposes three elements of comprehensive state governance inclusive economic institutions the state capacity to plan and implement policies and laws and an inclusive and transparent civil society with democracy the rule of law fairness and justice Its analysis also features the novel application of mechanism design theory by employing the two core ideas of information and incentives and a new research methodology consisting of three dimensions and six natures This book reviews and grasps China s reform through a qualitative analysis of economic theories and an empirical analysis of statistics from a historical perspective spanning over 180 years It is proposed to be an important reference for understanding the past present and future of China s reform and teaching about the potential economic superpower It can also serve as an essential resource for those who are interested in China s economic reform and development Behavioral Economics and Smart Decision-Making Ankal

Ahluwalia,2025-01-03 The illustrations in this book are created by Team Educohack Behavioral Economics and Smart Decision Making explores the modern approach to economics emphasizing the impact of psychology and human behavior We delve into various theories within this field including Prospect Theory measurement principles and heuristics and biases Our book also discusses how behavioral management modernizes traditional management practices Designed to enhance understanding this book is an essential resource for anyone interested in the intersection of economics and psychology

Sovereign Debt and Rating Agency Bias D. Tennant,M. Tracey,2017-08-15 Sovereign Debt and Credit Rating Bias rejects the notion that credit rating agencies rigorous and transparent determination of ratings leaves no room for bias and debunks the myth that the value CRAs place on their reputational capital precludes prolonged biases To determine the extent of CRAs biased actions Tennant and Tracey apply a rigorous methodology to a well established economic model of the determinants of sovereign debt quality They present strong evidence of bias against poor countries and demonstrate how biased rating changes could disadvantage such countries and the companies operating therein as they seek access to international capital markets They discuss plausible explanations for the bias and suggest remedial measures that would help ensure balance in credit rating changes This book fills an important gap by rigorously examining a long standing but often ignored concern

about the rating practices of credit rating agencies

Rising Titans, Falling Giants Joshua R. Itzkowitz

Shiffrin,2018-09-15 As a rising great power flexes its muscles on the political military scene it must examine how to manage its relationships with states suffering from decline and it has to do so in a careful and strategic manner In **Rising Titans Falling Giants** Joshua R Itzkowitz Shiffrin focuses on the policies that rising states adopt toward their declining competitors in response to declining states policies and what that means for the relationship between the two **Rising Titans Falling Giants** integrates disparate approaches to realism into a single theoretical framework provides new insight into the sources of cooperation and competition in international relations and offers a new empirical treatment of great power politics at the start and end of the Cold War Shiffrin challenges the existing historical interpretations of diplomatic history particularly in terms of the United States China relationship Whereas many analysts argue that these two nations are on a collision course Shiffrin declares instead that rising states often avoid antagonizing those in decline and highlights episodes that suggest the US China relationship may prove to be far less conflict prone than we might expect

Topics in Microeconomics Elmar Wolfstetter,1999-10-28 This book in microeconomics focuses on the strategic analysis of markets under imperfect competition incomplete information and incentives Part I of the book covers imperfect competition from monopoly and regulation to the strategic analysis of oligopolistic markets Part II explains the analytics of risk stochastic dominance and risk aversion supplemented with a variety of applications from different areas in economics Part III focuses on markets and incentives under incomplete information including a comprehensive introduction to the theory of auctions which plays an important role in modern economics
