Nice Book Algorithmic Life Calculative Devices Data:

Algorithmic Life Louise Amoore,Volha Piotukh,2015-12-22 This book critically explores forms and techniques of calculation that emerge with digital computation and their implications The contributors demonstrate that digital calculative devices matter beyond their specific functions as they progressively shape transform and govern all areas of our life In particular it addresses such questions as How does the drive to make sense of and productively use large amounts of diverse data inform the development of new calculative devices logics and techniques How do these devices logics and techniques affect our capacity to decide and to act How do mundane elements of our physical and virtual existence become data to be analysed and rearranged in complex ensembles of people and things In what ways are conventional notions of public and private individual and population certainty and probability rule and exception transformed and what are the consequences How does the search for hidden connections and patterns change our understanding of social relations and associative life Do contemporary modes of calculation produce new thresholds of calculability and computability allowing for the improbable or the merely possible to be embraced and acted upon As contemporary approaches to governing uncertain futures seek to anticipate future events how are calculation and decision engaged anew Drawing together different strands of cutting edge research that is both theoretically sophisticated and empirically rich this book makes an important contribution to several areas of scholarship including the emerging social science field of software studies and will be a vital resource for students and scholars alike (Dis)Obedience in Digital Societies Sven Quadflieg,Klaus Neuburg,Simon Nestler,2022-03-14 Algorithms are not to be regarded as a technical structure but as a social phenomenon they embed themselves currently still very subtle into our political and social system Algorithms shape human behavior on various levels they influence not only the aesthetic reception of the world but also the well being and social interaction of their users They act and intervene in a political and social context As algorithms influence individual behavior in these social and political situations their power should be the subject of critical discourse or even lead to active disobedience and to the need for appropriate tools and methods which can be used to break the algorithmic power *New Perspectives in Critical Data Studies* Andreas Hepp,Juliane Jarke,Leif Kramp,2022-05-20 This Open Access book examines the ambivalences of data power Firstly the ambivalences between global infrastructures and local invisibilities challenge the grand narrative of the ephemeral nature of a global data infrastructure They make visible local working and living conditions and the resources and arrangements required to operate and run them Secondly the book examines ambivalences between the state and data justice It considers data justice in relation to state surveillance and data capitalism and reflects on the ambivalences between an entrepreneurial state and a welfare state Thirdly the authors discuss ambivalences of everyday practices and collective action in which civil society groups communities and movements try to position the interests of people against the big players in the tech industry The book includes eighteen chapters that provide new and varied perspectives on the role of data and data infrastructures in

our increasingly datafied societies   The ^AOxford Handbook of Digital Technology and Society Simeon Yates,Ronald E. Rice,2020-06-01 The Oxford Handbook of Digital Technology and Society will equip readers with the necessary starting points and provocations in the fields of social science and technology so that students scholars and policy makers can effectively assess future research practice and policy   Digitalization, Data and Welfare Vasilis Galis,Vasileios-Spyridon Vlassis,2025-08-11 This is an open access title available under the terms of a CC BY NC ND 4 0 License It is free to read download and share on Elgaronline This insightful book investigates the growing use of digital technologies to support welfare provision and examines which digital tools can have the greatest impact It explores how these technologies influence and are influenced by social and cultural relations working life education healthcare markets and organizations   **The Everyday Life of an Algorithm** Daniel Neyland,2018-12-17 This open access book begins with an algorithm a set of IF THEN rules used in the development of a new ethical video surveillance architecture for transport hubs Readers are invited to follow the algorithm over three years charting its everyday life Questions of ethics transparency accountability and market value must be grasped by the algorithm in a series of ever more demanding forms of experimentation Here the algorithm must prove its ability to get a grip on everyday life if it is to become an ordinary feature of the settings where it is being put to work Through investigating the everyday life of the algorithm the book opens a conversation with existing social science research that tends to focus on the power and opacity of algorithms In this book we have unique access to the algorithm s design development and testing but can also bear witness to its fragility and dependency on others   **Childcare Provision in Neoliberal Times** Aisling Gallagher,2023-09-12 In the absence of public provision many governments rely on the market to meet childcare demand But who are the actors shaping this market What work do they do to marketize care And what does it mean for how childcare is provided Based on an innovative theoretical framework and an in depth study of the New Zealand childcare market Gallagher examines the problematic growth of private for profit childcare Opening the black box of childcare markets to closer scrutiny this book brings to light the complex political social and economic dynamics behind childcare provisioning   **La comunidad terrestre** Achille Mbembe,2024-05-07 Hablar de la Tierra es tener siempre presente la interdependencia que la habita y que define lo vivo en todas y cada una de sus manifestaciones Los seres humanos y los animales los vegetales y los microbios los virus y las sustancias minerales as como las bacterias e incluso los dispositivos tecnol gicos forman parte del gran mosaico que es la vida en com n en el planeta Sin embargo Mbembe va m s all y acude al ancestral pensamiento animista africano para incluir todas las fuerzas invisibles que nos rodean y con las que tambi n convivimos La insondable riqueza de estas tradiciones le sirve como pie de apoyo para aventurar lo que en vistas a un desastre ecol gico inminente parece m s urgente una nueva forma de relacionarnos con lo que nos rodea La comunidad terrestre representa la culminaci n de la trilog a empezada por Pol ticas de la enemistad tambi n publicada en Ned en la que el autor arriesga una comprensi n de las principales fuerzas de transformaci n de la Tierra y sus habitantes A la luz de lo que

parecer a desafiar la experiencia misma del pensar Mbembe se hace cargo de la realidad de la urgencia que es la realidad de la vulnerabilidad para afirmar que esta Tierra es la siguiente utop a con la que so ar **Digitalizing Consumption** Franck Cochoy,Johan Hagberg,Magdalena McIntyre,Niklas Sörum,2017-07-14 Contemporary consumer society is increasingly saturated by digital technology and the devices that deliver this are increasingly transforming consumption patterns Social media smartphones mobile apps and digital retailing merge with traditional consumption spheres supported by digital devices which further encourage consumers to communicate and influence other consumers to consume Through a wide range of empirical studies which analyse the impact of digital devices this volume explores the digitization of consumption and shows how consumer culture and consumption practices are fundamentally intertwined and mediated by digital devices Exploring the development of new consumer cultures leading international scholars from sociology marketing and ethnology examine the effects on practices of consumption and marketing through topics including big data digital traces streaming services wearables and social media s impact on ethical consumption Digitalizing Consumption makes an important contribution to practice based approaches to consumption particularly the use of market devices in consumers everyday consumer life and will be of interest to scholars of marketing cultural studies consumer research organization and management *Darwin's Medicine* Brian D. Smith,2016-10-14 Darwin s Medicine is the sequel to Brian D Smith s influential and critically acclaimed Future of Pharma Gower 2011 Whereas the earlier book predicted the evolution of the pharmaceutical market and the business models of pharmaceutical companies Darwin s Medicine goes much deeper into the drivers of industry change and how leading pharmaceutical and medical technology companies are adapting their strategies structures and capabilities in practice Through the lens of evolutionary science Professor Smith explores the speciation of new business models in the Life Sciences Industry This sophisticated and highly original approach offers insights into The mechanisms of evolution in this exceptional industry The six great technological and social shifts that are shaping its landscape The emergence of 26 distinct new business models and The lessons that enable firms to direct and accelerate their own evolution These insights map out the industry s complex changing landscape and provide an invaluable guide to those firms seeking to survive and thrive in this dynamic market The book is essential reading for anyone working in or studying the pharmaceutical medical technology and related sectors It provides a unique and novel way of making sense of the transformation we can see going on around us and a practical focused approach to managing a firm s evolutionary trajectory Arts in Context – Kunst, Forschung, Gesellschaft Thomas Gartmann,Christian Pauli,2020-09-04 Forschung entsteht im Dialog Sie baut auf bisheriges Wissen und schafft neues Seit Anfang 2020 erwarten die EU aber auch die F rderinstitutionen in der Schweiz dass die Forschenden ihre Ergebnisse Open Access weltweit und schrankenlos teilen Kehrseite der digitalen Explosion die Open Access erst m glich und auch notwendig gemacht hat ist eine Inflation von Information und Wissen das notorische Datenmeer Speichern des Wissens seine Vernetzung vor allem aber Filtern Fokussieren und Kuratieren hei en die

daraus folgenden heutigen Herausforderungen Gesucht sind hier neue Wegweiser und Kompasse Wie weit Kunsthochschulen und die dort angesiedelte angewandte Forschung Ideen dazu beisteuern k nnen wird in diesem Band ausgelotet mit interdisziplin r versammelten Beitr gen aus den Bereichen Bildungs und Hochschulpolitik angewandte Musik und Interpretationsforschung Digital Humanities und Big Data Bildende Kunst und Kunstgeschichte Ethnografie Health Care und Social Design sthetik und Grafik Nebst klassischen Aufs tzen pr sentiert diese Publikation Filme k nstlerische Beitr ge und genuin digitale Formate wie Blogs oder Podcasts   <u>Contested Concepts in Migration Studies</u> Ricard Zapata-Barrero,Dirk Jacobs,Riva Kastoryano,2021-11-29 This volume demonstrates that migration and diversity related concepts are always contested and provides a reflexive critical awareness and better comprehension of the complex questions driving migration studies The main purpose of this volume is to enhance conceptual thinking on migration studies Examining interaction between concepts in the public domain the academic disciplines and the policy field this book helps to avoid simplification or even trivialization of complex issues Recent political events question established ways of looking at issues of migration and diversity and require a clarification or reinvention of political concepts to match the changing world Applying five basic dimensions each expert chapter contribution reflects on the role concepts play and demonstrates that concepts are ideology dependent policy politics dependent context dependent discipline dependent and language dependent and are influenced by how research is done how policies are formulated and how political debates extend and distort them This book will be essential reading for students scholars and practitioners in migration studies politics migrant integration citizenship studies racism studies and more broadly of key interest to sociology political science and political theory   **Lineages and Advancements in Material Culture Studies** Timothy Carroll,Antonia Walford,Shireen Walton,2020-11-10 This volume comprises a curated conversation between members of the Material Culture Section of University College London Anthropology In laying out the state of play in the field it challenges how the anthropology of material culture is being done and argues for new directions of enquiry and new methods of investigation The contributors consider the ramifications of specific research methods and explore new methodological frameworks to address areas of human experience that require a new analytical approach The case studies draw from a range of contexts including digital objects infrastructure data extraterrestriality ethnographic curation and medical materiality They include timely reappraisals of now classical analytical models that have shaped the way we understand the object the discipline knowledge formation and the artefact   *Is Law Computable?* Simon Deakin,Christopher Markou,2020-11-26 What does computable law mean for the autonomy authority and legitimacy of the legal system Are we witnessing a shift from Rule of Law to a new Rule of Technology Should we even build these things in the first place This unique volume collects original papers by a group of leading international scholars to address some of the fascinating questions raised by the encroachment of Artificial Intelligence AI into more aspects of legal process administration and culture Weighing near term benefits against the longer term and potentially path dependent

implications of replacing human legal authority with computational systems this volume pushes back against the more uncritical accounts of AI in law and the eagerness of scholars governments and LegalTech developers to overlook the more fundamental and perhaps bigger picture ramifications of computable law With contributions by Simon Deakin Christopher Markou Mireille Hildebrandt Roger Brownsword Sylvie Delacroix Lyria Bennet Moses Ryan Abbott Jennifer Cobbe Lily Hands John Morison Alex Sarch and Dilan Thampapillai as well as a foreword from Frank Pasquale **Communication and Economic Life** Liz Moor,2021-11-30 When we talk about media and the economy the economy is usually understood as the macro economy or GDP while the media usually refers to television and print news or the digital output of mainstream news providers But communication about money and the economy in everyday life is far more wide ranging than this It is also changing opportunities to discuss economic matters whether public or personal have proliferated online while new payment systems and shopping platforms embed economic behaviour more deeply into communications infrastructures Challenging earlier narrow definitions this ambitious book offers a new framework for thinking about the role of communication in our economic lives Foregrounding the broader category of communicative practices the book understands economic life not only in terms of the macro economy but more sociologically as a set of processes of providing for material wants and needs How we talk about these wants and needs and our means for meeting them is how we come to understand our economic lives as meaningful The book explores how our economic lives are constructed communicatively in a variety of modes that move through but also exceed mass media from the symbolism of credit cards to the language used by economists and from social media promotion to debates in online forums Communication and Economic Life is a vital resource for students and scholars in media and communications and sociology and for anyone interested in how we talk about economic lives

Understanding Spatial Media Rob Kitchin,Tracey P. Lauriault,Matthew W. Wilson,2017-02-06 Over the past decade a new set of interactive open participatory and networked spatial media have become widespread These include mapping platforms virtual globes user generated spatial databases geodesign and architectural and planning tools urban dashboards and citizen reporting geo systems augmented reality media and locative media Collectively these produce and mediate spatial big data and are re shaping spatial knowledge spatial behaviour and spatial politics Understanding Spatial Media brings together leading scholars from around the globe to examine these new spatial media their attendant technologies spatial data and their social economic and political effects The 22 chapters are divided into the following sections Spatial media technologies Spatial data and spatial media The consequences of spatial media Understanding Spatial Media is the perfect introduction to this fast emerging phenomena for students and practitioners of geography urban studies data science and media and communications **Other Geographies** Sharad Chari,Susanne Freidberg,Vinay Gidwani,Jesse Ribot,Wendy Wolford,2017-07-27 An international group of distinguished scholars pay homage to and build on the work of one of the most influential thinkers of our time Michael Watts Shows how Michael Watts research writings teaching and mentoring have

relentlessly pushed boundaries transforming his chosen field of geography and beyond Spans an array of topics including the political economy and ecology of African societies governmentality and territoriality in various Southern contexts food security cultural materialist expositions of capitalism modernity and development across the postcolonial world Builds on his legacy exploring its theoretical analytical and empirical implications and proposing exciting new possibilities for further exploration in the tracks of Watts   **Tokens** Rachel O'Dwyer,2023-10-03 Longlisted for the FT Schroders Business Book of the Year Award 2023 A BEST BOOK OF THE YEAR GQ Los Angeles Times Wired Wherever you look money is being re placed by tokens Digital platforms are issuing new kinds of money like things phone credit shares gift vouchers game tokens customer data the list goes on But what does it mean when online platforms become the new banks What new types of control and discrimination emerge when money is tied to specific apps or actions politics or identities Tokens opens up this new and expanding world Exploring the history of extra monetary economies Rachel O Dwyer shows that private and grassroots tokens have always haunted the real economy But as the large tech platforms issue new money like instruments tokens are suddenly everywhere Amazon s Turk workers are getting paid in gift cards Online streamers trade in wishlists Foreign remittances are sent via phone credit Bitcoin gift cards NFTs customer data and game tokens are the new money in an evolving economy It is a development challenging the balance of power between online empires and the state Tokens may offer a flexible even subversive route to compensation But for the platforms them selves they can be a means of amassing frightening new powers An essential read for anyone concerned with digital money inequality and the future of the economy

   Traveling Expertise and Regional Development Andreas Öjehag-Pettersson,Tomas Mitander,2020-03-06 This book analyses an increasingly important phenomenon in contemporary regional development namely traveling expertise and policy ideas Drawing on the fields of urban and regional development and informed by the emerging school of governmentality studies it offers a theoretically and empirically original exploration of this subject and of the linkages between local and global contexts and their interplay more broadly Symbolically denoting the traveling expertise as hired guns the book explores different segments of the political sphere from policy consultants and the creative class to the polity apparatuses in which policies are recalibrated The book presents a unique assessment of how this external expertise impacts on regional development in terms of power politics and governance Traveling Expertise and Regional Development will be a valuable resource for scholars policymakers and advanced students interested in regional development public management and public policy   *The Politics and Policies of Big Data* Ann Rudinow Sætnan,Ingrid Schneider,Nicola Green,2018-05-08 Big Data gathered together and re analysed can be used to form endless variations of our persons so called data doubles Whilst never a precise portrayal of who we are they unarguably contain glimpses of details about us that when deployed into various routines such as management policing and advertising can affect us in many ways How are we to deal with Big Data When is it beneficial to us When is it harmful How might we regulate it Offering careful and critical analyses this timely volume aims

to broaden well informed unprejudiced discourse focusing on the tenets of Big Data the politics of governance and regulation and Big Data practices performance and resistance An interdisciplinary volume The Politics of Big Data will appeal to undergraduate and postgraduate students as well as postdoctoral and senior researchers interested in fields such as Technology Politics and Surveillance

Thank you for reading **Nice Book Algorithmic Life Calculative Devices Data**. As you may know, people have search hundreds times for their chosen books like this Nice Book Algorithmic Life Calculative Devices Data, but end up in malicious downloads.

Rather than reading a good book with a cup of coffee in the afternoon, instead they are facing with some infectious bugs inside their laptop.

Nice Book Algorithmic Life Calculative Devices Data is available in our book collection an online access to it is set as public so you can get it instantly.

Our books collection hosts in multiple locations, allowing you to get the most less latency time to download any of our books like this one.

Merely said, the Nice Book Algorithmic Life Calculative Devices Data is universally compatible with any devices to read
