Nice Book Conflict Commerce Maritime East Asia:

Conflict and Commerce in Maritime East Asia Xing Hang, 2016-01-05 The Zheng family of merchants and militarists emerged from the tumultuous seventeenth century amid a severe economic depression a harrowing dynastic transition from the ethnic Chinese Ming to the Manchu Qing and the first wave of European expansion into East Asia Under four generations of leaders over six decades the Zheng had come to dominate trade across the China Seas Their average annual earnings matched and at times exceeded those of their fiercest rivals the Dutch East India Company Although nominally loyal to the Ming in its doomed struggle against the Manchus the Zheng eventually forged an autonomous territorial state based on Taiwan with the potential to encompass the family's entire economic sphere of influence Through the story of the Zheng Xing Hang provides a fresh perspective on the economic divergence of early modern China from western Europe its twenty first century resurgence and the meaning of a Chinese identity outside China [Conflict and Commerce in Maritime East Asia](#)

Xing Hang, 2016 A major new interpretation of the Zheng family of merchants and militarists who dominated the seventeenth century China Seas

Great Power Clashes along the Maritime Silk Road Grant Frederick Rhode, 2023-10-15 Current concerns in maritime Eurasia are centered on rising powers China and India By way of background to understanding the current regional great power rivalry within maritime Eurasia this book asks what we can learn from historic Eurasian maritime geopolitical players and their interactions that will inform and enlighten today's international relations practitioners Great Power Clashes along the Maritime Silk Road examines three seminal historical cases of maritime clashes in the China Seas four in the Indian Ocean and one in the eastern Mediterranean Sea Each of these is an example of local or regional conflict reflecting the circumstances of time and place The cases have been chosen to provide a comparative framework of significant premodern maritime clashes distributed along the full Eurasian maritime perimeter Lessons include understanding struggles between continental and maritime powers in Eurasia and understanding the decisive impact that naval leadership intelligence technology alliances and identity have had in the past and will have on the future *In Asian Waters* Eric Tagliacozzo, 2024-10-29 A sweeping account of how the sea routes of Asia have transformed a vast expanse of the globe over the past five hundred years powerfully shaping the modern world In the centuries leading up to our own the volume of traffic across Asian sea routes an area stretching from East Africa and the Middle East to Japan grew dramatically eventually making them the busiest in the world The result was a massive circulation of people commodities religion culture technology and ideas In this book Eric Tagliacozzo chronicles how the seas and oceans of Asia have shaped the history of the largest continent for the past half millennium leaving an indelible mark on the modern world in the process Paying special attention to migration trade the environment and cities In Asian Waters examines the long history of contact between China and East Africa the spread of Hinduism and Buddhism across the Bay of Bengal and the intertwined histories of Islam and Christianity in the Philippines The book illustrates how India became central to the spice trade how the Indian Ocean became

a British lake between the seventeenth and nineteenth centuries and how lighthouses and sea mapping played important roles in imperialism The volume ends by asking what may happen if China comes to rule the waves of Asia as Britain once did A novel account showing how Asian history can be seen as a whole when seen from the water In Asian Waters presents a voyage into a past that is still alive in the present *Going the Distance* Ron Harris,2020-02-11 A historical look at the early evolution of global trade and how this led to the creation and dominance of the European business corporation Before the seventeenth century trade across Eurasia was mostly conducted in short segments along the Silk Route and Indian Ocean Business was organized in family firms merchant networks and state owned enterprises and dominated by Chinese Indian and Arabic traders However around 1600 the first two joint stock corporations the English and Dutch East India Companies were established *Going the Distance* tells the story of overland and maritime trade without Europeans of European Cape Route trade without corporations and of how new large scale and impersonal organizations arose in Europe to control long distance trade for more than three centuries Ron Harris shows that by 1700 the scene and methods for global trade had dramatically changed Dutch and English merchants shepherded goods directly from China and India to northwestern Europe To understand this transformation Harris compares the organizational forms used in four major regions China India the Middle East and Western Europe The English and Dutch were the last to leap into Eurasian trade and they innovated in order to compete They raised capital from passive investors through impersonal stock markets and their joint stock corporations deployed more capital ships and agents to deliver goods from their origins to consumers *Going the Distance* explores the history behind a cornerstone of the modern economy and how this organizational revolution contributed to the formation of global trade and the creation of the business corporation as a key factor in Europe s economic rise *Imperial Gateway* Seiji Shirane,2022-12-15 In *Imperial Gateway* Seiji Shirane explores the political social and economic significance of colonial Taiwan in the southern expansion of Japan s empire from 1895 to the end of World War II Challenging understandings of empire that focus on bilateral relations between metropole and colonial periphery Shirane uncovers a half century of dynamic relations between Japan Taiwan China and Western regional powers Japanese officials in Taiwan did not simply take orders from Tokyo rather they often pursued their own expansionist ambitions in South China and Southeast Asia When outright conquest was not possible they promoted alternative strategies including naturalizing resident Chinese as overseas Taiwanese subjects extending colonial police networks and deploying tens of thousands of Taiwanese to war The Taiwanese merchants gangsters policemen interpreters nurses and soldiers seized new opportunities for socioeconomic advancement that did not always align with Japan s imperial interests Drawing on multilingual archives in six countries *Imperial Gateway* shows how Japanese officials and Taiwanese subjects transformed Taiwan into a regional gateway for expansion in an ever shifting international order Open Access edition funded by the National Endowment for the Humanities **Island Disputes and Maritime Regime Building in East Asia** Min Gyo Koo,2010-05-06 islands has emotional content far beyond any

material significance because giving way on the island issue to Japan would be considered as once again compromising the sovereignty over the whole Korean peninsula For Japan the Dokdo issue may lack the same degree of strategic and economic values and emotional appeal as the other two territorial disputes that Japan has had with Russia and the two Chinas namely the Northern Territories Southern Kurile Islands and the Senkaku Islands respectively Nevertheless fishing resources and the maritime boundary issues became highly salient with the introduction of UNCLOS Also the legal political and economic issues surrounding Dokdo are all intertwined with Japan s other territorial disputes to the extent that concessions of sovereignty on any of these island disputes could jeopardize claims or negotiations concerning the rest South Korea and Japan have forged a deeper diplomatic and economic partnership over the past decade A new spirit of partnership after the landmark joint declaration of 1998 culminated in the successful co hosting of the World Cup 2002 At the end of 2003 the two neighbors began to negotiate an FTA to further strengthen their already close economic ties South Korea s decades long embargo on Japanese cultural products has now been lifted while a number of South Korean pop stars are currently sweeping across Japan creating the so called Korean Wave fever A pragmatic calculation of national interests would thus suggest cooperative behavior

The Rise And Fall of British Naval Mastery Paul Kennedy, 2017-01-26

Paul Kennedy s classic naval history now updated with a new introduction by the author This acclaimed book traces Britain s rise and fall as a sea power from the Tudors to the present day Challenging the traditional view that the British are natural sons of the waves he suggests instead that the country s fortunes as a significant maritime force have always been bound up with its economic growth In doing so he contributes significantly to the centuries long debate between continental and maritime schools of strategy over Britain s policy in times of war Setting British naval history within a framework of national international economic political and strategic considerations he offers a fresh approach to one of the central questions in British history A new introduction extends his analysis into the twenty first century and reflects on current American and Chinese ambitions for naval mastery Excellent and stimulating

Militarisation in East Asia. Considerations from the Works of Thucydides and Alfred Thayer

Mahan Steve Micallef, 2017-03 I believe China seeks hegemony in East Asia Simple as that Such were the words Admiral Harry Harris Commander U S Pacific Command PACOM used to describe Chinese actions in East Asia After two decades of effort towards modernization it seems that the People s Liberation Army Navy PLAN is in a position to challenge US primacy in East Asia The PLAN has developed both in terms of capability and strategy through its emphasis on Anti Access Area Denial A2 AD and blue water forces embracing Alfred Thayer Mahan s ideas on access and sea control What we are witnessing in China is a shift in thinking from a continental viewpoint to a maritime one After a decade of wars in the Middle East the US has been taken by surprise Today it looks at China s naval build up as threatening The US has taken steps to refocus its attention on East Asia and meet the challenge of a contested sea The dynamics of the Sino American relation will also be examined through the lens of Thucydides and his ideas of great power This study discusses Mahan s and Thucydides influence on Chinese and American ways of thinking and whether it will impact the future trajectory of the Sino American relationship The main developments in capability and strategy on both sides will also be examined **Security, Arms**
