Published in conjunction with the exhibition Diana Thater The Sympathetic Imagination at the Los Angeles County Museum of Art Los Angeles California November 22 2015 February 21 2016 Colophon Atmospheres of Projection Giuliana Bruno, 2022-10-13 Following on the success of Surface Bruno's previous book with us in this new one she explores the act and art of projection in its manifold guises and what those can tell us about how we think and feel and create the world we inhabit This is not just an exploration of the psychological operation of projection the idea that we cast onto others the qualities we refuse to acknowledge in ourselves It is a major work of cultural history and media archaeology As a way to transform space and atmosphere projection has a long history in the arts dating back to shadow plays camera obscuras magic lantern shows and phantasmagoria But the atmosphere of projection is not a thing of the past alone It is alive and well today It continues to fascinate us as screens filled with moving figures pervade the spaces of the art gallery and the museum as well as the environments of our daily lives What is the root of our fascination How does it manifest in contemporary art How do we define atmosphere How is projection an atmosphere Are these two modalities conceptually and historically related and how so Why are artists today so interested in environments and in elements of projection To explain this continual fascination with projection and atmosphere Bruno traverses psychoanalysis architecture the history of science visual art and moving image culture to see how projective mechanisms and their environments have developed over time
