Klein, 2024-10-27 A guided tour through the nuanced politics of architectural illusion The Vatican to Vegas takes the reader from lavish Baroque fantasies of the seventeenth century to the Electronic Baroque of today The scripted spaces described by Norman M Klein are punctuated with devices widely used in special effects since 1500 shocks surprise twists grand fakes and copies Since its first publication 2004 The Vatican To Vegas has emerged as a classic across many fields from media and architecture to the fine arts and urban planning Its timing was ironic Klein assumed in 2004 that the future of scripted illusion was about to radically shift This new edition brings the ironic story up to the present and into the digitally overwhelmed scripted spaces of the future *Humanity at the Crossroads* Garth J. Hallett, 2015-06-19 Humanity now stands at a crossroads between a world of unimaginable wonders and one of unprecedented terrors The choices we make now will determine not only the shape of our future but whether there will be for us as a species a future at all But if we are at such a crossroads are we even properly aware of it Governed by instincts rooted in the past are we prepared to see what we need to see to do what we need to do As technology evolves so must we but how and in what direction Are we unavoidably fated to trade liberty for security in ridding the world of terror and war Humanity at the Crossroads attempts to answer all of these critical questions while opening the dialogue for further debate It arrives in the process at the startling conclusion that the
