B A R R Y   L A T Z E R

STARTING IN THE LATE 1960S, the United States suffered the biggest sustained rise in violent crime in its history. In some locales, people dreaded leaving their homes at any time, day or night, and many Americans spent part of each day literally looking over their shoulders. How could things have gotten so bad? Why did they get better? This book—the definitive history of crime from World War II to the twenty-first century—provides the answers.

*Crime and Justice, Volume 43* Michael Tonry, 2014-12-15 Violent and property crime rates in all Western countries have been falling since the early and mid 1990s after rising in the 1970s and 1980s Few people have noticed the common patterns and fewer have attempted to understand or explain them Yet the implications are essential for thinking about crime control and criminal justice policy more broadly Crime rates in Canada and the United States for example have moved in parallel for 40 years but Canada has neither increased its imprisonment rate nor adopted harsher criminal justice policies The implication is that something other than mass imprisonment zero tolerance policing and three strikes laws explains why crime rates in our time are falling The essays in this 43rd volume of *Crime and Justice* explore the possibilities cross nationally They document the common rises and falls in crime and look at possible explanations including changes in sensitivity to violence generally and intimate violence in particular macro level changes in self control and structural and economic developments in modern states The contributors to this volume include Marcelo Aebi Andromachi Tseloni Eric Baumer Manuel Eisner Graham Farrell Janne Kivivuori Tapio Lappi Seppä Suzy McElrath Richard Rosenfeld Rossella Selmini Nick Tilley and Kevin T Wolff

The Rich Get Richer and the Poor Get Prison Jeffrey Reiman, Paul Leighton, 2023-04-28 For 40 years this classic

text has taken the issue of economic inequality seriously and asked Why are our prisons filled with the poor Why aren't the tools of the criminal justice system being used to protect Americans from predatory business practices and to punish well off people who cause widespread harm This new edition continues to engage readers in important exercises of critical thinking Why has the U S relied so heavily on tough crime policies despite evidence of their limited effectiveness and how much of the decline in crime rates can be attributed to them Why does the U S have such a high crime rate compared to other developed nations and what could we do about it Are the morally blameworthy harms of the rich and poor equally translated into criminal laws that protect the public from harms on the streets and harms from the suites How much class bias is present in the criminal justice system both when the rich and poor engage in the same act and when the rich use their leadership of corporations to perpetrate mass victimization The Rich Get Richer the Poor Get Prison shows readers that much of what goes on in the criminal justice system violates citizens sense of basic fairness It presents extensive evidence from mainstream data that the criminal justice system does not function in the way it says it does nor in the way that readers believe it should The authors develop a theoretical perspective from which readers might understand these failures and evaluate them morally and they do it in a short text written in plain language Readers who are not convinced about the larger theoretical perspective will still have engaged in extensive critical thinking to identify their own taken for granted assumptions about crime and criminal justice as well as uncover the effects of power on social practices This engagement helps readers develop their own worldview New to this edition Presents recent data comparing the harms due to criminal activity with the harms of dangerous but not criminal corporate actions Updates research on class discrimination at every stage of the criminal justice system Updates statistics on crime victimization incarceration and wealth Increased material for thinking critically about criminal justice and criminology New material on global warming and why Black Lives Matter protests did not cause increases in crime in 2020 Expanded discussion of marijuana and drug legalization Stronger chapter overviews clearer chapter structure and expanded review questions Streamlined and condensed prose for greater clarity

**Criminal (In)Justice** Rafael A. Mangual, 2022-07-26 In his impassioned yet measured book Rafael A Mangual offers an incisive critique of America's increasingly radical criminal justice reform movement and makes a convincing case against the pursuit of justice through mass decarceration and depolicing After a summer of violent protests in 2020 sparked by the deaths of George Floyd Breonna Taylor and Rayshard Brooks a dangerously false narrative gained mainstream acceptance Criminal justice in the United States is overly punitive and racially oppressive But the harshest and loudest condemnations of incarceration policing and prosecution are often shallow

and at odds with the available data And the significant harms caused by this false narrative are borne by those who can least afford them black and brown people who are disproportionately the victims of serious crimes In *Criminal In Justice* Rafael A Mangual offers a more balanced understanding of American criminal justice and cautions against discarding traditional crime control measures A powerful combination of research data driven policy journalism and the author s lived experiences this book explains what many reform advocates get wrong and illustrates how the misguided commitment to leniency places America s most vulnerable communities at risk The stakes of this moment are incredibly high Ongoing debates over criminal justice reform have the potential to transform our society for a generation for better or for worse Grappling with the data and the sometimes harsh realities they reflect is the surest way to minimize the all too common injustices plaguing neighborhoods that can least afford them

Injustice for All Chris Surprenant, Jason Brennan, 2019-12-06 American criminal justice is a dysfunctional mess Cops are too violent the punishments are too punitive and the so called Land of the Free imprisons more people than any other country in the world Understanding why means focusing on color not only on black or white which already has been studied extensively but also on green The problem is that nearly everyone involved in criminal justice including district attorneys elected judges the police voters and politicians faces bad incentives

Local towns often would rather send people to prison on someone else's dime than pay for more effective policing themselves. Local police forces can enrich themselves by turning into warrior cops who steal from innocent civilians. Voters have very little incentive to understand the basic facts about crime or how to fix it and vote accordingly. And politicians have every incentive to cater to voters' worst biases. Injustice for All systematically diagnoses why and where American criminal justice goes wrong and offers functional proposals for reform. By changing who pays for what, how people are appointed, how people are punished, and which things are criminalized, we can make the US a country which guarantees justice for all. Key Features: Shows how bad incentives, not bad apples, cause the dysfunction in American criminal justice. Focuses not only on overincarceration but on overcriminalization and other failures of the criminal justice system. Provides a philosophical and practical defense of reducing the scope of what's considered criminal activity. Crosses ideological lines, highlighting both the weaknesses and strengths of liberal, conservative, and libertarian agendas. Fully integrates tools from philosophy and social science, making this stand out from the many philosophy books on punishment on the one hand and the solely empirical studies from sociology and criminal science on the other. Avoids disciplinary jargon, broadening the book's suitability for students and researchers in many different fields and for an interested general readership. Offers plausible reforms that realign specific incentives with the public good.

*Handbook on Crime and Deviance* Marvin D. Krohn, Nicole Hendrix, Gina Penly Hall, Alan J. Lizotte, 2019-08-28. This 2nd edition of the Handbook provides an interdisciplinary coverage of new understandings of the most important developments in the sociology of crime and deviance that is current and emerging for research methodology, practice, and theory in criminology. It fosters research to take the fields of criminology and criminal justice in new directions. Unlike any other handbook, it includes chapters on cutting-edge quantitative data and analytical techniques that are shaping the future of empirical research and expanding theoretical explanations of crime and deviance. It further devotes a section to the most current and innovative methodological issues. Chapters are updated, providing an inclusive discussion of the current research and the theoretical and empirical future of crime and deviance. This handbook is of great interest for advanced undergraduates, graduates, students, researchers, and scholars in criminology, criminal justice, sociology, and related fields such as social welfare, economics, and psychology.

**The Policing Web** Jean-Paul Brodeur, 2010-09-30. Nearly all research devoted to policing focuses on public uniformed police and their legal use of force. An overwhelming amount of this work draws on evidence from Anglo-American police forces. These twin emphases have led to a limited view. Agencies such as criminal investigation units, intelligence services, private security companies, and military policing organizations have almost entirely escaped scholarly attention. In *The Policing Web*, Jean-Paul Brodeur looks at policing as a whole. He illuminates its full diversity, showing how it extends far beyond the confines of public police working in uniform and visible to all. Brodeur considers military policing both when it complements the values of democracy and when it does not. He also discusses criminal individuals acting as police informants and criminal organizations enforcing their own

rules in urban zones deserted by the police Brodeur argues that the diverse strands of the policing web are united by a common definition that emphasizes the license granted to policing agencies legally or with impunity to use means otherwise forbidden to the rest of the population Employing an international and comparative approach Brodeur establishes a comprehensive model that links all the components of policing The policing web however is not a neat and well integrated structure There is not just one policing web There are several depending on the country police history and culture and the various public images of policing These often overlooked factors are essential components of the context of policing Wide ranging and authoritative The Policing Web expands the very idea of what policing is and how it works and presents a novel yet fundamental understanding of law enforcement *Federal Register*, 2012-05 Suffer the Children Gary Scott Smith, Jane Marie Smith, 2017-01-31 We all say that we care about children We all know that millions of children around the world including in the United States are suffering physically materially and emotionally and are unable to reach their full potential Moreover their material deprivation and physical ills often prevent them from responding to the gospel Most of us conclude that we cannot do anything significant to help the impoverished children living in our own backyards let alone those living in the slums of Nairobi or the hinterlands of Haiti We can however do much to improve their lives materially and spiritually Through praying giving generously sponsoring children volunteering with aid organizations living more simply investing and shopping more prudently and advocating more zealously in the political arena we can make a difference We can prod politicians business executives and church leaders to prioritize aiding destitute children We can support one of the hundreds of organizations that are working effectively to help indigent children have better lives Suffer the Children describes the plight of poor children and provides many practical ways we can participate in one of the most important crusades to improve our world **Americana** Knut Holtsträter, Sascha Pöhlmann, 2024 The essay collection *Americana* poses the basic question of how American music can be described and analyzed as such as American music Situated at the intersection between musicology and American Studies the essays focus on the categories of aesthetics authenticity and performance in order to show how popular music is made American from Alaskan hip hop to German Schlager from Creedence Clearwater Revival to film scores from popular opera to U2 from the Rolling Stones to country rap and from Steve Earle to the Trans Chorus of Los Angeles *Prisons, Race, and Masculinity in Twentieth-century U.S. Literature and Film* Peter Caster, 2008 In *Prisons Race and Masculinity* Peter Caster demonstrates the centrality of imprisonment in American culture illustrating how incarceration an institution inseparable from race has shaped and continues to shape U S history and literature in the starkest expression of what W E B DuBois famously termed the problem of the color line A prison official in 1888 declared that it was the freeing of slaves that actually created prisons we had to establish means for their control Hence came the penitentiary Such rampant racism contributed to the criminalization of black masculinity in the cultural imagination shaping not only the identity of prisoners collectively and individually but also America's national character

Caster analyzes the representations of imprisonment in books films and performances alternating between history and fiction to describe how racism influenced imprisonment during the decline of lynching in the 1930s the political radicalism in the late 1960s and the unprecedented prison expansion through the 1980s and 1990s Offering new interpretations of familiar works by William Faulkner Eldridge Cleaver and Norman Mailer Caster also engages recent films such as American History X The Hurricane and The Farm Life Inside Angola Prison alongside prison history chronicled in the transcripts of the American Correctional Association This book offers a compelling account of how imprisonment has functioned as racial containment a matter critical to U S history and literary study
