Walter Melion, Michael Zell, Joanna Woodall, 2017-11-06

Ut pictura amor

The Reflexive Imagery of Love in Artistic Theory and Practice

1500 1700 examines the related themes of lovemaking and image making in the visual arts of Europe China Japan and Persia

The term reflexive is here used to refer to images that invite reflection not only on their form function and meaning but also on their genesis and mode of production

Early modern artists often fashioned reflexive images and effigies of this kind that appraise love by exploring the lineaments of the pictorial or sculptural image and complementarily appraise the pictorial or sculptural image by exploring the nature of love

Hence the book s epigraph ut pictura amor as is a picture so is love
