, **The Economic Turn** Steven Kaplan, Sophus Reinert, 2019-01-16 The mid eighteenth century witnessed what might be dubbed an economic turn that resolutely changed the trajectory of world history The discipline of economics itself emerged amidst this turn and it is frequently traced back to the work of François Quesnay and his school of Physiocracy Though lionized by the subsequent historiography of economics the theoretical postulates and policy consequences of Physiocracy were disastrous at the time resulting in a veritable subsistence trauma in France This galvanized relentless and diverse critiques of the doctrine not only in France but also throughout the European world that have hitherto been largely neglected by scholars Though Physiocracy was an integral part of the economic turn it was rapidly overcome both theoretically and practically with durable and important consequences for the history of political economy The Economic Turn brings together some of the leading historians of that moment to fundamentally recast our understanding of the origins and diverse natures of political economy in the Enlightenment **The Women of Bonnefoi** Frieda Harmsen, 1980

A Critical History of Photography in the Netherlands Saskia Asser, 2007 The themes of the Dutch Eyes exhibition were chosen for their significance to the history of photography as well as to the country's cultural history Areas of particular interest include distinctive 19th century photographs taken by engineers the debate about photography's status as an art form at the start of the 20th century the catastrophic flood in 1953 the former colonies and U 2018 the self critical gaze This thematic approach makes it possible to see work by famous photographers alongside work by unknown figures who wielded the camera The exhibition includes an abundance of work that has never previously been shown from collections including those of the Rijksmuseum Stedelijk Museum Amsterdam Leiden University's Print Room Amsterdam City Archives and the Nederlands Fotomuseum *Fotografie in Nederland 1920-1940* Flip Bool, 1979 Nieuwe algemene konst- en letter-bode, 1792 Nederlandsche spectator, 1861 **Kunstkronijk**, 1865 **Weekblad voor Indië**, 1910 **The Visible World** Thijs Weststeijn, 2008 How did painters and their public speak about art in Rembrandt's age This book about the writings of the painter poet Samuel van Hoogstraten one of Rembrandt's pupils examines a wide variety of themes from painting practice and theory from the Dutch Golden Age It addresses the contested issue of Dutch realism and its hidden symbolism as well as Rembrandt's concern with representing emotions in order to involve the spectator Diverse aspects of imitation and illusion come to the fore such as the theory behind sketchy or rough brushwork and the active role played by the viewer's imagination Taking as its starting point discussions in Rembrandt's studio this unique study provides an ambitious overview of Dutch artists' ideas on painting **General Catalogue of Printed Books** British Museum.
