Ontstaan En Ontwikkeling Van Het Moderne Kapitalisme:

Towards a New International Monetary Order Koen Bytтеbier, 2017-05-25 This book presents a thorough and critical evaluation of the monetary and financial system prevalent in Western economies Further it seeks to explain why this system so often leads to financial crises and why they have been dealt with unsatisfactorily in the past In order to provide answers to these questions the book investigates the monetary and financial system from a multidisciplinary perspective with a strong focus on the ethical value choices which throughout history have shaped the monetary and financial legal system In the closing chapters the book also advances a detailed proposal for a New Global Monetary Order one based on altruism as an alternative to the neoliberal values dominant today

De onzichtbare hand boven België. Een economische geschiedenis. René De Preter, 2016-02-10 De achttiende eeuwse moraalfilosoof en verlichtingsdenker denker Adam Smith dacht dat het nastreven van eigenbelang in een vrije markt naar evenwicht werd geleid door een onzichtbare hand Later werd die markt veel meer gereguleerd en nam de rol van de overheid toe Tot een aantal economen en politici vonden dat de overheid moest terugtreden en plaatsmaken voor de krachten van de vrije markt Vanaf de jaren 1980 werd die liberale gedachte in de praktijk gebracht ook in België Tegelijk streefden Europese staten naar een eenheidsmarkt en werden handelsbelemmeringen op wereldschaal opgeheven De globalisering greep om zich heen Dit boek brengt deze evolutie in beeld en zoomt nader in op de gevolgen voor België Het is een economische geschiedenis die niet eerder werd gepubliceerd een ontdekkingstocht door het labyrint van economische en maatschappelijke gebeurtenissen

 of the development of the Protestant modernist movement in Dutch religious social cultural and political life between 1870
 and 1940 In historiography the liberal Protestant community is said to have lost appeal and influence in these decades due to
 a lack of theological clarity inner harmony and organisation Analysing liberal Protestants self perception vis vis Christian
 orthodoxy self understanding as a faith community attitude towards other alternatives to orthodoxy class consciousness
 literary criticism political commitment and involvement with foreign mission Krijger challenges this view Making an
 international comparison he argues that the Dutch modernist movement failed to make headway primarily due to liberal
