thought for understanding the complexities of the contemporary political world It adopts a double methodological strategy by reconstructing a genealogical conceptual journey showing the development of international law as well as introducing an interpretation of cosmopolitanism centred on Kant's theory of a metaphysics of freedom The result is a novel focus on Kant's notion of the world republic The hypothesis here defended is that the world republic stands as a way of thinking about international politics where the possibility of progression towards peace results from its use as a regulative idea **Los**
