Adventures in Spirituality Robert P. Vande Kappelle,2020-02-17 Contrary to popular culture the goal of life is not happiness but meaning Those who seek happiness by trying to avoid or finesse conflict suffering doubt and change will find life increasingly superficial Feeling good is a flawed measure of life but living meaningfully is transformative for then one is living a developmental rather than a regressive agenda The ego does whatever it can to make itself comfortable whereas spirituality is about wholeness Adventures in Spirituality represents the culmination of Dr Vande Kappelle s forty year teaching career incorporating in one volume his views on topics as varied as theology Christology biblical interpretation spirituality ethics world religions religion and science faith and reason and church history Reared in Costa Rica the son of missionary parents Dr Vande Kappelle describes his journey from belief to faith as a transition from precritical to postcritical understanding from evangelical Christianity to what he calls alternative orthodoxy Narrating the shift from first to second half of life experience he introduces readers to core principles that shaped his values thinking and way of life Useful for individual or group study Adventures in Spirituality encourages readers to take risks with their lives and faith affirming that this is how one grows spiritually

Sense Knowledge and the Challenge of Italian Renaissance Art Giles Knox,2025-10-01 Giles Knox examines how El Greco Vela zquez and Rembrandt though a disparate group of artists were connected by a new self consciousness with respect to artistic tradition In particular Knox considers the relationship of these artists to the art of Renaissance Italy and sets aside nationalist art histories in order to see the period as one of fruitful exchange Across Europe during the seventeenth century artists read Italian inspired writings on art and these texts informed how they contemplated their practice Knox demonstrates how these three artists engaged dynamically with these writings incorporating or rejecting the theoretical premises to which they were exposed Additionally this study significantly expands our understanding of how paintings can activate the sense of touch Knox discusses how Vela zquez and Rembrandt though in quite different ways sought to conjure for viewers thoughts about touching that resonated directly with the subject matter they depicted
