Online Making Soviet Intelligentsia Universities Intellectual:

Making the Soviet Intelligentsia Benjamin Tromly, 2013-12-19 Making the Soviet Intelligentsia explores the formation of educated elites in Russian and Ukrainian universities during the early Cold War In the postwar period universities emerged as training grounds for the military industrial complex showcases of Soviet cultural and economic accomplishments and valued tools in international cultural diplomacy However these famed Soviet institutions also generated conflicts about the place of intellectuals and higher learning under socialism Disruptive party initiatives in higher education from the xenophobia and anti Semitic campaigns of late Stalinism to the rewriting of history and the opening of the USSR to the outside world under Khrushchev encouraged students and professors to interpret their commitments as intellectuals in the Soviet system in varied and sometimes contradictory ways In the process the social construct of intelligentsia took on divisive social political and national meanings for educated society in the postwar Soviet state

The Russian Intelligentsia

Sibelan Forrester, Olga Partan, 2025-04-29 The Russian intelligentsia is the historic phenomenon of an educated opposition and it has provoked a substantial body of Russian and Western publications This book focuses on the intelligentsia's Myth Mission Metamorphosis as discovered in literature journalism and theater The chapters define essential elements of the myth of the intelligentsia as a distinctive social group and a spiritual formation claiming high moral standards and expectations for the self and for society Second contributions explore how the intelligentsia sees its mission on various historical stages as inextricably linked with Russia's and the Soviet Union's cultural destiny especially its literary and other artistic creations Finally the volume addresses the metamorphosis of the intelligentsia over centuries as socio political factors shaped its persistence and its perpetual transformation

Stalin Christopher Read, 2016-12-08 This new biography of Stalin offers an accessible and up to date representation of one of the twentieth century's defining figures as well as new insights analysis and illumination to deepen our understanding of his actions intentions and the nature of the power that he wielded Christopher Read examines Stalin's contribution to and impact on Russian and world events in the first half of the twentieth century The biography brings together the avalanche of sources and scholarship which followed the collapse of the system Stalin constructed including the often neglected writings and speeches of Stalin himself In addition to a detailed narrative and analysis of Stalin's rule chapters also cover his early years and humble beginnings in a small town at a remote outpost of the Russian Empire his role in the revolution his relationships with Lenin Trotsky and others in the 1920s and his rise to become one of the most powerful figures in human history The book closes with an account of Stalin's afterlife and legacy both in the immediate aftermath of his death and in the decades since This concise account of Stalin's life is the perfect introduction for students of modern Russian history

Kaji O Grady Stuart W Leslie Brian Lonsway Sean O Halloran Simon Sadler Chris L Smith Nicole Sully Ksenia Tatarchenko William Taylor Julia Tcharfas Albena Yaneva Stelios Zavos *Collapse* Vladislav M. Zubok, 2021-11-30 A major study of the collapse of the Soviet Union showing how Gorbachev's misguided reforms led to its demise A deeply informed account of how the Soviet Union fell apart Rodric Braithwaite Financial Times A masterly analysis Joshua Rubenstein Wall Street Journal In 1945 the Soviet Union controlled half of Europe and was a founding member of the United Nations By 1991 it had an army four million strong with five thousand nuclear tipped missiles and was the second biggest producer of oil in the world But soon afterward the union sank into an economic crisis and was torn apart by nationalist separatism Its collapse was one of the seismic shifts of the twentieth century Thirty years on Vladislav Zubok offers a major reinterpretation of the final years of the USSR refuting the notion that the breakup of the Soviet order was inevitable Instead Zubok reveals how Gorbachev's misguided reforms intended to modernize and democratize the Soviet Union deprived the government of resources and empowered separatism *Collapse* sheds new light on Russian democratic populism the Baltic struggle for independence the crisis of Soviet finances and the fragility of authoritarian state power *Flowers Through Concrete* Juliane Fürst, 2021-03-11 *Flowers through Concrete* Explorations in Soviet Hippieland does what the title promises It takes readers on a journey into a world few knew existed the lives and thoughts of Soviet hippies who in the face of disapproval and repression created a version of Western counterculture skilfully adapting manipulating and shaping it to their late socialist environment As a quasi guide into the underground hippieland readers are situated in the world of hippies firmly in late Soviet reality and are offered an unusual history of the last Soviet decades as well as a case study in the power of transnational youth cultures *Flowers through Concrete* recounts not only a compelling story of survival against the odds hippies were harassed by police shorn of their hair by civilian guards and confined in psychiatric hospitals by doctors who believed non conformism was a symptom of schizophrenia It also advances a surprising argument despite obvious antagonism the land of Soviet hippies and the world of late socialism were not incompatible Indeed Soviet hippies and late socialist reality meshed so well that the hostile yet stable relationship that emerged was in many ways symbiotic Ultimately it was not the KGB but the arrival of capitalism in the 1990s that ended the Soviet hippie sistema *World Yearbook of Education 2026* Katja Brøgger, Hannah Moscovitz, Susan L. Robertson, Jenny J. Lee, 2025-10-31 *World Yearbook of Education 2026* discusses the shifting geopolitics of Higher Education directly engaging with an urgent call to theorize the academy as a site of power politics protest and possibility The volume brings together leading and new generations of thinkers from across the globe who draw on theoretical resources from sociology politics international relations geography gender studies cultural studies and post and decolonial studies Taken together the chapters show how these epistemic resources can help us understand the current state of affairs in higher education and beyond They reflect key dimensions of shifting geopolitics and their impact on higher education multipolar superpower rivalry autocratic populism decolonial justice and digital transformations By anchoring the study of higher

education in prevailing geopolitical tensions the volume seeks to uncover the critical role of the university in contemporary global politics By exploring higher education as a central institution caught within competing visions of world order one rooted in international cooperation another asserting the nation state and yet another challenging the very notion of the university as territorially fixed the book offers a perspective on the university which is in line with pivotal global developments It is a must read book for anyone interested in the new geopolitics of higher education and the future of the university globally

Reconstructing Lenin Tamás Krausz, 2015-02-27 Vladimir Ilyich Lenin is among the most enigmatic and influential figures of the twentieth century While his life and work are crucial to any understanding of modern history and the socialist movement generations of writers on the left and the right have seen fit to embalm him endlessly with superficial analysis or dreary dogma Now after the fall of the Soviet Union and actually existing socialism it is possible to consider Lenin afresh with sober senses trained on his historical context and how it shaped his theoretical and political contributions *Reconstructing Lenin* four decades in the making and now available in English for the first time is an attempt to do just that Tam s Krausz an esteemed Hungarian scholar writing in the tradition of Gy rgy Luk cs Ferenc Tokei and Istv n M sz ros makes a major contribution to a growing field of contemporary Lenin studies This rich and penetrating account reveals Lenin busy at the work of revolution his thought shaped by immediate political events but never straying far from a coherent theoretical perspective Krausz balances detailed descriptions of Lenin s time and place with lucid explications of his intellectual development covering a range of topics like war and revolution dictatorship and democracy socialism and utopianism *Reconstructing Lenin* will change the way you look at a man and a movement it will also introduce the English speaking world to a profound radical scholar

Voices of the Victims Hannes H. Gissurarson, In the 20th century communism claimed the lives of at least 100 million people But often it is regarded with more sympathy than the other deadly totalitarian creed national socialism Despite several plausible accounts of famines mass executions labour camps and oppression many Western intellectuals were either supporters or fellow travellers of the communists This illustrated report is about some of the most noteworthy books travelogues novels memories and historical treatises that came out in the great struggle between totalitarian communism and liberal democracy from the 1917 Bolshevik Revolution onwards

The Art and Science of Making the New Man in Early 20th-Century Russia Yvonne Howell, Nikolai Kremmentsov, 2021-12-02 The idea that morally mentally and physically superior new men might replace the currently existing mankind has periodically seized the imagination of intellectuals leaders and reformers throughout history This volume offers a multidisciplinary investigation into how the new man was made in Russia and the early Soviet Union in the first third of the 20th century The traditional narrative of the Soviet new man as a creature forged by propaganda is challenged by the strikingly new and varied case studies presented here The book focuses on the interplay between the rapidly developing experimental life sciences such as biology medicine and psychology and countless cultural products ranging from film and fiction dolls and museum exhibits to

pedagogical projects sculptures and exemplary agricultural fairs With contributions from scholars based in the United States Canada the UK Germany and Russia the picture that emerges is emphatically more complex contradictory and suggestive of strong parallels with other new man visions in Europe and elsewhere In contrast to previous interpretations that focused largely on the apparent disconnect between utopian new man rhetoric and the harsh realities of everyday life in the Soviet Union this volume brings to light the surprising historical trajectories of new man visions their often obscure origins acclaimed and forgotten champions unexpected and complicated results and mutual interrelations In short the volume is a timely examination of a recurring theme in modern history when dramatic advancements in science and technology conjoin with anxieties about the future to fuel dreams of a new and improved mankind **The White Nights** Boris Sokoloff,1959

European spirit, adaption to market economy and national identity in Poland and Ukraine Matthias Reichhard,2008-05-07 Inhaltsangabe Abstract The major objective of this work is besides economic considerations to estimate how far Poland and Ukraine have grown on the social and cultural EI path layer of inter country convergence which is assumedly even more difficult to achieve than consensus in an economic and political state union what are the causes of the present state of

evolution and what inferences for future transformations steps can be deduced thereof In terms of more specific terms of reference so to speak research question antedating each chapter of the corpus the author posed the following hypothesis In the section about national identities the embracing question is the following since it is suspected that the course of history of both nations observed moulded the tangible layers of NC and thus indirectly the development of mental EU convergence Hypothesis 1 Design and intensity of national identity contribute to Polish and Ukrainian aggregated opinion about their home countries role on the European theatre and general emotions about the contact to Europe In order to be able to proceed solidly on the territory of BHN the frame of research is meant to be solidified by retrieving answers to whether the very existence of needs varies across nations or merely their degree of intensity by claiming the following fact Hypothesis 2 The scan of advertising in Poland Pl and Ukraine Uk reveals types of human needs which are not part in commonly cited BHN theories in other words human needs are culture specific instead of universal The structure and intensity of BHN like in the case of other features alongside the N B V A Needs Beliefs Values Attitudes axis are a fairly difficult entity to seize what may be observed and thus measured at utmost is when the bearer satisfies a need by an overt action e g when he buys soap to satisfy his needs of body spruceness However purchase decisions are decided by so many factors e g branding packaging CRM Customer Relations Management etc that it seems more rewarding to observe what conditions of internal tension are activated by advertising as intermediate entity and possible incentive of acquiring the item promoted Hypothesis 3 Advertising of fast moving resp durable consumer goods delivers indications on single elements of Poles and Ukrainians human need structure Experts of transformations studies commonly consider a brisk small business sector and salubrious

CSA Political Science & Government, 2005 **The Autobiography of W. E. B. DuBois** W. E. B. Du Bois, 2013-09-01

The present volume is quite different from the other two autobiographies by Du Bois not only because of its additional two decade span and the significantly altered outlook of its author but also because in it unlike the others he seeks as he writes to review my life as frankly and fully as I can Of course with the directness and honesty which so decisively characterized him he reminds the reader of this book of the intense subjectivity that inevitably permeates autobiography hence he writes he offers this account of his life as he understood it and as he would like others to believe it to have been Certainly while Dr Du Bois was deep in his ninth decade when he died longevity was the least remarkable feature of his life As editor author lecturer scholar organizer inspirer and fighter he was among the most consequential figures of the twentieth century Necessarily therefore the full and final accounting of that life and his times becomes an indispensable volume
