Windeatt,2017-06-29 Language teachers competencies in computer assisted language learning CALL are a crucial factor affecting their own implementation of CALL However there is still a concern that many language teachers are not adequately prepared to make effective use of CALL or to identify and evaluate potential CALL solutions This can be the result of many different factors and raises the question of how to train teachers to develop their CALL knowledge and skills to a greater degree The discussion of approaches to training language teachers in the use of technology adopted in areas of Australia the UK and the US provides valuable insights for those already involved in this area and inspiration for those who have some interest in carrying out this kind of training but as yet have little or no experience This book explores the current status of CALL teacher education and discusses issues and challenges CALL teacher educators face in their own contexts Specifically it looks at postgraduate CALL courses offered at different universities to find ways of improving CALL teacher training It represents the first overview of a topic that is relevant to most postgraduate courses in Applied Linguistics or TESOL across the globe The use of technology for language learning and teaching is increasingly common but as is so often the case training for teachers in how to use that technology remains limited to a large extent by lack of expertise among trainers

**Teaching Languages Online** Carla Meskill,Natasha Anthony,2015-07-30 This new edition of Teaching Languages Online supports the professional development of language educators as they teach all or part of their courses online Containing extensive additions this revised edition includes new models illustrations and heuristics to further support research based conceptualization creativity and practice In non technical prose with emphasis on excellence in pedagogical practice the text takes both the new and experienced language instructor through the nuts and bolts of online teaching practices using a wide range of examples to illustrate these practices As well as providing new resources and models this new edition also considers the impact of broader technological and pedagogical changes including mobility learning on the move and learning in 3D environments     Innovations in online teaching and learning Judah P. Makonye,Nokulunga S.

Ndlovu,2023-03-01 This book s research is on online pedagogical approaches devised by teacher educators and researchers to circumvent a face to face curriculum delivery during the COVID 19 pandemic The challenge faced by educators was that they were uncertain of how to use digital technologies in teaching learning and assessment productively This book reports on

case studies on teaching student teachers with technology in a way that advanced not only communication but also the cognitive growth of students in relation to disciplinary knowledge. The scholars from South African universities used both conceptual and empirical methodologies mostly in qualitative set ups. The scholarly contributions in this book are varied. They cover theoretical nuances for ICT use in education, considerations for the use of computers in the classroom, pedagogical thinking and pedagogical integration of ICTs in education, affordances of iPads in visible teaching and learning, supporting student cognition in Languages, Mathematics, Science, Engineering, Graphics and Design with ICTs. The use of software applications such as GeoGebra and Excel in teaching and learning mathematics is researched among others. The rich discussions that emerged from their research enable academics to learn from others innovative moments that came as a result of pandemic pressure. The recommendations in this book can be used in blended learning beyond the COVID 19 era as curriculum delivery methods are bound to change. The value of this book is that it reports on pedagogical innovations in using digital technologies in teacher education. Researchers have an opportunity to learn from this book how to deal with the tantalising teaching and learning problem of our time. How can the use of digital technology transform teaching and learning in general and teacher education in particular?

**Advanced Methodologies and Technologies in Modern Education Delivery** Khosrow-Pour, D.B.A., Mehdi, 2018-09-21. Recent innovations and new technologies in education have altered the way teachers approach instruction and learning and can provide countless advantages. The pedagogical value of specific technology tools and the cumulative effects of technology exposure on student learning over time are two areas that need to be explored to better determine the improvements needed in the modern classroom. *Advanced Methodologies and Technologies in Modern Education Delivery* provides emerging research on educational models in the continually improving classroom. While highlighting the challenges facing modern in-service and pre-service teachers when educating students, readers will learn information on new methods in curriculum development, instructional design and learning assessments to implement within their classrooms. This book is a vital resource for pre-service and in-service teachers, teacher education professionals, higher education administrative professionals and researchers interested in new curriculum development.

Teaching and Learning Mathematics Online James P. Howard, II, John F. Beyers, 2020-05-10. Online education has become a major component of higher education worldwide. In mathematics and statistics courses, there exists a number of challenges that are unique to the teaching and learning of mathematics and statistics in an online environment. These challenges are deeply connected to already existing difficulties related to math anxiety, conceptual understanding of mathematical ideas, communicating mathematically and the appropriate use of technology. *Teaching and Learning Mathematics Online* bridges these issues by presenting meaningful and practical solutions for teaching mathematics and statistics online. It focuses on the problems observed by mathematics instructors currently working in the field who strive to hone their craft and share best practices with our professional community. The book provides a set of standard practices improving the quality of online

teaching and the learning of mathematics Instructors will benefit from learning new techniques and approaches to delivering content Features Based on the experiences of working educators in the field Assimilates the latest technology developments for interactive distance education Focuses on mathematical education for developing early mathematics courses
