Online Political Psyche Andrew Samuels:

The Political Psyche Andrew Samuels, 2015-09-21 What can depth psychology and politics offer each other In *The Political Psyche* Andrew Samuels shows how the inner journey of analysis and psychotherapy and the passionate political convictions of the outer world are linked He brings an acute psychological perspective to bear on public themes such as the market economy environmentalism nationalism and anti-Semitism But true to his aim of setting in motion a two way process between depth psychology and politics he also lays bare the hidden politics of the father the male body and of men's issues generally A special feature of the book is an international survey into what analysts and psychotherapists do when their patients clients bring overtly political material into the clinical setting The results including what the respondents reveal about their own political attitudes destabilize any preconceived notions about the political sensitivity of analysis and psychotherapy This Classic Edition of the book includes a new introduction by Andrew Samuels *Reflecting Critically on the Political Psyche*

Andrew Samuels, 2025-03-31 With passion and originality within this new book Samuels presents powerful material on culture and politics including a critical take on political violence and a compassionate account of the role of an individual when it comes to progressive politics Initial chapters include his commentary on Edward Albee's shocking play *The Goat* and a provocative and critical view on liberal idealisation of the Other Then there is more of Samuels' celebrated work bringing therapy thinking to bear on politics and as far as the practice and organisation of therapy is concerned readers will find new work on how to organise a good training you must use pluralism and a robust account of what a critical psychotherapy might look like A section on Jungian matters includes Samuels' work on Jung and Africans whose importance has long been recognised and a scintillating balance sheet for Jungian analysis setting its strengths and weaknesses alongside each other In a clinical section Samuels shows us what he means by the dynamic idea of the activist client With each chapter being preceded by a special retrospective introduction as well as including experiential exercises to ground the ideas this unique collection of papers will be of interest to psychotherapists Jungian analysts psychoanalysts and counsellors as well as academics working in those fields **The Ecocritical Psyche** Susan Rowland, 2013-03-01

The Ecocritical Psyche unites literary studies ecocriticism Jungian ideas mythology and complexity evolution theory for the first time developing the aesthetic aspect of psychology and science as deeply as it explores evolution in Shakespeare and Jane Austen In this book Susan Rowland scrutinizes literature to understand how we came to treat nature as separate from ourselves and encourages us to re-think what we call human By digging into symbolic mythological and evolutionary fertility in texts such as *The Secret Garden* *The Tempest* *Wuthering Heights* and *The Lion the Witch and the Wardrobe* the book argues that literature is where the imagination estranged from nature in modernity is rooted in the non-human other *The Ecocritical Psyche* is unique in its interdisciplinary expansion of literature psyche science and myth It develops Jungian aesthetics to show how Jung's symbols correlate with natural signifying providing analytical psychology with a natural home in ecocritical literary theory The book is

therefore essential reading for seasoned analysts and those in training as well as academics involved in literary studies and Jungian psychology

A Jungian Inquiry into the American Psyche Ipek S. Burnett, 2019-07-23 In *A Jungian Inquiry into the American Psyche: The Violence of Innocence* Ipek Burnett's penetrating cultural criticism enriched with psychoanalytical and Jungian insight offers a timely interrogation of national consciousness in the United States. Through evocative storytelling Burnett unpacks the images and myths that run deep in the American psyche from that of the New World the city upon a hill to the Manifest Destiny the melting pot and the pursuit of happiness. Against this backdrop she investigates the vicious cycles of innocence and violence that have dominated American history and continue to reinforce systematic oppression in America evident in racial and economic inequality xenophobia materialism and more. Burnett's thought provoking analysis exposes the ways in which psychological defenses such as historical amnesia projection denial and dissociation work on a collective level helping America avoid a confrontation with these violent truths of its past and present circumstances and its national character. With its seamless multidisciplinary approach and revealing insight this book will be of great interest to psychologists scholars and students of Jungian and post Jungian thought depth psychology and cultural and American studies. Eloquent and accessible it will engage readers who strive to be self reflective well informed global citizens.

John Betjeman Dennis Brown, 1999 Dennis Brown's book assesses Sir John Betjeman's contribution to poetry in the light of the way that his key themes have specific relevance to postmodern and environmental concerns emphasising its ironic self reflexivity its rendering of Englishness and a soft masculinity and its ecumenical Christian tolerance.

Understanding Non-Monogamies Meg Barker, Darren Langdridge, 2010-02-02 Most social scientific work on intimate relationships has assumed a monogamous structure or has considered anything other than monogamy only in the context of infidelity. Yet in recent years there has been a growing interest among researchers and the public in exploring various patterns of intimacy that involve open non monogamy. This volume gathers contributions from academics activists and practitioners throughout the world to explore non monogamous relationships. Featuring both empirical and theoretical pieces contributors examine the history and cultural basis of various forms of non monogamy experiences of non monogamous living psychological understandings of relationship patterns language and emotion the discursive construction of mono normativity as well as issues of race class disability sexuality and gender. This volume will be of interest to academics and practitioners working in the social sciences and anyone who is seeking greater insight into the intricacies of non monogamous relationships.

Touching the Earth Akuppa, 2002 Faced with the environmental crises we see many people carrying on as usual. If we look to those in government we see indecision or complacency. So what do we do? Do we follow the herd or do we look to our own sense of what is rational and compassionate?

Sacral Revolutions Gottfried Heuer, 2013-12-16 *Sacral Revolutions* is a unique project reflecting the contribution that Andrew Samuels has made to the general field of psychoanalysis and Jungian analysis in both clinical and academic contexts. Gottfried Heuer has brought together an

international array of authors friends and colleagues of Samuels to honour his 60th Birthday As a result the collection provides a creative and cutting edge overview of a fragmented field The chapters demonstrate the profound sense of social responsibility of these analysts and academics whose concerns include the mysteries and hidden meanings in social and political life This open and engaging volume includes a previously unpublished interview with C G Jung adding to its usefulness as an essential companion for academics analysts therapists and students

Deleuze and the Unconscious Christian Kerslake, 2007-03-08 By the end of the twentieth century it had been almost forgotten that the Freudian account of the unconscious was only one of many to have emerged from the intellectual ferment of the second half of the 19th century The philosophical roots of the concept of the unconscious in Leibniz Kant Schelling and Schopenhauer had also been occluded from view by the dominance of Freudianism From his earliest work of the 1940s until his final writings of the 1990s Gilles Deleuze stood at odds with this dominant current rejecting Freud as sole source for ideas about the unconscious This most contemporary of French philosophers acted as custodian of all the ideas that had been rejected by the proponents of the psychoanalytic model carefully preserving them and when possible injecting them with new life In 1950s and 60s Deleuze turned to Henri Bergson's theories of memory and instinct and to Carl Jung's theory of archetypes In *Difference and Repetition* 1968 he conceived of a differential unconscious based on Leibnizian principles He was also immersed from the beginning in esoteric and occult ideas about the nature of the mind Deleuze and the Unconscious shows how these tendencies combine in Deleuze's work to engender a wholly new approach to the unconscious for which active relations to the unconscious are just as important as the better known pathologies of neurosis and psychosis

The Bonds of Love, Revisited Eyal Rozmarin, 2016-03-17 Jessica Benjamin is one of the most important and influential psychoanalysts of the last 4 decades She is one of the founders of relational psychoanalysis a movement that has by now expanded over the globe and was also one of the first to introduce feminism and gender studies into psychoanalytic thought Jessica Benjamin is the most known and quoted representative of these two movements within world psychoanalysis and beyond in philosophy gender women's studies and cultural studies department everywhere The publication of her book Bonds of Love 1989 was nothing short of a revolution Psychoanalysis was until then a field immune to a changing world to the unrest of the 60s to the feminist and queer liberation movements to the new philosophies of the Frankfurt School in Germany and post structuralism in France The book was a game changer It called psychoanalysis to doubt its most basic premises on the human condition It read Freud through a feminist framework and through Hegel forever tipping our perspective on infancy gender and the interplay of power and dependence that drives human relationships from the start This volume marks the 25th anniversary of Benjamin's work Pulling together 15 international scholars it looks back on the book's first impact as well as on its continued relevance to psychoanalysis and gender studies today Chapters offer theoretical deliberations and elaborations of the book's original themes as well as

reflecting on it from more intimate angles as a source of personal and professional inspiration for feminists and clinicians around the world This book was originally published as a special issue of Studies in Gender and Sexuality Jung and Film Christopher Hauke,Ian Alister,2021-12-16 Jung and Film brings together some of the best new writing from both sides of the Atlantic introducing the use of Jungian ideas in film analysis Illustrated with examinations of seminal films including Pulp Fiction Blade Runner and 2001 A Space Odyssey Chris Hauke and Ian Alister along with an excellent array of contributors look at how Jungian ideas can help us understand films and the genres to which they belong The book also includes a glossary to help readers with Jungian terminology Taking a fresh look at an ever changing medium Jung and Film is essential reading for academics and students of analytical psychology as well as film media and cultural studies Relational Psychotherapy, Psychoanalysis and Counselling Del Loewenthal,Andrew Samuels,2014-05-09 Is therapy s relational turn only something to celebrate It is a major worldwide trend taking place in all the therapy traditions But up to now appreciation of these developments has not been twinned with well informed and constructive critique Hence practitioners and students have not been able to engage as fully as they might with the complex questions and issues that relational working presents Relational Psychotherapy Psychoanalysis and Counselling Appraisals and reappraisals seeks to redress this balance In this unique book Del Loewenthal and Andrew Samuels bring together the contributions of writers from several countries and many therapy modalities all of whom have engaged with what relational means whether to espouse the idea to urge caution or to engage in sceptical reflection Relational Psychotherapy Psychoanalysis and Counselling Appraisals and reappraisals presents clinical work of the highest standard in a way that is moving and draws the reader in The more intellectual contributions are accessible and respectful avoiding the polarising tendencies of the profession At a time when there has been a decline in the provision and standing of the depth therapies across the globe this book shows that whatever the criticisms there is still creative energy in the field It is hoped that practitioners and students in psychoanalysis psychotherapy counselling and counselling psychology will welcome this book for its cutting edge content and compassionate tone

Jung's Wandering Archetype Carrie B. Dohe,2016-07-01 Is the Germanic god Wotan Odin really an archaic archetype of the Spirit Was the Third Reich at first a collective individuation process After Friedrich Nietzsche heralded the death of God might the divine have been reborn as a collective form of self redemption on German soil and in the Germanic soul In Jung s Wandering Archetype Carrie Dohe presents a study of Jung s writings on Germanic psychology from 1912 onwards exploring the links between his views on religion and race and providing his perspective on the answers to these questions Dohe demonstrates how Jung s view of Wotan as an archetype of the collective Germanic psyche was created from a combination of an ancient discourse on the Germanic barbarian and modern theories of primitive religion and how he further employed v lkish ideology and various colonialist discourses to contrast hypothesized Germanic Jewish and primitive psychologies He saw Germanic psychology as dangerous yet vital promising rebirth and rejuvenation and compared Wotan to the Pentecostal

Spirit suggesting that the Germanic psyche contained the necessary tension to birth a new collective psycho spiritual attitude In racializing his religiously inflected psychological theory Jung combined religious and scientific discourses in a particularly seductive way masterfully weaving together the objective language of science with the eternal language of myth Dohe concludes the book by examining the use of these ideas in modern Germanic religion in which members claim that religion is a matter of race This in depth study of Jung s views on psychology race and spirituality will be fascinating reading for all academics and students of Jungian and post Jungian studies religious studies and the history of religion **On Racial Frontiers** Gregory Stephens,1999-06-28 Frederick Douglass Ralph Ellison and Bob Marley each inhabited the shared but contested space at the frontiers of race Gregory Stephens shows how their interactions with mixed audiences made them key figures in a previously hidden interracial consciousness and culture and integrative ancestors who can be claimed by more than one racial or national group Douglass something of an Irishman as well as a Negro was an abolitionist but also a critic of black racialism Ellison s Invisible Man is a landmark of modernity and black literature which illustrates the true interrelatedness of blackness and whiteness Marley s allegiance was to God s side who cause me to come from black and white His Bible based Songs of Freedom envisage a world in which black liberation and multiracial redemption co exist The lives of these three men illustrate how our notions of race have been constructed out of a repression of the interracial

Childhood, Well-Being and a Therapeutic Ethos Richard House,Del Loewenthal,2018-04-17 A key theme of this book is that we urgently need a therapeutic ethos in order to bring both educational and therapeutic sensibilities to bear on the issue of children s wellbeing if truly effective and appropriate policy responses to the current malaise are to be fashioned Not least we must pay particular attention to childhood experience showing that scientific and technical developments are always secondary to the resources of the human soul if we are to minimize the extent to which today s children will need therapy as adults This will entail moving beyond narrowly mechanistic definitions of and ways of thinking about well being and the psychological therapies This book offers pointers to the kinds of arguments that can inform what is rapidly becoming a central concern of politicians and policy makers Challenging Addiction in Canadian Literature and Classrooms Cara Fabre,2016-11-14 In the richly interdisciplinary study Challenging Addiction in Canadian Literature and Classrooms Cara Fabre argues that popular culture in its many forms contributes to common assumptions about the causes and personal and social implications of addiction Recent fictional depictions of addiction significantly refute the idea that addiction is caused by poor individual choices or solely by disease through the connections the authors draw between substance use and poverty colonialism and gender based violence With particular interest in the pervasive myth of the Drunken Indian Fabre asserts that these novels reimagine addiction as social suffering rather than individual pathology or moral failure Fabre builds on the growing body of humanities research that brings literature into active engagement with other fields of study including biomedical and cognitive behavioural models of addiction medical and health policies of harm reduction and the practices of

Alcoholics Anonymous The book further engages with critical pedagogical strategies to teach critical awareness of stereotypes of addiction and to encourage the potential of literary analysis as a form of social activism
